

### CENTRAL OREGON SPEAKER'S THEME

#### L. Sneijling Travels 500 Miles to Tell Ad Club of Great Country.

Traveling 500 miles by sea and 400 miles by rail, V. L. Sneijling, the "Mark Twain of Central Oregon," came from Lakeview to address the Ad club luncheon at the Hotel Portland yesterday.

The meeting had been advertised as a luncheon in central Oregon by Mr. L. Sneijling, who is chairman of the Ad club, but it had the appearance of a large gathering of the interior of the state brought to Portland for the occasion.

"For every man there was a linked-up speech from Sneijling and it was very interesting and very like those which Sneijling has given in other parts of the state. There were about 100 present. There were several central Oregon farmers, some of whom Sneijling has been for a week in the Willamette valley, at the Spokane last evening, where he has been for a week. "I had then to demonstrate to the Oregonians the advantage of growing irrigated crops. With their aid I expect to show the old residents the difference between plenty of moisture and an insufficiency during the growing season."

"It is a fact little appreciated that the rainfall in the upper part of the Willamette valley averages less than 14 inches per annum for June, July and August. This is less than the average rainfall in Colorado, Wyoming, New Mexico, western Oregon or eastern Washington.

"During the last year we have demonstrated that irrigated lands yield approximately 15 to 16 per cent more than unirrigated lands. This we have proved with regard to potatoes, corn, kale, truck, peas and many other vegetables and stock feed. For as a whole, it is concerned, outside of a few well watered tracts of small area, no such crops were ever seen in that section as we raised this year."

### EPISCOPAL PASTOR PURSUES AND CATCHES OFFENDER WHO MOLESTS WOMEN OF CHOIR

Should be the Journal.

Portland, Oct. 23.—Rev. Charles G. Quinn, pastor of the Church of the Redeemer of this city, last night appeared in a rain barrel competition with his calling when he pursued and captured D. O. Knowlton, who in an intoxicated state had been following women of the Episcopal choir and annoying them with attention. Several of the women had accused the church for their protection very excited and had related their adventures. The police were notified but Rev. Mr. Quinn did not await their arrival, going himself in search of the offending man. He overtook him and succeeded in leading him to jail unharmed.

### SCOTLAND YD. GIVES UP AFTER 19-YEAR SEARCH

(United Press Latest Wire.)

London, Oct. 23.—Scotland Yard, last night after 19 years of investigation into the disappearance of William Robertson Litterdale, a man of English bank manager, has finally stopped outside for the corpse, which will now listen to Litterdale's home and pass upon his death. Litterdale, young, affable, flourishing, engaged to marry, disappeared a few days before his wedding day, 19 years ago.

Later his identity appeared in the London papers, and then there came a letter from Miss S. A. H. Young, an old love of his. The letter to Miss Chapman contained 1500 of Litterdale's money and stated that he had died abroad. Miss Young's name, the "Forerunner," it coincided with "he was true to you."

Miss Chapman, however, Litterdale, "Miss Young" was not dead, but had been seen in London, and the corpse was now expected to prove his death.

### OLDTIME STOCKMAN OF MORROW IS DEAD

Idaho, Oct. 23.—Henry Padberg, one of the first settlers in Morrow county and oldest settler in the county, died Monday morning at the home of his daughter, Mrs. Mary Halverson. Mr. Padberg was born in Germany in 1813, came to the United States in 1831, and settled in the Willamette valley, where he married Miss Martha V. Riggs in 1847.

In June 1871, Mr. Padberg moved to Morrow county, where he had since resided. At first he engaged in the stock business, and for 21 years was one of the leading stockmen in Morrow county. He then sold his interest in the stock business and engaged exclusively in the grain business. Being one of the first and one of the best grainmen of Morrow county, he was known by almost everyone in the county. Mr. Padberg leaves four sons and two daughters. The daughters are Mrs. Mary Halverson and Mrs. Lavinia E. May, both of Iowa. H. L. Padberg, the oldest son, is a retired teacher and the mother of Iowa. William H., John H. and L. J. are all successful farmers of this county.

Mr. Padberg was married twice. His first wife died November 24, 1850. He was again married in 1851 to Mrs. Martha V. Riggs, who was deceased in the Alppeter Road, June 24, 1881.

