"Being an automobile user of considerable experience myself and owing to the fact that there are a great many automobiles here of all sizes from the runabout to the heavy seven passenger touring cars, I have had ample opportunity to study the effect of the use of automobiles upon the bitulithic pavement and upon the cars themselves. The surface is ideal. I never saw an automobile skid on this kind of payement even in the wettest weather. The pavement seems not to be affected by the use of automobiles at all."-CHAS. H. HOT LAKE SANATORIUM R 0

E CREAT O

An examination of this map will convince you that the Hot Lake Sanatorium is located in Oregon. Many knowing the size and efficiency of this great Sanatorium-Hotel are not fully aware of its location, and are inclined to accredit it to some distant state. Hot Lake Sanatorium is by 12 hours by railway without change of cars from Portland. Travelers may leave Portland on O.-W. R. & N. train No. 18 at 10 o'clock a. m. and reach Hot Lake at 8.55 p. m., or take O.-W. R. & N. train No. 6, leaving Portland at 8 p. m., arriving at Hot Lake at 9.55 a. m. Trained attendants meet all trains, and the sanatorium is but 600 feet from the depot. Hot Lake is located in Union county, 314 miles east of Portland, overlooking the beautiful Grand Ronde Valley, Oregon's richest and most attractive valley. The great mineral spring is one of Oregon's most noted show points, and the cures effected there have given Hot Lake a National reputation. The equipment is as perfect as money and experience can secure. With the great mineral spring and with its known medicinal properties as a foundation, the management has worked with the one end in view—to make Hot Lake Sanatorium the one great cure place in the west.
