

COMMISSION LAYS DOWN NEW RULE

Arguments for Discharged
Employees Restricted to
Three Channels.

In future the arguments of appellants to the civil service commission must be confined to three channels. They must tend to show that the appellant was not dismissed for political or religious reasons or for the good of the service. The commission at its meeting yesterday decided on this course. Chairman Willis will insist that attorneys for dismissed employees confine their remarks to the reasons mentioned. Under the law the only grounds on which appeals may be made are those before mentioned.

In recent trials, it is pointed out, it has been the habit of certain attorneys to make a lot of sensational counter charges with the hope of smirching some city official. The trials of cases have dragged slowly because the commission has not enforced the rules.

The commission yesterday granted C. G. Murphy a hearing. Murphy, who was dismissed from the water service, declares his dismissal was not for the good of the service. Murphy's hearing will commence three weeks from yesterday.

A number of applications for reinstatement were rejected yesterday because the applications did not have the approval of department heads. The commission decided to reinstate only such employees as may be recommended by their former chiefs, except in rare cases.

One of these cases came up yesterday in the application of J. F. Anderson. The applicant was formerly a patrolman. Chief of Police Slover objects to his being put back on the eligible list for the reason that Anderson has been guilty of conduct unbecoming an officer. However, the former patrolman's application is signed by Circuit Judge W. N. Gatens, Jay Upton and a dozen other prominent citizens. For this reason the commission will consider Anderson's case at a later date.

Chief of Police Slover and City Engineer Hurlburt were each granted an extension of six months on their present leaves, which expire March 1.

HARVEY INCIDENT WILL HELP WILSON

Bryan Says Governor Right in
Believing Man Sometimes
Hurt by Followers.

Dallas, Texas, Feb. 1.—That the candidacy of Governor Woodrow Wilson for the Democratic presidential nomination has been helped rather than hurt by his controversy with Colonel Henry Watterson of Kentucky was the assertion here of William J. Bryan. "Governor Wilson," Bryan said, "is right in believing that a man is some-

BARNARD COLLEGE GIRLS WEAR TROUSERS ONE DAY EACH YEAR

The girls attending Barnard college have introduced a new fad, that of donning trousers on a particular day each year. The photograph shows four Barnard college students parading on Barnard field in their brother's or their father's clothes. The second trouser day, just celebrated, was voted a grand success by the students, who cavorted around and tried to act just like "real boys."

times hurt by the sort of men who are clamorous in his support."

Although Bryan would not make an announcement of his choice for the Democratic nomination, he said:

"Governor Wilson is the best modern example of Saul of Tarsus. He has been soundly converted. Wilson's progressiveness is best demonstrated in the Smith incident in New Jersey."

The Nebraska leader also characterized the contest in Missouri between Speaker Clark and former Governor Folk as "distinctly unfortunate."

Dogs Make Best Evidence.

San Francisco, Feb. 1.—Private Crawford's sale of Miss Georgia Ayres' holding him up with his own revolver after her two "buildups" held him at bay, was good until the court ordered the dogs brought in. They were Spitz pups.

Power Plant Ready.

Centralia, Wash., Feb. 1.—It is expected that the new power plant of the Centralia Light & Traction company will be ready for operation in two weeks. The machinery is being connected up ready to supply the "juice."

MINERS CRITICISE FREEING OF BURNS

Convention of Workers At-
tacks Judge Anderson in
Resolution.

(United Press Leased Wire.)

Indianapolis, Ind., Feb. 1.—A resolution criticizing United States Judge Anderson for quashing the charges of kidnapping against Detective William J. Burns in connection with the arrest of John J. McNamara here, was adopted by the convention of the United Mineworkers. Requests for congressional investigation of the action of the court were also incorporated in the resolution. The subcommittee appointed by the wage conference of coal miners and op-

erators of Ohio, Pennsylvania, West Virginia and Indiana, rejected both the proposals submitted by the miners and the operators. The committee will make its official report to the full committee tomorrow. As a result of the rejection of these propositions, it is believed the present conference will adjourn tomorrow and a new conference will be arranged for about March 15.

The mineworkers adopted a resolution providing that the United Miners' Journal hereafter serve the political as well as the industrial interests of the organization.

COLONEL ED GREEN MAY OPERATE MINE

Hetty's Son Considers Reopen-
ing Famous Old Eureka
Shaft on Settler Creek.

(United Press Leased Wire.)

San Francisco, Feb. 1.—The famed old Eureka mine at Sutter Creek, Amador county, which netted Alvinna Hayward \$200,000,000, it was learned today is to be put into operation again by Colonel Edward H. R. Green, son of Hetty Green, its present owner. Since a disastrous fire 20 years ago swept off the buildings and left the 2300 foot shaft to cave in and become impassable, the mine has been idle and because four lives were lost in the fire, Mrs. Green has persistently refused to reopen the mine for further development. Many Pacific promoters from time to time sought Mrs. Green in New York to purchase the mine, but she invariably turned down offers of \$2,000,000, the amount her husband paid Hayward for the property. She demanded \$3,000,000 for the mine just as it stood.

Colonel Green, who is in San Francisco, is going to visit the mine and probably will order work to start at once to clear the ruins, preparatory to reviving the property.