### Meeting of Norwegian Synodical Board, A. D., Oct. 23.—Members of the Norwegian Synodical board, from all parts of the country gathered today in the town of Horton, this county, for their annual national conference. The session will continue several days and will be devoted to the discussion of the various matters relating to the work of the denomination. The church in which the conference meets is the only Norwegian Synodical church in North Dakota.

We will send you an elegant new piano at \$4 per month, rent to apply on purchase price if desired. Kohler & Chase, 375 Washington Street.

### VETERAN IRRIGATORS TAKEN TO WEST STAYTON

Should be the Journal.

Spokane, Wash., Oct. 23.—"My mission to Spokane in search of experienced irrigators has been entirely successful and I am taking back to the Willamette valley 15 or 16 good cultivators," said W. L. Sneijling of West Stayton, Or., the pioneer irrigator of the Spokane valley, at the Spokane last evening, where he has been for a week. "I had then to demonstrate to the Oregonians the advantage of growing irrigated crops. With their aid I expect to show the old residents the difference between plenty of moisture and an insufficiency during the growing season."

"It is a fact little appreciated that the rainfall in the upper part of the Willamette valley averages less than 14 inches per annum for June, July and August. This is less than the average rainfall in Colorado, Wyoming, New Mexico, western Oregon or eastern Washington."

### Chauffeur Faces Slaying Charge

Providence, R. I., Oct. 23.—Hermon K. Wagner, a chauffeur, was arraigned in court today in answer to a charge of manslaughter, growing out of the killing of Gilbert Hester several weeks ago. Hester was run down by a car driven by Wagner, who, the police allege, was intoxicated at the time of the accident.

### Health and Beauty Queries

BY MRS. MAE MARTIN.

Mrs. M. D.: For short, this hair there is nothing better to promote a healthy, vigorous growth than a good quinine tonic. But do not trust in any prepared tonic that may have been used so long as to have lost its strength. Get from any drug store an ounce of quinine and a half pint of alcohol mix together, and add a half pint of water. Massage this tonic into your scalp about twice a week. It will cause dandruff and scalp irritation to disappear as if by magic and you will soon notice your hair getting longer, thicker and beautifully lustrous. This splendid tonic is a positive remedy for falling hair.

Miss R.: You will find the following lotion a splendid skin whitener and complexion beautifier. Dissolve four ounces of spermax in a half pint hot water, then add two teaspoonfuls glycerine. This makes a rich cream of a face powder, but you will find it far better in every respect. It does not rub off or show like powder, and benefits the skin. Apply this lotion to the face, rubbing gently until dry. It will take away that shiny, muddy, rough look and leave your skin smooth and fresh looking. This inexpensive lotion is now used largely by women of refinement, and is unequalled for removing freckles, tan and skin pimples.

M. M.: No, do not use dry shampoo powder under any circumstances. Authorities on hair culture almost invariably condemn such mixtures, as they simply clog up the pores in the scalp and cause dandruff and other scalp troubles. When your hair needs washing, use for your shampoo a teaspoonful of anitoxin dissolved in a cup of hot water. This makes a rich lather that cleanses perfectly and will leave your hair brighter, cleaner and fluffier than ever before. Apply this mixture carefully, dries quickly and positively will not make the hair streaky and brittle like soap does. If you will use this shampoo once I am sure you will be so pleased that you will never care to try any other.

W. E. S.: To make your eyes clear, bright and the sparkle of health, dissolve an ounce of crystals in a pint of water and put a few drops in each eye twice daily. This soothing tonic is very strengthening to weak, tired, inflamed eyes and will make your eyes clear and beautiful. For sore, granulated lids it is splendid and greatly helps those who wear glasses.

Mrs. D. J.: You need a good strengthening tonic and liver regulator, to purify your blood and build up your health. Take before each meal a tablespoonful of the following: Dissolve a half cup sugar and one ounce barberry in a half pint alcohol, then add hot water to make a full quart. This mixture will clear up a yellow, pimply complexion quickly, and as a liver regulator, it is simply splendid. It makes the best home medicine imaginable, and does wonders in restoring lost appetite, energy and general good health.

