In Southern Oregon Progress Along Most Modern Lines is Lauded.

Salott, Or., Oct. \$2.-- "More bupare! than I have ever seen them. trackers more authorizable in their calling, teach ers better prepared and a more progres ers better prepared and a more progres-alva spirit generally in action efficars and teachers." were the words used by fixte Superinciphicut Alderman in tali-ing of his week's tour of southers Ore-gon. In Klamath. Madford and Grants Pans joint institution were brid. A atriking ithusization of the work done by the schools of the auto is found in Klamath sounty where the scannel training students of the high school are going out and putting mod-ers plugsbing into country house free school are going out and putting mod-ers plumbing into country homes from of charge so far as their time is con-cerned, for the sake of practice Elemath country is putting 2100 into manual training equipment for the high achool. Miss Tuttle with her domestic science girls of the high school gave an insti-tute banquest of doughture and coose. W. E. Pought is principal of the Elemath Fulls high school. At the Medford institute 200 isaschere were given an automobile ride over 24

At the Medford Institute 100 teachers were given an automobile ride over \$4 miles of pavement and tere shown the complete merging of city and country in unbroken orchards. Ashiand is putting \$100,000 into a school building and Grants Pass \$60,000. Today Superintendent Aldurunan goes to Albany and later in the week to Cendon for joint teactivates.

St. Louis, Mo., Oct. 32,-Characterising President Taft's western tour as a "frost" and claiming that in some places he attracted more attention than the president, Senator Jeff Davis of Arkansas arrived here with his bride today. "My wife and I happened to travel over practically the same route as President Taft," said Davis, "and we saw the results of, his trip at first hand. In some places we more attention than the president.

"Taft's western trip has been a frost and as palpably planned for political prestige, it has been a failure. The ma-jority of the people have been indif-Of course, the federal officeholders appeared at the various railroad stations to great the president and make themselves agreeable, but the ordinary citizens stayed away."
Senator Davis declared that Woodrow Wilson is strongest as a Demo-cratic presidential possibility in the

Sort of bloated? Big, as if you had eaten too much? That's from gas in your stomach. If it were only the discomfort gas produces, it wouldn't be so bad, but it's the damage gas does by dis-tending your stomach, which in turn presses against your lungs, liver, heart

It takes just about one week to positively and permanently remove this with Baalmann's Gas Tablets. Take two before and two after mesis, and at the end of one week you will have no more gas, no more difficult breathing, no height, and besides its function as a banquet hall, it may be used as a lobby last of all, your whole health will improve, and enjoy every morsel of food you take without fear of gas.

And all this you can obtain with one 50 cent bottle of Baalmann's Gas Tab-

These peculiar tablets are sold for 500 a bottle by nearly every druggist. If not in stock tell him to get them for you from his wholesaler, or send 50c in silver, stamps or money order to Hahnemann Pharmacy, 340 Sutter St.,

WHAT'S THE REASON?

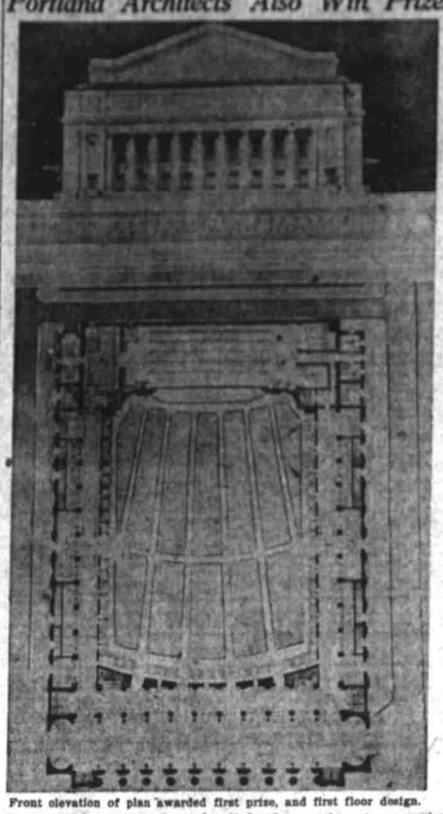

Many Portland People in Poor Health Without Knowing the Cause.

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, languor and de-pression. Likely the kidneys have fal-len behind in their work of filtering the blood and that is the root of the trouble. Look to your kidneys, assist trouble. Look to your kidneys, assistthem in their work-give them the help they need. You can use no better remedy than Doan's Kidney Pillsindersed by over one hundred thousand people, and by your neighbors in Port-

S. K. Entriken, 417 Killingsworth ave. time I was annoyed by backache and other symptoms of kidney complaint. Upon a friend's advice, I gave Doan's Kidney Pills a trial and L am glad to say that they benefited me greatly. I strongly recommend this remedy to all persons afflicted with kidney complaint."

believe that their solution is the best. At the same time we cannot refrain from pointing out that the majority of your competitors confused themselves as to conditions contained in the program to an extent sufficient to prevent them from presenting a pian simple enough to attract more than passing notice.

Winning Design Assures Fine Building of for its of the street reason we down that presidently the states and the street like without to present the property of the states of the street like the states of the stat Portland Architects Also Win Prizes

In the accompanying drawing, sub-jvided with an ample pantry or service

architects, the main facade has been developed on the short side of the lot facing Clay street. A single type of order has been adopted as best expressing the dignity and harmony which a building placed on the main axis of development of a civic center should possess.

