

### CROP STATISTICS SHOW DECREASES

#### Leading Yields in California Show Fall in Many Items Wheat Drops.

Washington, Oct. 11.—Statistics relative to crop yields for the state of California, compiled by the United States Department of Agriculture, are contained in an official statement issued today by Census Director Dutton. It is based on various estimates prepared under the direction of Dr. L. Grand Powers, chief statistician for agriculture, in the bureau of the records. The figures are preliminary and subject to slight revision later, when a few other items whose returns, but incomplete, will be included in the final tables. It is not expected that these additions will materially modify the amounts of crops given in the present statement.

The leading crops of the state for 1915, ranked in the order of valuation, were hay and forage, \$21,877,000; barley, \$11,134,000; wheat, \$8,334,000; dry edible beans, \$4,333,000; potatoes, \$4,279,000; oats, \$2,817,000; hops, \$1,711,000; and corn, \$1,517,000.

**Hay and Forage.**  
For the decade ending 1910 hay and forage showed an increase of 382,710 acres, 13.1 per cent. Starting with 128,024 acres in 1879, hay and forage rose to 1,421,574 acres in 1909, to 1,381,401 in 1910, and finally to 1,323,113 in 1915. Since the last 10 years barley has more than doubled. The total yield in 1909 was 26,441,554 bushels; the average yield per acre, 22 bushels; the average value per acre, \$14.45.

**Tremendous Decrease in Wheat.**  
In the decade between 1899 and 1909 wheat decreased 2,338,188 acres, or 32.2 per cent. From 1879, when 1,822,423 acres were harvested, wheat rose in 1889 to 2,446,807, but fell in 1899 to 2,022,408, and again in 1909 to 478,217. The aggregate yield in 1909 was 4,302,394 bushels; the average yield per acre, 12 bushels; the average value per acre, \$13.20.

**Increase in Potatoes.**  
From 1870 to 1909 potatoes increased 38,590 acres, or 6 per cent. From 38,178 acres in 1889, potatoes rose by 1899 to 42,098, and again by 1909 to 87,458. The total yield in 1909 was 8,574,805 bushels; the average yield per acre, 145 bushels; the average value per acre, \$72.10.

**Decrease in Oats.**  
In the decade ending 1909 oats increased 28,428 acres, or 25 per cent. Starting with 49,947 acres in 1879, oats rose to 67,569 in 1889, to 108,778 in 1899, and finally to 192,158 in 1909. The aggregate yield in 1909 was 4,142,658 bushels; the average yield per acre, 23 bushels; the average value per acre, \$17.70.

**Light Decrease in Corn.**  
Corn showed a decrease for the decade ending 1909 of 196 acres, or 1.7 per cent. From 1879, when 11,781 acres were harvested, it dropped to 70,323 in 1889, to 53,920 in 1899, and to 51,925 in 1909, a constant and consistent decrease. The total yield in 1909 was 1,273,901 bushels; the average yield per acre, 25 bushels; the average value per acre, \$20.75.

The cereals had an acreage of 1,970,493 acres in 1909, as compared to 4,024,354 in 1899, a decrease of 2,053,861 acres, or 53.5 per cent. Wheat showed the largest decrease, exceeding that of the total cereals. Among the cereals barley stood first, comprising about three-fifths of their total acreage and total value. Wheat ranked second, having an acreage and value slightly more than one-third as great as barley. Oats stood third. The average value per acre of the cereals in 1909 was \$14.28, less by \$2.40 than that of hay and forage and about one-fifth that of potatoes. Corn showed the highest average value per acre, rye the lowest. Of the hay and forage crops, "Grains cut green" ranked first, constituting about three-fifths of the total acreage and total value of the entire hay and forage crop. Alfalfa ranked second, having an acreage and value, respectively, more than one-fourth and one-half as great as "Grains cut green."

"Wild, salt, or prairie grasses" stood third, with "Other tame or cultivated grasses" fourth. There were a number of miscellaneous crops, of which the most of them were well above the more usual crops in value per acre.

**Pacific U to Buy Pipe Organ.**  
(Special to The Journal.)  
Pacific University, Forest Grove, Or., Oct. 11.—An enthusiastic meeting of students and faculty yesterday afternoon was launched for the immediate installation of a fine pipe organ in the chapel of this school. The plan is to raise \$500 in two weeks for the purchase of the organ, \$500 to be solicited from students and the remaining sum by popular subscription among friends of the school. There are only two other college pipe organs in the northwest, one of the University of Washington and Whitman college.

**Red Cross to Help.**  
(United Press Special Wire.)  
Washington, Oct. 11.—The Red Cross society will aid the Chinese rebels in their efforts to organize a Red Cross service at the scene of their present conflict, it was learned today. It is believed that a number of American and European medical officers in China will be available in organizing a field hospital service.

**Strict German Discipline.**  
From the Washington Post.  
"German discipline in the army is the strictest of any nation in the world," said Emil Groeger of Detroit at the New Ebbitt. "Every German boy must serve a definite period in the army. He can buy his way out in six months if he has money, but the richest must serve that period. The first thing told a recruit when he enters the barracks is that he does not know how to walk. That information startles him, because naturally he believes he had learned to walk years before. A drillmaster gets him in a court yard, and for a week, often a month, the poor recruit is drilled in walking alone. Then he gets another course, and the longest practice marches of a regiment are almost equal to the stress of actual war. It makes thorough soldiers of the boys."

