Level, Cleared Lots \$25 **New Townsite** On Three Railroads

Rochester is located in the rich valley, western Washington, right at the junction of the Northern Pacific, Oregon & Washington and Milwaukee railroads. These roads are not proposed and built on paper only, but they are in actual operation right now and 12 passenger trains stop at Rochester every day.

NATURAL RESOURCES Rochester is surrounded by 50,000 acres of very rich land that produces the finest fruit, garden and other crops. This is being cut up into small tracts and hundreds of families will be living where before there was only one. **FACTORIES**

A large sash, door and box factory is being built, which will employ about 100 men. Adjoining the town is a large deposit of clay for a brick plant. Other factories are figuring on free sites. Rochester will be a city with a payroll.

AS A HOME

Schools, churches, hotels and stores have been built. The location could not be better, being high and dry, no better drinking water anywhere, and the best of all, no stumps to dig out. Enough vegetables and fruits can be raised on a few lots to supply an average family. Fuel and lumber are pientiful and SPLENDID INVESTMENT

The development of the great natural resources which is now rapidly going on, the building of industries, the excellent transportation lines and other features will make Rochester a city of thousands. Portland, Seattle, Spokane, North Yakima and dozens of other cities made thousands wealthy that bought when these towns first started. Property values at Rochester will rise rapidly and lots selling for \$25 today will be worth hundreds within a short time. Somebody will make this profit. COME IN TODAY
