at Annual Convention of Butter and Cheese Makers: President Lea in Chair.

> That Oregon is on the threshold of he greatest dairy era in the history of the state, that the production and sale of dairy products is to be of such magnitude that Oregon will become famous for her pure milk, her high grade butter and cheese, was predicted by speakers at the Oregon Butter & Cheesenakers' annual convention this morn-

> C. C. Chapman, in delivering the address of welcome, commented on the improvement in the milk supply re-sultant from agitation commenced two years ago. The agitation, being of a radical, enthusiastic and determined character, said Mr. Chapman, may have done some harm, but the injury to any individuals is far overbalanced by the good accomplished and the protection to life afforded.

> In calling the meeting to order Pres-ident A. H. Lea of the association de-clared that this, the second annual convention of the butter and cheese makers, will be considered hereafter as distinctively the turning point in the dairy in-dustry of Oregon and that there is a disposition on the part of all concerned to aid in developing the industry and in holding it to a high standard.

Philadelphia, Dec. 6.—Five of Mrs. Clara Roach's husbands received invi-tations to meet her in the office of Prosecutor Scovel of Camden, but only two responded. Nothing could be fairer-nothing more liberal. On this basis we ought to dispose of every Pianola Piano in our establishment before the Holidays.

THE PIANOLA PIANO WAS considered the very best Player Piano up to some time ago. But the many improvements developed in the Autopiano have relegated the other instrument far to the rear. There are now more than twice as many Autopianos sold than all other makes of Player Pianos combined.

-WE HAD TO CHOOSE between the Autopiano and the instrument made by the combine. We should have been guilty of faithlessness to the interests of the thousands of people who buy of us annually; the people who repose confidence in us, if we had not decided in favor of the Autopiano.

WE ARE NOW DETERMINED to get rid of all Pianola Pianos, no-matter what the sacrifice. The injunction secured by the Combine recently, whereby it was intended to compel us to adhere to certain big retail prices, has been dissolved. Eilers Music House has the right to sell Pianola Pianos at any price it sees fit, provided it offers them as "second-hand." Thus it is that Pianola Pianos that have never been used, and are the latest improved types, are ticketed in our salesroom as "second-hand."
