

VICE COMMISSION SEES MUCH WORK IN INVESTIGATION

Task Will Require Months and Perhaps Years of Study—Juveniles to Receive Immediate Attention.

Tentative plans for the work to be done by the municipal vice commission were mapped out last night at the first meeting of that body. Three committees to investigate various phases of the social evil were appointed by Chairman H. R. Talbot and L. J. Levinge was made secretary of the commission.

Three particularly phases of the problem will be considered by the commission, these being its relation to juveniles, its hygienic and medical aspect and its commercial aspect.

Judge W. N. Gatens was appointed chairman of the committee on the relation of the evil to juveniles. His assistants on that committee will be H. H. Herdman, Mrs. L. W. Shilton, Dr. Deane H. Tyndale and W. F. Gardiner.

pon, after chasing a brakeman several blocks at the point of a revolver, and a general fight was on, when the state railroad police rushed up and restored peace. Two of the pickets were arrested. Three of the guards were badly bruised in the melee. All of the guards are now armed with riot clubs.

REPORTS TO STRIKERS INDICATE COMPANY IS BADLY HANDICAPPED

San Francisco, Oct. 7.—Reports received from strike leaders from all points on the Harriman lines in California and Oregon and read to the union men at their daily meeting here today, indicate the handicap under which the Southern Pacific railroad is working since the federated trades in the shops left their jobs.

San Luis Obispo also reported round-house employees there went on strike for gloves, overalls, underwear and

When sheets to sleep on. They also demanded cigars and tobacco. The company granted them the demands.

HUNTINGTON STRIKERS TAKE OTHER WORK; ALL ENGINES ARRIVE LEAKY

Huntington, Or., Oct. 7.—All engines arriving in Huntington are leaking badly, but some are dead. Only one freight train left the yards Wednesday. No union men are working and all trains are working with no inspection of trains arriving or leaving. Assistant Supt. Ladd, U. L. Plummer, foreman of the yards, with C. A. Seaberg, assistant foreman, are coupling up the trains. All trains are late, including the fast mail, from noon to six hours. It is reported that cars are arriving in dead condition. Only six men are working in the yards and round houses, with no strike breakers arriving. Everything quiet. Strikers are securing other employment.

Car Shortage Becomes Acute.

New Orleans, La., Oct. 7.—The strike over the Harriman lines is being keenly felt along the Texas division of the Southern Pacific railroad, according to complaints received here today of a shortage of cars along that route.

Rioting Apparently Has Ceased. Chicago, Oct. 7.—Reports from towns along the line of the Illinois Central today are that the rioting there is apparently ceasing. It is admitted that many of the shops are not working, the imported strikebreakers being unable to perform the duties of the strikers.

Patriotism

The stomach is a larger factor in life, liberty and the pursuit of happiness than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder.

A sound stomach makes for good citizenship as well as for health and happiness. Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It builds up the body with sound flesh and solid muscle. The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. COMMISSION IDEA IS ABROAD IN PENDLETON

(Special to The Journal.) Pendleton, Or., Oct. 7.—A movement has been started in this city to secure a commission form of government and to that end the Progressive Non-partisan Municipal League has been formed with many of the leading business and professional men of the city enlisted as members. An initiative petition will be circulated during the month to have the matter voted upon at the coming December election. The advocates of the plan favor salaries of from \$200 to \$1200 a year for a mayor and two commissioners, believing that the duties of these offices will not require all the time of the officials. Another meeting of the newly formed league has been called for next Thursday at which time definite steps will be taken toward securing the adoption of a commission charter.

TAFT IS WILLING TO BE "SECOND DOSE" FOR SICK COUNTRY

(Continued from Page One.) dead people were at the depot for a glimpse of the chief executive, who was asleep when the train arrived, but arose and came to the rear of the car to greet the people. He made no address, saying he had been scheduled to stop at Wetslar, but that the train pulled through at 40 miles an hour. As the train pulled out the president said, "Good night; I hope you all sleep well." The special was preceded by a pilot engine.

Taft to Sleep in Bridal Suite.

(United Press Leased Wire.) Tacoma, Wash., Oct. 7.—Workmen are busy today putting the final touches on the Tacoma hotel's bridal suite, where President Taft will forget his cares Tuesday night. A room and bath in mahogany with buff walls, and another big room for the chief executive to dictate his speeches in have been reserved. Both will be screened from the rest of the hotel by heavy curtains.

Taft to Touch Snow Line. (United Press Leased Wire.) Tacoma, Wash., Oct. 7.—President Taft will go from warm sunshine to the snow line tomorrow. The snow line has been creeping down the slopes of Mount Rainier, until it has reached Paradise valley, which is as far up the big hill as the president will climb.

ONE BALLOON HAS NOT BEEN REPORTED

Berlin II is Being Sought in Middle Northwest and in Canada.

(United Press Leased Wire.) Mingo, Iowa, Oct. 7.—One balloon, the Berlin II, remains unaccounted for today from among those that were racing yesterday for the James Gordon Bennett international trophy cup and the Aero club of Kansas City is writing to Minnesota, Wisconsin and Canada for traces of it. Driven to earth near here last night at 9 o'clock because of hunger and the extremely cold weather encountered while passing over Lake Michigan and over the Twin Cities, the occupants of the Condor landed 20 miles east of Des Moines after being blown several hundred miles from their course. Pilot Dehonnet gives a harrowing account of the experience he and his associate encountered on their trip and speaks with considerable anxiety of those still unreported in the Berlin II. All of the other balloons came to earth and reported yesterday. No records have been taken. The longest flight, made by Kansas City II, of 450 miles, is far short of the 1171 mile record of A. B. Hawley, holder of the Lahm cup record.

PUBLICITY AGENT TELLS OF SPENDING STEPHENSON FUND

(Continued from Page One.) He knew that Bancroft was a candidate for the legislature, and voted for Stephenson for United States senator, he said, but he denied that he had paid Bancroft for his vote. He said that he had simply given the legislative candidate the money to be spent in Stephenson's behalf. He said he knew of no single voter who had been induced to vote for Stephenson as a result of the senator's campaign. "Do you mean to tell me that all your work, all this expenditure, about \$2 per vote, bore no fruit?" demanded Heyburn. "No," replied Sackett, "but I can name no particular person who was so induced." Journal want ads bring results.
