

REZ GARRISON RISES IN MUTINY. FIFTEEN ARE DEAD

Resignation of General Orozco
Brings on Revolt; Two Americans, One a Boy, Slain;
Death for Ringleaders.

General Pasqual Orozco.

(United Press Leased Wire.)

El Paso, Texas, Feb. 1.—Fifteen persons, including two Americans, one a boy of 12, are dead today as the result of mutiny in the Mexican federal garrison at Juarez, across the river from here. The Fourth United States cavalry, commanded by Colonel Edgar Z. Steever, is guarding American interests on the border. Men, women and children both American and Mexican, are fleeing into El Paso. Four troops of American cavalry from Fort Bliss are guarding the American side of the Rio Grande and assisting refugees across the border from the Mexican town. There have been no violations of neutrality as yet, and all bridges are today being carefully guarded.

Revolt broke out in the garrison upon the arrival from Chihuahua, of newspapers stating that General Pasqual Orozco, who was one of the most conspicuous revolutionary figures in the recent Maderista movement, had resigned, because of the discharge of 100 men in the Juarez garrison. Mutineers captured their commander and threw him into prison shortly after sundown last night. Then they opened fire upon the loyal federal, beginning a conflict which lasted about the government house for hours and finally spread throughout the town and as far into the outskirts as the race track.

Gambling houses were wrecked, including the partial demolition of the two big keno games run in Juarez by Americans. Guy Runkle and Fred L. Layne, Americans employed in the gambling houses, were wounded. The visitors at the resorts were thrown into panic. Numerous women tourists were present when the fighting began and bullets crashed through the walls.

C. F. Davis, an American reporter for a Memphis (Tenn.) newspaper, was arrested by the mutineers as he was telephoning from Colonel Estrada's headquarters. The guard placed over him was killed and another soldier appeared Davis knocked him down and fled amid a hail of lead. Davis says two other Americans are yet under arrest.

Death Penalty for Ringleaders.

(United Press Leased Wire.)
Mexico City, Feb. 1.—The Mexican war office here is active today as a result of the mutiny at the Juarez garrison, and it is understood that when the government retakes Juarez the entire garrison will be court-martialed and the ringleaders shot.

President Francisco I. Madero and General Pasqual Orozco had a long consultation today regarding the situation at Juarez. It is understood that Orozco has resigned command of the military department of Chihuahua, and that this resignation and the discharge of 100 soldiers of the Juarez garrison caused last night's revolt.

Pull Out a Hair

The Way to Tell Whether or
Not Your Hair Is Diseased

Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. Ninety-eight per cent of the people need a hair tonic. You can make a test yourself that you can see and understand, which will tell you whether your hair is healthy or not. Pull a hair out of your head; if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want every one whose hair requires treatment to use Rexall's "92" Hair Tonic. We promise that it will not cost anything if it does not give satisfactory results. Rexall's "92" Hair Tonic is designed to overcome dandruff, itching scalp, irritation, stimulate the hair roots, tighten the hair already in the head, grow hair and eradicate baldness.

Out of 100 cases where it was given a thorough, conscientious test, it grew hair on 93 heads, which should be sufficient proof that Rexall's "92" Hair Tonic contains extraordinary remedial and hair growing qualities. It is because of our knowledge of this preparation and our sincere faith in its goodness that we want you to try it at our risk.

Rexall's "92" Hair Tonic is a clean, clear preparation which does not grease, gum or thicken the hair, and it has a very pleasant odor. We have it in two sizes, price 50 cents and \$1.00. Sold only by The Owl Drug Co. Stores in Portland, Seattle, Spokane, San Francisco, Oakland, Los Angeles and Sacramento.

JUDGE M'GINN SETS NEW MARK ON BENCH

Judge McGinn of the circuit court has broken all records for work. When his court closed yesterday evening he was on his ninth case within two days. Beginning Tuesday morning, the judge had four cases on his docket. Tuesday evening they were disposed of, and the docket was clean for yesterday five cases were sent him in the morning, four of which were tried.

