Brief Notes of Sunday's Happenings

World Events Occurring From 3 o'clock Sunday Morning Until 3 o'clock This Morning Rapidly Sketched.

Political.

At a meeting of representatives of 24 counties in Oklahoma resolutions were adopted pledging the state to Roosevelt, and a fund of more than \$5000 was subscribed for the purpose of promoting the movement. A telegram was sent to the ex-president stating that "the west as well as the east is calling for him." Ex-Senator Wilson of Seattle, Wash., reiterates his belief that President Taft will be renominated and rejected. To nominate any other Republican, he declared, would be to invite overwhelming defeat. He thinks Roosevelt, if nominated, would fall victim to prejudice against third term.

Eastern.

Mrs. Catherine Waugh McCulloch, Evanston's woman justice of the peace and a leader in the woman suffrage movement in Illinois, has given out a decalogue for Chicago suffragists. She admonishes her sisters not to bite policemen, to hurl attacks on opponents, to refuse to pay taxes, and to refuse to vote for women through a megaphone.

Twelve persons are believed to have been drowned near Cairo, Ill., Sunday, when a rowboat in which they were being taken to the city from Bird's Point became lost in an ice jam. In a speech at Chicago Judge Kavanaugh declared those who favored the abolishment of capital punishment are "misguided sentimentalists." Only 59 murderers were executed in 1911, a year in which 10,000 murders were committed. In Chicago alone there were 202 murders and no executions.

The principal features of interest in the steel trade last week were the release of large orders for rails and bridges by railroads, an advance of \$1 a ton in the price of wire products, a revival in marine work and signs of greater activity in structural contracts.

President Taft may intervene to effect a suspension of the war department's order to increase the rate on westbound freights on the Panama railroad from \$9 to \$10 on February 4. California shippers will present arguments favoring suspension of the order. The United States government has awarded contracts for 25,000 tons of armor plate for the battleships Nevada and Oklahoma.

Frederick Delano, president and one of the receivers of the Wabash railroad, is in New York arranging for an issue of \$1,000,000 receiver's certificates for improvements of the road.

Pacific Coast.

Carences which W. M. Lauer, a farmer near Stockton, Cal., bestowed upon his baby, resulted in the death of the child. Lauer's finger became infected, and subsequently, without thinking, he took the baby in his arms and fondled it. The child became inoculated.

It is learned that the two unmasked holdup men who robbed the Hillcrest branch of the Royal Bank of Canada, Friday, got away with \$1000 instead of only \$1995, as given out at first by the bank officials. No arrests have been made in connection with the robbery. After fighting for 10 days to resist the efforts of the officials of Idaho to have him taken back to Halley to face a charge of embezzlement, George W. Kautz, a contractor of Halley, under arrest at San Diego, has given up his struggle, discharged his attorney and announced he would go back and face his accusers. He is charged with defrauding the Utah Construction Company out of more than \$10,000.

Press Longley, the hard of Butte, Cal., is dead, aged 78. He was one of the oldest pioneers of the county, having crossed the plains in 1849. He had written many poems of great merit, which were copied far and wide. A contest has been filed attacking the will of Mrs. Elmira Stone, who died at Los Angeles January 8, leaving an estate valued at \$300,000, of which \$60,000 represents property in Seattle. E. H. McPherson, the executor, is charged with having unduly influenced the deceased.

The Central Idaho railroad will build its connecting link between Prairie City in central Idaho to Boise next spring. The completion of the link places Boise on the main line of a railroad and gives the Oregon Short Line a double track system through the southern part of the state over which its limited trains will be operated. The bridge of the Payette Valley railroad across the Payette river at Ontario was washed out by the high water and ice Sunday. This will stop all traffic over the line until the bridge can be rebuilt. Leonard Kendall, 2-year-old son of Arthur Ball, was drowned at St. John, Wash., Sunday morning. The body was recovered 100 yards from where the child fell in. J. A. Butterfield, owner of a shingle mill at Shalghat, Wash., was killed Sunday afternoon when the rack arm of an upright shingle machine struck him in the stomach. The victim's son was operating the machine.

Foreign. The British consul at Hodeida, a sea-

Mr. Shuster will stay in London several days and will speak before the Persian committee, composed of members of the houses of commons.

BUILD SAWMILL ON HUME ESTATE

New Owners of Rogue River Property Will Make Improvements.

(Special to The Journal.)

