

STATE DECLARES McNAMARA DEFENSE "DODGING ISSUE"

Assistant District Attorney
Ford Says Opposing Counsel
Trying to Cloud and
Evade Murder Charge.

(Continued From Last Week)
Hall of Records, Los Angeles, Oct. 31.—Charging that the defense in the McNamara case was trying to cloud and evade the direct charge of murder in connection with the construction of the Times building, Assistant District Attorney W. J. Ford today delivered the morning session by asserting that the attorneys for the accused were trying to "dodge the issue." For this statement he was sharply rebuked by the court, but it had the effect intended—it got before the jury and jarred the nerves of the defense attorneys.

The defense tried to make it appear that George W. Johnson, a 71-year-old retired miner, who yesterday said all of the union men he had ever had any dealings with were tramps and that they were too stupid to be able to do any work.

Calls Lawyer-Detective.
Darrow called a lawyer-detective, R. H. Fitzgerald, to testify regarding his visit to Johnson in his home in Pasadena. The detective said that the juror had expressed openly hostile views toward union men, but when Johnson was interrogated he specifically stated that he had never made any such statement, and Judge Bordwell promptly overruled the challenge of the defense.

"I made nine men in the jury box, who had been passed for cases by both sides and who are now subject only to peremptory challenge. Earlier in the day the state had failed to find ground for cause to challenge Frank Frakes, a farmer, but it was finally forced to accept him."

Just before court adjourned until tomorrow District Attorney Fredericka tried to qualify Thomas H. Preston, a local architect, who admitted the strongest prejudice to labor unions and a belief that either unionists or their sympathizers had blown up the Times. He had previously been challenged for cause by the defense.

Opposed to Union Labor.
Preston frankly told Darrow that he personally and his father before him

had been in the habit of opposing union labor.

He said that he had never made any such statement, and Judge Bordwell promptly overruled the challenge of the defense.

"I made nine men in the jury box, who had been passed for cases by both sides and who are now subject only to peremptory challenge. Earlier in the day the state had failed to find ground for cause to challenge Frank Frakes, a farmer, but it was finally forced to accept him."

and that he believed they generally were honest men. He had said that he was not sure that General C. C. Smith was a tramp, but that he was sure that he was a tramp. He said that he was sure that he was a tramp, but that he was not sure that General C. C. Smith was a tramp.

When court resumed its session today the state was industriously striving to get rid of Frakes. Frakes, it is stated, had read only a little about the Times disaster and had absolutely no opinion on the case.

His views did not please the state, and it tried to show that Frakes had a motive to testify against the state. It was alleged that he had been paid \$250 to testify against the state.
