Only a little bit of pink humanity; kicking, squinting, pushing, humanity; that brings a smile to the lips of everyone who views it. But at what a sacrifice it is given to the world. Behind the curtain lies the mother stilled in death.

Good Roads for Child Welfare. At a first glance, good roads seem rather far removed from child welfare, but upon second thought they are very closely allied. Every mother, living in the country, who has children of school age, knows to her dismay what hard roads mean to her and her children.

Family unity is more easily secured when the members of the family have formed the habit of playing together in their leisure hours.

Community spirit is more easily secured through play in which all members of the community share. Democracy rests on the habit of playing together in their leisure hours.

The highest forms of spiritual life are possible when there has been developed a strong play spirit. Social progress depends upon the extent to which a people possess the play spirit.

COMMUNISTIC IDEA TO BE WORKED OUT

Philadelphia, Jan. 27.—Kickers are kicking again at Arden; at least that is the way the standpat single taxers put it, but the kickers say they are adhering to the rights of freeshorn citizens to resist tyranny and to snatch freedom from a triumvirate of domineering trustees who want to boss everything.

The single tax colony in Delaware county is again reeling with rumors of war. Never since the day the George Brown, the shoemaker anarchist, first showed his lavender socks in the pretty rural community, or since the time Upton Sinclair appeared with his affinity-craving wife, has the community known a moment's peace.

George Brown, who in the summer had the leaders of the colony put in a few days breaking stone in the county jail because of their proclivities for Sunday tennis, is one of the malcontents who is going to hike away from the community and start a real Socialist colony—some of your make believe single tax communities, but have for men and women who want the universe remade according to their pattern.

Boys to Get Spanking for Stealing Boat. "Go home and tell your mother to spank you."

That was the command issued from police court to four young boys today, and a policeman was sent along with them to see that the message was given to the mothers.

The boys who received this injunction were Harry Fox, Fred Nelson, Clarence Gilbert and Frank Myers, the first three being 12 years old each and the last named 17 years old.

They stole a rowboat, owned by Mr. Davis, from the foot of Alder street, and started on a journey down the placid Willamette. They got as far as Ankeny street when their craft bumped into a scow and capsized. The boys were fished out of the river by a telephone lineman who happened to be near. Harbor Patrolman Priskey brought them to the police station.

Lebanon People to Improve Poor Roads. (Special to The Journal.) Cottage Grove, Or., Jan. 27.—A special committee was appointed by the Commercial club at its last meeting to make arrangements for the forming of a good roads association. The good roads proposition was gone into very thoroughly. There is a determination among members to see that a number of bad roads are fixed up at once. For a special committee was also appointed to meet with the county commissioners on road business.

Factory Girl Gives Up. Too Sick to Work—Doctor Advised Operation. Restored to Health by Lydia E. Pinkham's Compound.

Poughkeepsie, N. Y.—"I run a sewing machine in a large factory and got all run down. I had to give up work for I could not stand the pains in my back. The doctor said I needed an operation for female trouble but Lydia E. Pinkham's Compound helped me more than the doctors did. I hope that every one who is suffering will get the Compound. My pains, nervousness and backache are gone and I have gained five pounds. I owe my thanks to your medicine for it is the best I have ever had. I am now a working girl friend, and all women who suffer should write to me for a special advice."—Miss TILLIE PLENZO, 3 Jay St., Poughkeepsie, N. Y.

When a remedy has lived for over thirty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their very lives to it, is it not reasonable to believe that it is an article of great merit?

We challenge anyone to show any other one remedy for a special class of disease which has attained such an enormous demand and maintained it for so many years as has Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Ditchburn is Again Candidate for Judge. John Ditchburn, who two years ago was one of the Republican nominees for the circuit bench in Bonneville county but was disastrously defeated by Judge W. N.
