Perkins played on the Cornell team during the seasons of '97 and '98, but did not later ough tryout on his coast record and turn out for the team. He is a lover of football but has been unable to take an active interest in the game since his graduation on account of his duties as head of the Perkins Electrical com-

pany of Seattle, However, he has found time to watch the work of the now famous Dobie, and has witnessed the games at the University of Washington. Having arranged his business so that he can afford the time for coaching he has come to the State university with a proposition which, to say the least, is novel. Mr. Perkins applies for the position of head coach at the university on condition that he receives no compensation whatever and that the university may reserve the right to cancel his engage-ment at any time they are at all dis-satisfied. He states that his interest in football is so keen that he wants to reenter the game, not for profit but for the satisfaction of developing a championship team.

"With men of the caliber of these,

he said, "I can see absolutely no reason why Oregon should not develop a team which would make a clean sweep of the northwest."
Perkins stated that his trip to Eu-

gene was not a premeditated one, but that while in Portland on a business trip he noticed in the papers an account of the proposed graduate system. McCredie talked trade with several managers who wanted Tommy Murray, but he hasn't got it fixed up yet. Murray is well liked in St. Paul, and he may go there. Indianapolis also wants him and has offered a southpaw pitcher, Manager Mac heard that Pitcher Greenwell, the big southpaw, had been shot while he was in the east, but expects that he will be all right.