Besides hearing the nine contested cases, Judge McGinn heard two motions connected with other cases. Each of the cases were minor controversies,

which the judge declared should have been heard and settled in the lawyers' offices. None should have ever reached the circuit court, where attorney fees and costs accumulate. Fully 90 per cent of the cases in the circuit court are of this character.

Singers Visit Chehalis.

(Special to The Journal.)
Chehalis, Wash., Feb. 1.—Twenty-five members of the Tacoma Saengerbund surprised the local singing society Tuesday night, bringing an entertainment all their own. About 100 local singers gathered quickly to aid the visitors in enjoying the evening.

BATTERY A WILL GIVE BANQUET FRIDAY EVE.

Battery "A," Oregon national guard, the oldest standing military organization in Oregon, will celebrate its forty-sixth anniversary with a banquet to its present and past members tomorrow night at the Armory. Among the invited guests will be Governor West and many prominent officials of the O. N. G. and regular army. Extensive decorations and entertainment features have been planned for the event. The banquet will begin at 7:30 o'clock.

Strike Hits Newspapers.

Brisbane, Australia, Feb. 1.—Over 15,000 men are now out in the sympathetic strike here. The mechanical and editorial staffs of the Daily Mail and the Courier have gone out, and as a result only four page papers were published. All the strikers are orderly.

A Round-Up

Since the government authorities have begun to "Round Up" a few of the men who have so long brought odium upon the name of honest labor, I have been urged by some editors to publicly define the reasons for my seven years' newspaper campaign on the tyrannies of many Labor Union Leaders.

Some men endow colleges. Others build libraries.

Both educational.

I preferred to devote to newspapers my contributions toward education, warning the people to protect themselves against the greatest, most tyrannical and dangerous trust this country has ever seen.

Especially insidious and dangerous, because its inner plans were not understood by the average citizen who, seeing no immediate slavery to himself, peacefully followed his own pursuits and blindly allowed the self-seeking Labor Leaders (?) to weave their web stronger as time went on. Not one word in my entire campaign has been uttered against peaceful trade associations.

I have only tried to defend the several million honest and law-abiding workmen who protest against the bullying and abuse of those in power.

No one seemed to sympathize with the few thousand widows and orphans of the men murdered while faithfully trying to earn a living under God's permission but against the "orders" of the "Labor Trust." So I tried to present their cause from time to time.

The healthy average common citizen is perhaps deserving of at least some of the inconvenience and loss put on him from strikes and other labor leaders' tyranny as a reward for his indifference.

I knew years ago that the plan of this big labor trust was to ultimately gain control over every workman, clerk and employee in the U. S., including farm hands and government employees.

This has been partly accomplished in some localities; then followed acts which clearly show the intent.

First, to harvest initiation fees, sometimes up to \$100 each to "join the union."

Next, monthly dues. Say, \$25.00 a month in a town with 10,000 "members" at 25 cents each.

Next, "fines," assessed for some infraction of "rules."

Then the lash of the slave driver came forth. Orders to strike; what to buy; what not to buy; how to vote; when to parade (to show power) and to contribute from the hard-earned pay envelope for strike benefits to other men forced into idleness pending negotiations between crooked leaders (?) and crooked employers who hire said leaders to call strikes on competitive jobs, thus making the workmen tools, kept idle while the chiefs scrap for control or bribe money.

One of the hardest strokes of the lash is the money forced from members to defend dynamiters, sluggers and murderers when caught.

But let an honest workman, who perchance has been driven into "the union," dare to disobey one of these "orders" and he is taught a lesson through the slugging or dynamiting committees.

The slavery of the honest American workman is pitiable when "closed shop" full control is obtained by the tyrannical leaders.

Now, observe the plan of this gang to govern men and affairs. "Organize" every trade. Insist on closed shop. Then use the power of numbers to induce government officials to permit organizing all government employees. Some of the oaths defining that the union rules shall "precede Church, State and Family."

Then force Congressmen to pass anti-injunction laws to prevent courts from stopping proposed outrages.

Force merchants to hire only "union" clerks and sell only "label" goods. Use union funds to support slugging and dynamiting crews to drive back the protesting ones or "remove" them.

