posed to labor unions. The defense was still wroth today over the action of the court in allowing the challenge of the state against Walter L. Coward. The fact that his case was seemingly parallel to that of George W. McKee, excepting that Cow ard believed that the Times was demolished by gas, while McKee believed the contributing cause was dynamite, had led the defense to believe that he ould be retained and the state be forced to use a peremptory challenge to eliminate him, thus evening up the score, as the defense will have to waste

a challenge on McKee. Challenge Is Allowed.

But Judge Bordwell thought otherwise and allowed the state's challenge of Coward for "cause." He had stated that he was a Socialist and had no prejudice against capital punishment and this latter statement was borne out by the record, as he has served on two murder cases where convictions were returned. He also said that he was per-cetly willing to lay aside his opinion and try the case fairly on the law and the evidence, but Judge Bordwell ruled that inasmuch as he had asked several former miners regarding the action of dynamite and discovered from their replies that there were no development in connection with the Times disaster such as always follow the detonation of dynamite or high explosives, he had made an "independent investigation" and so was ineligible.

Essley said he examined the steel taken from the wrecked Times building and was satisfied that it showed traces of having been twisted by a high ex-plosive force. He said, however, that he could lay aside his opinion and the defense passed him for cause. District Attorney Fredericks was apparently dis-turbed over this action and promptly challenged Essley on the defense's interrogation.

# SICK HEADACHE, DIZZINESS, TORPID LIVER, CONSTIPATION—CASCARETS.

Sick headaches! Always trace them to lazy liver, delayed, fermenting food in the bowels or a sick stomach. Polsonous matter, instead of being thrown out, is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, awful throbbing, sickening headache. Cascarets remove the cause by stimulating the liver, making the poison move on and out and purifying the blood. The effect is almost instantaneous. Ladies whose sensitive organisms are especially prone to sick headaches, need not suffer, for they can be quickly cured by Cascarets. One taken tonight will