Gold Beach, Or., Jan. 29.—The Macleay estate of Portland which recently bought the Hume estate of 15,000 acres of timber and farm land lying along Rogue river, has commenced active operations on a large sawmill on the north side of the river. In connection with the mill a saw and door factory, box factory, shingle mill and veneer works, will be operated, working up the fir, cedar and myrtle timber on the place. The farm will be restocked with thoroughbred animals, while large areas of the farm which had been under cultivation, but which has grown up to brush in recent years, will be cleared and set to choice fruits, mostly apples. It is likely that at least 100 men will be employed when spring opens.

FT. GEORGE WRIGHT MEN BOOKED FOR NEW CLIME

(Special to The Journal.)

Spokane, Wash., Jan. 29.—While Lieutenant Colonel Charles W. Penrose, U. S. A., commandant at Fort George Wright, denied that orders have been received here, directing the early removal of troops from Spokane, the eight companies of the Twenty-fifth infantry are being recruited to full strength and artificers are at work building "squad boxes" and there are other activities to indicate that the soldiers are being placed in quarantine on their arrival at the post and are kept apart from the regular soldiers until it is determined they are free from contagious diseases. Other precautions also are being taken.

Miscellaneous.

William D. Haywood, ex-secretary of the Western Federation of Miners, who is in Lawrence, working in the cause of the striking textile workers, was denounced by the Denver Trades and Labor assembly Sunday as an enemy of organized labor.

General Arthur Murray, commanding the western division of the army, is now in Washington to enlist the interest of congress and the war department officials in his plans for the participation of the army in the Panama-Pacific exposition. If his plans are realized he is confident that the army exhibit will be the most attractive ever presented at an exposition.

A party of 72 Mormons, mostly Scandinavians and half of them women, bound for Utah, arrived at Halifax, by the steamer Grempian Sunday.

One of the most noteworthy achievements of American foreign commerce in recent years, according to a statement by the bureau of statistics of the department of commerce in labor, was in the automobile business in 1911. More than \$20,000,000 worth of automobiles during the year, 20 times as much as a decade ago. A speedy reduction of the number of regiments in the Philippines by one half has been decided by the government for reasons of economy and military

FREIGHT ON GRAIN REDUCED BY ROAD

Southern Pacific Opens Klamath Field to Rogue River Buyers.

(Special to The Journal.)

Klamath Falls, Or., Jan. 29.—It is practically assured that the freight rates on grain and flour from Klamath Falls to points in the Rogue river valley will be cut practically in two as soon as the new rates can be published. The Klamath country produced a large surplus of grain last season, but the exportation was made unprofitable on account of the high rates. There is a shortage of grain in Rogue river valley, only 60 miles from Klamath Falls across the mountains, but the rate to Ashland and Medford was much higher than the rate from Portland to these points.

The freight from the section must go south a hundred miles to Weed and then back north on the main line. The rate was about \$7 per ton on grain to Ashland. The new rate promised is \$3 to Ashland and \$3.25 to Medford. The Southern Pacific was appealed to for a lower rate to points both north and south. The lower rate to Rogue river valley points has been promised and it is expected that reductions in rates to California points will be announced soon.

Coos County Pioneer Passes.

(Special to The Journal.)

Coquille, Or., Jan. 29.—Mrs. Elizabeth Fouts, an old pioneer of Coos county, died at her home at this place Thursday. Mrs. Fouts crossed the plains with her husband, coming from Missouri to Douglas county in 1852, by ox team. In 1867 she came to Coos county, where she has resided continuously until her death. She leaves two sons, John and Jake, who have lived bachelors with their mother for 25 years, since the death of her husband.

Socialists Have 200 Out.

(Special to The Journal.)

Cottage Grove, Or., Jan. 29.—The first reception given by the Socialists of the city Friday night in Phillips hall, at which fully 200 were in attendance, was successful beyond the hopes of officers

of the local and is an indication of the growth of the Socialist movement in the city. There was a long program following the supper, the feature of which was the address of Rev. Robert Sutcliffe, of the M. E. church, on "Brotherhood."

Army Officers Sabre Pollicemen.

(United Press leased wire.) Madrid, Jan. 29.—Court martial was today ordered for a number of prominent young army officers who recently "rough housed" one of the leading music halls because an actress sang a song to which they took exception. The rest of the audience took the singers' part. When the police arrived the officers turned on them, drew their swords and severely wounded several policemen. It required the presence of the chief of police and reinforcements to quell the disturbance and arrest the army men.
