Two Weddings.

The little town of Victorville, Catifornia, on the edge of the Mojave desart, was the scene of a very pretty wedding on last Monday, when, at the bome of the bride's parents, Charles F. Ellers, of Ellers Landing on the Wil-lametts river, and Miss Mary T. Woods, daughter of H. T. Woods of Victorville, were married, the Reverend G. H. Stephenson of San Bernardino, officialing. Charles Ellers is the youngest brother of the Ellers Brothers, of Ellers Music House, of Portland, and is in sharge of the big Ellers ranch on the lliamette. Gerd Ellers, another brother, made the journey to the south and acted as best man. Miss Jean Woods, sister of the bride, was the bridenmaid. After an extensive trip through southern California, the young couple arrived at Portland and departed to take poson of the new home which has just

een finished upon the ranch. Harry Richard Suter and Miss Floring Cantilla Swetland, daughter of L. O. Swetland of the New Perkins hotel, were married Wednesday afternoon at 3 o'clock in one of the parlors of the hotel. Dr. John H. Boyd of the First Presbyterian church officiated and only immediate relatives were present, After the ceremony a wedding supper was served in the banquet room, after which the young couple departed on the Shasta Limited for San Francisco, where they will make their home, having taken apartments at the Hotel Stewart. Mr. Suter will engage in the mercantile busiin San Francisco in the near fu-

in Portland for the last 10 years, is the Portland branch of the Needlework

Guild of America. Its methods are unique, yet effective. It carries to the

omes of the poor and the needy worthy eneficence at the season of year when

warm garments are appreciated by shiv-

ering bodies.

It is not an organization that deals

in the distribution of cast-off garments

what else to do with them, and give them away in the name of charity. Its

chief purpose is to give new garments and new articles of household linens needed in the house. But it does take,

niso, all sorts of wearing apparel for men, women or children, or household furnishings, that have been used if they

are in good condition.

To be a member of the Guild one must

give two new garments or articles, exactly alike, each year. Of course one is not restricted to two, but that is the minimum. These garmenis or ar-ticles are to be plain but substantial.

"This is such a simple way to help those who need assistance that I think

every man and woman in Portland, who has a warm home to enjoy should be a member of our Guild," said Mrs. S. T.

Hamilton president of the Portland branch. "Last year we collected and

distributed 2752 new articles, but this year we hope to collect not less than 5000."

Unique Plan Pavored.

The unique plan under which the Guild gets results is this: The presi-

dent appoints 12 section presidents.

These presidents each secure at least

three leaders who agree to get not less

than 10 persons who will give two or more new garments to the Guild. Each of the presidents also gets to persons to give two new garments. This makes

44 persons to each section, with 88 articles as the minimum number of

gifts. But very seldom does any sec-tion confine itself to the minimum num-

gave over 300 articles, and several over

The annual collection of these gar-

ments and articles takes place the sec-

ond week in November. An annual tea

come and see the nature of the work

being done. The tea will be given this

year furing the afternoon of November 8 at the Unitarian chapel, Seventh and

Yamhill streets. - The articles will be re-

ceived the preceding day at the chapel and will be assorted according to sizes and an invoice of the entire stock will be made before the distribution begins.

Individual Cases Cared for Pirst. "We take care of individual cases first," said Mrs. Hamilton. "We re-spond to any call that comes to us from

worthy persons, and there are many of them in this city. After we have them

provided for we send articles according to their needs to nearly all the charit-

able institutions in the cty. These

the hospitals, the Salvation Army, and

many others. Then we furnish clothing for the outgoing patients at the county

hospital. It seems that while the county provides for its patients while

needs when they leave.

Then we try to keep a chest partly filled with clothing for emergencies. We had a case of this kind last week when a family lost hearly all their clothing in a boat accident. The boat capsized while they were moving their things across the river. The family was poor and our help was timely for them. This emptied our chest, but we

are in the hospital no provision been made for supplying their

"Marriage" by H.G. Wells

The same Wells who used to write that Jules Verne kind of storieswho dropped them for something better-who then wrote "Tono-Bungay" and "Mr. Polly"—who is today the greatest novelist writing in English, has written a long story for THE AMERICAN. .

It is called "Marriage," because it begins where most novels leave off.

It will interest you, because it deals with the most common problem of married life, too much spending on too little cash.

It is in solving the problem that Wells reveals the imagination that' produced "The War of the Worlds," but it is in drawing the character of Marjorie that he shows his greatness as a writer.