Veta R.: To clear your complexion and make it smooth, soft and satiny, use the following cream jelly: Mix together one ounce of almonin, two teaspoonfuls glycerine and a half pint cold water. Stir and let stand a few hours before using. This grainaceous complexion jelly is the finest thing you can get for reducing those large pores below your eyes and clearing up your complexion. It removes all pore-dirt, blackheads, freckles and skin pimples, and when used as a massage cream fills out hollow cheeks and removes wrinkles readily.

Ella T.: Really, you have no just cause to worry on account of those superfluous hairs, because with a little delatone and water you can make a paste, which applied to the offensive hairs, and left two or three minutes, then rubbed off, will remove every trace of hair. Get an ounce of delatone and use as I suggest, washing the skin after removing the delatone, and you will be delighted with results. Delatone costs a dollar an ounce, but is worth every cent, as it is unailing.

Mae W.: I do not approve of dieting and exercising for fat reduction. The simplest and best way is to get four ounces of parotia from any drug store and dissolve it in a pint and a half of hot water. Take a tablespoonful before each meal, and to your great satisfaction you will soon notice your fat disappearing. This harmless remedy will not leave your skin wrinkled and flabby, and has the endorsement of thousands who have tried it.

## FOURTEEN MEMBERSHIPS REMAIN IN OUR 100 PIANO CLUB

You will have to act quickly if you have had a thought to join the Kohler & Chase 100 Piano Club; but 14 memberships remain and these will be snapped up within the next few days.

There is a life insurance feature connected with our gigantic Piano Club. This feature provides against the possibility of the piano being lost to the family in the event the head of it should die before the piano is fully paid for.

This unexcelled feature is set forth on the face of the contract in the simplest, yet strongest, language—like this:

### Life Insurance Clause of Our Gigantic Piano Club

If the signer of this contract should die during the life thereof, and all weekly rentals have been paid when due, the remaining installments will be canceled forthwith and a receipt in full for the piano turned over to the family of the deceased.

(Signed) KOHLER & CHASE.

This is a simple statement—without any "frills"—that covers the whole story. We want this club to be mutual, cooperative and helpful to each and every member in it. We want the saving to each and every member to be the GREATEST POSSIBLE. We want every protection that we can think of to go to all its members. In short, we want this big transaction to establish without doubt that you can come to our store and buy a dependable piano at a modest price, and buy it upon the easiest and best terms and conditions of sale. We want this big club to be a STANDING ADVERTISEMENT for us as long as we are in business, and THIS LIFE INSURANCE IDEA IS ITS CROWNING FEATURE.

If the head of the family dies—if the breadwinner dies—if the source of income is stopped by death—the piano is not lost to the family. The family will not have to work and worry to meet the remaining payments. They are immediately canceled and a clear "RECEIPT IN FULL" is given to the family of the deceased. Isn't this a comforting and reassuring way?

## If, With One Year's Use, the Piano Is Not Satisfactory, We Will Exchange It

THINK of buying a suite of furniture, automobile, a watch or anything of value, with the privilege of exchanging it at any time within one year from the time you bought it, and not lose a penny in the transaction!

And yet that is exactly what we are willing to do with these club pianos.

The club member can come to our store and make another selection. He can select a piano of equal grade or of better grade. Whatever money he has paid, whether it is \$40, \$50, \$60 or \$100, or whatever the amount, will be credited to the price of his new piano, and we will take the original club piano back without the loss of a single cent to him.

If you cannot come to the store, simply send us your check or a \$5 bill and say, "I want to join the club." Out-of-town applications will receive immediate attention and prompt shipment.

### ELECTRIC LINE MAY REACH ALBANY BY NEW YEAR

(Special to The Journal.)

Albany, Or., Oct. 23.—The work on the Oregon Electric two miles south of here is being rushed. Permanent piling is being put in for the bridge work south of here. The contractors bring this work have increased their help. They now have in operation three donkey engines and a steam shovel, which removes 18,000 feet of dirt per day. These contractors are working towards the Santiam river and expect to reach there within three weeks, providing the weather keeps fair. From all indications the Oregon Electric ought to reach here by the first of the year.
