

ROGOWAY CASE IS PUZZLE TO PEOPLE AS JURY INQUIRES

Ashland Physician Says Dead Man Was Shot Fatally and Stories of Probable Crimes Stir Public Sentiment.

(Special to the Journal.)
Ashland, Ore., Nov. 1.—The coroner's jury inquiring into the cause of the death of the Rogoway man, was still in secret session at 11 o'clock this morning. The jury, consisting of twelve men, is drawing up a number of questions that seem to be drawing the net about the case. These names are not divulged.

It is impossible to learn anything from either the coroner or the jury. The Ashland Tannery company is assisting in the investigation and will furnish means if need be to help bring the perpetrator to justice.

It is generally believed that Rogoway was killed either in Ashland or Medford. That he was shot under the heart was established by an autopsy performed by Dr. F. J. Swadburg of this city. The cause of the bullet was definitely traced to the front and lodged in the backbone. It was a .32 or .34 caliber revolver that fired the shot.

Two stories relative to murders committed here and at Medford are being spread today. It is said that two girls were coming home from Medford on the night of Rogoway's disappearance and were passed by an automobile bearing a chauffeur and two men. The men seemed to be in a hurry. One of the men inquired that he was dead. The story of the girls was first started at but is given considerable credence now. The auto was going toward Ashland.

The second story is that someone passing the Imperial rooming house in this city, about the time of the disappearance of Rogoway, heard a shot and a woman's scream. Immediately thereafter two men were seen coming down the stairs bearing a chair. One was heard to remark: "I didn't want to hurt you but you made me." The party took an automobile and started east, supposed to be for the hospital. Nothing was thought of it until the discovery of the body of Rogoway. There is no question but that the body was carried and deposited where it was found.

Rogoway Out for God's Time.
When Rogoway was here he borrowed \$2 from a local butcher and said he was going to buy a good time. He has not been seen since. He talked proudly about his home and family while here and seemed of a cheerful disposition.

There is now no possibility of suicide as the cause of death. It is known that Rogoway was not particular as to his companions and must have met his fate while in questionable society. His wife has insisted from the start that he met with foul play. It is known that a local chauffeur was with the deceased on the last day he was seen alive.

TEAL SEES HOPE; OREGON MAY GET UMATILLA PLAN

(Continued from Page One.)
sent approved the report which omitted any appointment for the Umatilla project, and, consequently, the president is the only one who can make a change in the report. In public interest the project should be completed. It is so much farther ahead of others and so worthy. I believe that an appointment on a basis of \$500,000 a year for eight years would complete the work and not interfere with any other project.

Now Is the Time.
"The Oregon delegation is doing everything it can, those that are in Washington, and now in the time for the work to be done. It is to be done. I talked with one of the engineers of the board and he expressed willingness to go over the matter with the president if the president so desired. Everything possible should be done to bring the matter to the president's attention, for a word from him would do it all. We are at a place now where no one in authority would attempt to exercise any influence to restrain the president from a favorable consideration. Governor West has already written to the president in behalf of the project and other persons in whom the president has confidence have also taken it up with him.

"As to the rivers and harbors appropriation," continued Mr. Teal, "it is apparently to be the same old fight. We must constantly meet for some reason the effect made to induce each congress to cut each river and harbor bill by a minimum. This will have to be looked after and we must do everything we can to support a proper appropriation.

Thirty Foot Channel.

"It is of the greatest importance now in the view of the early completion of the Panama canal and the character of the shipping that will use it that the mouth of the river and the channel from Portland to the sea be deepened to the maximum depth. The 30 foot channel has been approved by the engineers, but has not yet been adopted by congress. It must receive attention this session. While there is no question as to its adoption, it is extremely important to the commercial future of Portland that it be done now.

"The application for an injunction in the intermountain rate cases, Spokane, Reno, etc., has not as yet been passed on by the supreme court. A decision may be expected any day. Western transcontinental rates are in such confused condition and chaotic state growing out of the uncertainty that the situation is hard to predict. Should the railroads be permitted to advance all rates to the interior and change in advance rates to the interior and change in conditions may be very disturbing to commercial interests. I do not believe the tariff will be allowed to stand. I expect a report and decision in the distributive rate cases almost any day now."

Wilson Democratic Favorite.

Discussing the political situation, Mr. Teal said: "At the present time Governor Wilson of New Jersey is without doubt in the lead as the choice of the Democrats for the presidential nomination. There is no question if a vote were taken at this time he would be nominated. He is growing in strength and seems strong in the south as well as the north. I did not hear much talk about the nomination for vice president. Governor Baldwin's name of Connecticut was mentioned, but I see no reason to change my opinion that the Democrats of Oregon could organize the states west of the Rockies for Senator Chamberlain, which could very easily be done, and he would stand a good chance of securing the nomination. Senator Chamberlain stands well in the

and he will be well and favorably known to the business and political circles of the country. It may be that the case will be closed by the fact that the applicant's physical test has been completed.