The German idea of exactness was indicated by a tale told of a soldier's widow, who handed in a certificate that she was alive on February 15 and entitled to a pension. An official told her the certificate was not correct; that it bore the date of February 1, while her pension was due February 1. "We must have a certificate that you were alive February 1, not February 15," was the reply of the government officer, and such a certificate had to be made before the widow could draw her money.

### IDAHO OFFICIALS MAY YET OUTWIT O'NEIL

Barney O'Neil, who may be extradited now for alleged perjury.

(Special to The Journal.)  
Boise, Idaho, Oct. 11.—B. F. O'Neil, former chairman of the Republican state central committee, who is under indictment in connection with a charge of receiving deposits in the State Bank of Commerce, of which he was president, after he knew it was insolvent, and who is now in Vancouver, B. C., fighting extradition to the United States, may be brought back to this country to answer an entirely different charge.

According to a report from Wallace, O'Neil may be charged with perjury in connection with his report on expenditures when a candidate for the Republican nomination for governor last year. The Idaho primary law limits the expenditures of candidates for governor at the primary elections to \$150, and it is said examination of the books of the Bank of Commerce shows that O'Neil spent in the neighborhood of \$80,000.

Following the campaign he withdrew the money from the bank, and the perjury is included in the list of crimes mentioned in the extradition treaty existing between the United States and Canada, and it is said an effort will be made to secure his return on that charge. O'Neil within the borders of the United States, it is expected he will have to answer the charge now standing against him.

aggregate yield in 1909 was 4,142,658 bushels; the average yield per acre, 23 bushels; the average value per acre, \$17.70.

**Light Decrease in Corn.**  
Corn showed a decrease for the decade ending 1909 of 196 acres, or 1.7 per cent. From 1879, when 11,781 acres were harvested, it dropped to 70,323 in 1889, to 53,920 in 1899, and to 51,925 in 1909, a constant and consistent decrease. ### FOREMEN OF SHOPS DO NOT HEED CALL

#### Strikers Claim, However, That They Are Gaining Ground; More Men Employed.

The call toward a couple of days ago for all shop foremen on the Harrison railroad system to walk out and join the striking employees in their fight for recognition of their status, has not yet to the present time added to the number of strikers in Portland. The foremen claim to have not responded.

"The foremen in the company's shops in Portland are not under any obligation to respond to the call," said C. S. Harvill, secretary of the local federation, today. "But the call was for all foremen, strike or non-strike. We expect the foremen to stand with the men as the executive men in the traffic shop."

Announcement from the office of Vice President and General Manager E. P. O'Brien of the Harrison lines in Oregon today was that 44 new men have been employed by the company in Oregon since yesterday and that traffic conditions continue to be satisfactory.

Reports received by the strikers indicate this morning from The Eastern Ashland, Starbuck and Roseburg toll of more improved equipment, had engines and late trains. The strikers say they are making good every day.

The strikers say they are making good every day. The company distributed to the strikers asking the men to go back to work has not had the slightest effect, said Mr. Harvill today. "But a few men are expected to go back to work."

Mr. Harvill stated that several hundred men who had been struck out of the shops were discharged by the company last night. They had worked all day, he said, and when the men of their board was deducted by the company they received \$3 each, at \$1 a day.

**Traffic Receiver Asked.**  
(United Press Special Wire.)  
Vancouver, Wash., Oct. 11.—George W. Reynolds, Vancouver supply man, asked a restraining order for the Tacoma Traffic receiver, which he says even his \$200 is not pay.

### RELATIVE'S SHOT KILLS PRINCE TROUBETSKOY

#### Shot From James Wain, St. Petersburg, Oct. 11.—Prince Troubetzkoy, former husband of Anne Marie of Yugoslavia, is reported to be dead from a revolver shot inflicted by a relative, a student named Kozel. The assassination is said to have occurred in a railway carriage at Moscow.

**Brothers in Mass.**  
(United Press Special Wire.)  
Los Angeles, Cal., Oct. 11.—The striking employes of the Southern Pacific will gather this afternoon in a big labor union meeting and listen to reports from other parts where the strike is in progress. The strike leaders are focused over the way the men are "standing pat" and feel that the strike is as good as won. Minister Jones is to be the principal speaker at the union meeting.

**Terrible Suffering.**  
When our baby was four months old his face broke out with eczema, and at sixteen months of age, his face, hands and arms were in a dreadful state. The eczema spread all over his body. We had to put a wash on his face and the skin on his hands. Finally we gave him Sulfur Balm and in a few months he was entirely cured. Today he is a healthy baby. Mrs. Mrs. Lewis, Portland, Ore.

**Health Balm.**  
Sulfur Balm cures blood diseases and builds up the system. Get it today in usual liquid form or chocolate tablets called Sulfur Balm.

# A Great Rummage Sale

## At Portland's Largest Cut Rate Retail Drug Store