Of course, in carrying out the plan for complete control by the gang, some were caught.

Whenever openly exposed the men "higher up" immediately begin to assess members to protect the criminals and always rush into print with loud cries and much mock sentiment about "the brotherhood of man" and the "defense of the wage worker," with such play upon the sympathy of the people they cover their own greed for fees and insane desire to read their names in the papers.

It would be hard to convince the widows of the twenty-one murdered men in the Los Angeles tragedy, and hundreds of others, that their husbands received much benefit from "the defense of the wage worker," nor could they well understand such working of that particular brand of the "brotherhood of man" scheme.

Late events have stripped the lamb's coat from the body of the wolf and shown most clearly the lying deceit and horrible portent underneath, which I have tried time and again to explain to the public.

Men who preferred to work and support their families have been waylaid. Fingers chopped off, with the comforting assurance that "now you can set type if you will." Crowbars and heavy weights dropped on heads. Fathers beaten unconscious and many times crippled for life; little homes blown up and many and many a corpse brought to the destitute family.

These are not "occasional cases." Such crimes run literally into the thousands, and judges and juries have been threatened with death, bribed and witnesses slugged or put out of the way. In the government cases now pending the witnesses must be guarded from the agents of the "Labor Trust" with its tentacles reaching to the most remote corners of our country.

Don't permit yourself to be misled by the vapors of sentimental, drooling degenerates who assert that these murders are justified because "society" has oppressed workingmen.

In no other country in the world are they paid as high, and as much earnest effort devoted to their welfare. Nor is there as abundant opportunity in any other country in the world for workmen to gain fortunes.

Our great railroads and industries are largely headed by former wage earners.

These murders are instigated by that class of men, always in evidence, who hate success. They coolly and cruelly plan and execute assaults and murders to satisfy their own hate and show their power over the slaves who dare protest. The nightly talk of strikes, given in many a union meeting, develops the hate and murderous instinct which waits only for opportunity to carry out.

Take the Los Angeles case as an illustration. The Times had withstood about 16 years of all kinds of attacks, not because its faithful employees were underpaid. They received wages higher than the union scale, but they refused to bow down and place themselves under control of "the gang," hence they were persistently assailed and finally 21 were murdered. These men only asked to be let alone to support their families, but union leaders determined to rule over them, hence the murders.

The whole set-up of the leaders of the great "Labor Trust," the American Federation of Labor, points toward a diabolically adroit

plan to secure to those leaders complete control over their own members who dare not protest, and also over all other workmen, legislators, congressmen, merchants and the balance of citizens.

Think it over and you will see in part what the tyranny would be if they were permitted to completely carry out their plans.

Now that the facts are known the people can protect themselves by refusing to do any act that would add power to this aggregation. Remember, any act.

When their grip on the throat of honest labor is broken workmen can either select better leaders, or join some of the law-abiding trade organizations.

I was not driven to write this series of articles by reason of disagreements with my own thousand workmen. No troubles have arisen between us.

They have had fifty-two weeks a year steady work for many years, are a contented, high grade class, receiving the best wages in Michigan for like service and protected from the frequent onslaughts of these "Labor Leaders" (?).

Mr. Gompers has repeatedly announced in public that I sought to destroy all organizations of labor.

This is in line with his regular habit of distorting facts. I have for a long time been a member of the National Association of Stationary Engineers and the National Trades' and Workers' association. These are non-strike and peaceful organizations which negotiate their trade agreements legally, with peace and honor.

I have given to the Trades' and Workers' association a \$400,000 home for their old members in furtherance of an honest desire to help solve this most important industrial question.

In addition I have offered to contribute a quarter of a million dollars cash to help along a workman's movement, as defined in a letter sent Mr. Gompers December 11, 1911. Copy herewith.

December 11th, 1911.
Mr. Samuel Gompers, Pres., American Federation of Labor,
Washington, D. C.

Dear Sir:—

Press reports indicate that you are greatly depressed and harassed by fear and the disrepute brought on your Federation.