OSWALD WEST REFUSES TO EXTRADITE RINKER

(Special to the Journal.)
Rink, Ore., Nov. 1.—Application for a writ of habeas corpus for the return of J. A. Rinker, the Denver deputy sheriff who is indicted on a charge of kidnaping Lou St. Martin, will not be granted. Governor West made this last night announcement.

"I have just noted that the papers are there on my desk. I will prepare a statement later, but I know the result now, that the request for a writ of habeas corpus will not be granted. Martin is wanted in Denver on a charge of desertion and non-support of his wife and baby. This is the most heinous crime known to the law. It is a disgrace to him before he was born. Therefore, Rinker will go back to his cell here in Oregon in the near future to the extent of the performance of his duties as a public officer. If he is wanted by the officers here, he can be taken at that time. I do not see any need of the state's going to the expense of extraditing him now when he will probably be here soon anyway."

GUARD YOUR EYES YOUR TIRED EYES

When your eyes feel tired and droopy and weary—if they burn and smart—have them attended to! Testing Eyes. With our especially equipped room for scientific eye-testing and competent optometrist, we can give you better satisfaction than any other optical house in the West. We are supplying clients of the third generation with Eyeglasses at Moderate Prices.

Sale of the Perry Graves Bankrupt Stock

An Awful Sacrifice At Eilers Music House

\$100 Cash for Good Upright Pianos
\$150 for Better Ones
\$200 for the Best!

(Or pay \$4, \$5, \$6 a month, with 10 per cent added to these prices)

Bring \$100 cash this morning to Eilers Music House and get a fairly good piano—choice of a roomful—or agree to pay \$110, paying \$10 now and \$4 a month, and have it sent home. Really very good pianos will go now for \$150, and the very finest that were carried by the defunct Music Company will be simply thrown away for \$200. If you want them on little payments, simply 10 per cent extra.

There are three great groups of this entire stock of Upright Pianos. We shall not carry them a single day longer than necessary; hence the prices to close out quickly are as stated—\$100, \$150 and \$200. One and the same offer to each and all. First comers secure best choice.

Depend upon it, we are in earnest, determined to close out all of the pianos from the receivers right away; hence these astonishingly low prices. Let us tell you why.

Early last summer the Perry Graves Music company unfortunately was forced into receiver's hands. Attempt was made to sell out at small prices enough of the stock to satisfy demands of insistent creditors. But this proved too slow. The receiver was then instructed to dispose of the entire establishment at whatever sacrifices might be necessary and stop expenses. Eilers Music House had the ready cash. Their offer was accepted and affirmed by Judge Gatens Monday.

The Perry Graves company was started in competition with another local institution of similar name. The finest stock of classical and popular music, the best known makes of mandolins, guitars, band instruments and all sorts of other musical instruments were carried in stock, as well as pianos. When we were invited to bid on the stock we decided, if successful, to install a complete general music department in our new establishment at Seventh and Alder streets, which is now being done. In a very few days Eilers Music House of Portland will carry everything known in musicdom, as we do also at Seattle, Spokane and at many others.

We had to take the entire stock of pianos in order to get what we really wanted. The Washington street store was closed yesterday. The pianos have been brought over to our new building. They are really in the way. Hence we must make quick sale of them.

There are some high grades—numerous medium grades and a very few cheap ones.

There are brand new pianos, second-hand pianos and quite a number that have been out on rent a very short time.

We have divided the stock into three groups. Instruments in group A go for exactly \$100. Instruments in group B go for \$150. Instruments in group C go for \$200.

These are the cash prices. Time buyers will have to pay an advance of 10 per cent, but we'll make the terms of payment as easy as any one may desire. Pick out your piano right away. We propose to make the quickest possible kind of work of this sale, hence this preposterous sacrifice.

They're upright pianos, all of them, understand; they're good ones and go for exactly the prices put upon them, namely: \$100, \$150, \$200.

Our guarantee goes with each instrument sold for \$150 and for \$200, and we agree to accept at any time at these sale prices these instruments in part payment for any new Chickering or Kimball, or other highest grade piano, or for a baby grand or a player piano that we regularly sell.

Remember, this is the one great piano-buying opportunity of yours; come right away; telephons or write Eilers Music House, now at the corner of Seventh and Alder streets, the Nation's largest dealers in Pianos and Talking Machines.
