No Man Can Come Electioneering Around His Wife, He Says.

(United Press Leased Wire.) "I don't believe in woman voting," he said. "It's a damned nuisance. Don't like the way this state has gone on it. It's a waste of time for a man electioneering around his wife."

TILLAMOOK COUNTY PLANS GOOD ROADS

Improvements and Machinery Last Year Cost People \$75,000.

(Special to The Journal.) Bay City, Or., Oct. 21.—Much agitation is going on in Tillamook county for good roads. At the same time talk is tempered by a controversy being waged by the granges and some of the most progressive of the commercial clubs for an economical expenditure of the county's money and for the construction of roads only where they are most needed and will serve the greater number of people.

The expenditure last year by the county for roads and road machinery was \$75,000, of which \$25,000 was spent for machinery. The completion of machinery owned by the county is as large as that of Multnomah county, including the city of Portland.

A bond issue is seriously considered. The people are watching Folk county to see how its road issue will turn out, and if it is a success one will be had here, in all probability.

Work will be started soon on the completion of the Neah-kannie mountain road, which will connect with the shore road already built by Clatsop county. This piece of road is not only a most difficult one to construct from an engineering standpoint, but a most expensive one also.