The first floor plan shows a large overlook the handare to all the large of the second gallery a indies gallery on one side and musicians' gallery on the other have been provided and are so arranged as to

The banquet hall is on the first or rooms of the Historical society, and balcony level and is entirely indepen-dent of the auditorium.

It has been deemed proper to ar-

lobby for classes for horses, and as-semblage of circus acts. A runway for horses leads from the alley directly to the stalls in the basement. For circuses, the horses and wagons can be brought to the stage either by means of a large lift or the runway.

Supplemental Exits. In view of the capacity of the house

supplementary carriage exits have been provided on Second and Third streets; the main carriage entrances being off the public lobby on Clay street. This lobby is so arranged that access in had to it without in any way passing through the auditorium.

All entrances and exits to galleries are designed in conformity with the fire laws, special care having been tak-en to provide ample circulation and

staircases. On the first gallery floor a large ban-quet hall has been arranged over the lobby. This room is two stories in height, and besides its function as a banquet hall it may be used as a lobby ances or as a ball room. It is pro-1392 feet.

mitted by I. H. Freedlander and A. D. room (communication by means of a Seymour of New York, the successful dumb walter with the kitchen on the

overlook the banquet hall.

small lecture halls are arranged extending around the three sides of the building.

On the principal facade the main exhibition rooms are located in the at-tic and are lighted by means of skylights. Offices are arranged in the other occupants of the machine were organ recitals and concerts. For horse roof tresses as suggested. Special entrance with elevator and staircase has for horses and space for circus and horse shows have been laid out.

Second Temporary Stage. In order to reduce the auditorium to the proportion of a small theatre an grrangement has been effected whereby a second temporary stage is installed. This stage is movable and can be brought to the necessary height above the auditorium floor by means of jack

At the same time a temporary proscenium is set in place and the boxes and second galleries are swung out to form a fan shaped theatre, all as indicated on the basement floor plan. When this theatre is not in use the glass skylights are maded together, covering

the celling openings in the stage.

For the facade it is suggested that such material be used as may be convenient with the cost as stated in the program. If later on a larger appropriation be obtained, limestone or marble may be effectively used for the exterior.

ARCHITECTS WINS

(Continued from Page One.) that of leading eastern architectural

Exhibit Expensive.

Indicative of the great interest taken in the compatition by architects all over the country it was said that each of the 65 plans had cost their designers \$400 other we to \$1900, making a probable total of about \$30,000 for the plans alone. Each such as: of the 65, winner or not, will receive a letter of appreciation from the auditorium commission.

The commission also voted cordial

thanks to the jury consisting of Ellis F. Lawrence, Portland: Kirtland K. Cutter of Spokane and Willis Polk of San Francisco for the exceptionally faithful service rendered in connection with the inspection preliminary to the awards. The meeting this morning was presided over by Chairman T. B. Wilcox, and there were present also Dr. J. R. Wethport is expected tomorrow. The report of the architectural jury, which states the reasons for the placing of the awards in part is as follows:

Confused Themselves,

"About one third of the 65 competitors, in a general sense, analyzed the problem on practically identical lines. Their combined reasoning leads us to believe that their solution is the best.

"In final analysis the ability of com-

of this competition is not the procure ment of a plan so much as it is the selection of an architect. With this in AUDITORIUM PRIZE signs submitted, has given each in turn onsiderable study.

By reference to the program and by comparison of the solutions offered, your jury reached certain conclusions which are by them considered vital: "First-Simplicity of general plan and

freedom of circulation. "Second-Reasonable flexibility, In other words, adaptability of the proposed building to its several purposes,

"(a)—A convention hall, containing quarters for the historical society, small halls and accessories, offices and stu-

"(b) The adaptability of the build-ing to circuses, horse shows, etc. "(c) The adaptability of the building to grand opera. The program sug-gested the subdivision of the auditorium by movable or temporary stage appurtenances. Most of the solutions offered minimized this point and presented nothing more than such theatre nodations as are already pos-

sessed by your city. Suitable for Grand Opera House. "The plan which we will in general commend will be suitable for use as

grand opera house.
"Again: Your jury feels that while the program presented a complex prob-lem to most of your competitors, the most worthy have demonstrated their

The disposing of this splendid tract of 2000 acres of rich, creek-bottom and valley land is now on in earnest

It demands your quick consideration for many reasons--Here are a few of them

-Because of its remarkably low cost and the very easy terms on which it can be purchased.

-Because of its close proximity to Portland-38 miles. -Because of its easy access to rail and water transportation. -Because of the adaptability of its soil for orchard and farming purposes.

-Because it is on a high-grade macadamized road. -Because the finest water is procurable on every tract.

-Because of the remarkably low average of grade percentage throughout this section. -Because the Goble, Nehalem & Pacific R. R. passes directly through it, connecting with the Astoria & Columbia River R. R.

-Because it offers the most ideal combination of resources and advantages that the prospective acreage purchaser could wish for. -Because it is the most attractive acreage proposition yet presented.

Tracts of from 5 to 80 acres, at \$20 to \$60 an acre and on easy terms-Investigate Columbia Acres, Today