The query has arisen whether you are big enough to sense the movement of a great Power which guides humanity, and to conclude that the time has arrived when "Labor" should be honestly represented instead of misrepresented.

If the thought of truthful and earnest effort has come, and you honestly desire better conditions for the wage earners, may I tender to you an invitation to come out to Battle Creek for a conference with the President of the Trades and Workers' Association, Mr. J. W. Bryce?

If you will permit it, your expenses will be paid from the time you leave Washington until you return.

You will be put up at the Sanitarium for a week or 10 days' rest and freedom from worry, as a guest, either of the Association or of myself, as you prefer.

When rested, let us consider the new movement for the workmen of America, enlisted under the banner of the National Trades and Workers' Association, free from strikes, slugging, picketing, tyranny, fines, dynamiting and murder.

Belonging to the American Federation of Labor are hundreds of thousands of self-respecting and law-abiding workmen who are members under pressure, and who deplore the tactics you are your associates have employed and forced upon them.

They want steady employment fifty-two weeks in the year, and do not relish being forced by strikes into idleness pending the "negotiations" between crooked labor leaders seeking bribes, and crooked employers who hire said leaders to call strikes on competitive jobs, thus making the workmen tools kept idle while the chiefs scrap for control or bribe money.

You will perhaps reject this proposal, believing that strikes are a necessary weapon to preserve the rights of workmen. But the new way has been in very successful operation over two years and found to have more power than the old way.

The honorable Brotherhood of Locomotive Engineers, the National Association of Stationary Engineers and the National Trades and Workers' Association perfect trade agreements without strikes, secure the highest wages and yet preserve the respect and esteem of employers and of the members themselves.

Workmen are aroused to resentment from being forced to contribute from their hard earned pay envelopes, to defend known sluggers and murderers, and to being heavily fined for not obeying the orders of leaders when they know those leaders are simply using them to insure complete domination over the daily lives of the American workman.

He seeks to maintain his position as an honest, peaceful citizen, and not to be forced to affiliate with and support thugs and murderers.

Personally, I have only sincere and open denunciation for the past methods of you and your associates. Nevertheless, if you are ready to join in an earnest and truthful step forward for your members and will accept this invitation in the spirit in which it is given, you will be most welcome, and will be treated with the greatest consideration we are capable of, and in addition I will agree to contribute a quarter of a million dollars in cash to the new movement.

The Trades and Workers now have a splendid \$400,000.00 home to care for their indigent members, and with the addition of the members of the American Federation of Labor and its endowment we can merit the support of the public, all working for the new day of peace with honor in the industrial field.

Yours very truly,

C. W. POST.

No reply has been received. It seems evident the present Leaders will not accept any offer of industrial peace which takes from them the fees, control of workmen, and curbs their trust methods.

When any combination either of Capital or Labor goes outside its own business and attempts to oppress, tyrannize or forcibly dictate to others, and thereby "restrains trade," it becomes dangerous and should be prosecuted.

Talk about restraint of trade!

All the capital trusts in this country couldn't bring about a minus fraction of the loss, inconvenience, misery and crime set in motion by strike conspirators.

The time has come when every home-owning patriotic citizen should speak in most unmistakable terms if liberty is to be preserved.

Write President Taft, asking when he will apply the law to the Labor Trust as well as the Capital Trusts.

Then write your members of Congress, telling them clearly that you will expect them to protect yourself and other common, everyday citizens by voting down the bills these Labor Trust leaders are pressing to give them more control.

One is a bill to prevent courts from issuing restraining orders to stop proposed acts of violence in strikes. Another is to allow labor leaders to restrain trade without being subject to the law.

You are one of a tremendous majority, but you must tell your public officials your needs. Then they can act in your defense.

Then question candidates and don't accept any equivocal answers.

Insist that trade organizations can be peacefully conducted and that no laws be enacted giving leaders arbitrary control over the masses.

A few of the facts are now known and have been proven true. Many more will follow as the government investigation proceeds. Will you be patriotic and painstaking enough to write, talk and vote for your own safety?

My work in the way of public and expensive paid announcements on this subject is done.

There's a Reason.
