

## SENATOR SINNOTT OUT FOR CONGRESS

The Dalles Man Announces His Candidacy; May Head Off Other Aspirants.

State Senator N. J. Sinnott of the Dalles is a candidate for the Republican nomination for congress from the new eastern Oregon district. He made this announcement today on a visit to Portland, having come down on legal business.

Sinnott's candidacy is expected to head off some other aspirants, who otherwise might have entered the race. His claim to progressive support is expected to appeal strongly to eastern Oregon voters, and he is one of the best known men in the district, having lived there all his life.

In 1908 Sinnott was elected to the state senate from Wasco and Hood River counties, and he made a distinctly progressive record during the sessions of 1909 and 1911. Elected on a Statement No. 1 platform, he adhered strongly to that principle when it was put to the test, and he has been a consistent advocate of progressive measures throughout his term. He is 41 years of age, a native of Wasco county, and is a brother of Roger B. Sinnott of Portland.

"I have not yet formulated my platform," said Senator Sinnott today, "but I will continue to stand for the progressive measures I have advocated and for like principles in national affairs. I am in favor of presidential primaries, election of United States senators by direct vote of the people, and the income tax."

"As to the tariff, I shall stand with the progressive Republicans in congress who advocate a scientific revision of the schedules, keeping in mind the protective principle. I will, if elected, do what I can to secure for Oregon a just share of the irrigation funds, as well

as the appropriations to which Oregon is entitled."

Mr. Sinnott says he will make an active campaign, making a speaking tour through the big district he seeks to represent. His declaration will not be filed for a week or two.

Only two other candidates for the nomination are now in the field. Both are from La Grande, George T. Cochran and John P. Rusk. The latter has made an extensive preliminary canvass, but there is said to be a possibility of his withdrawal. R. E. Butler of the Dalles who has also considered entering the race, will support Sinnott.

with rust and the lock and handle rusted off. The will is typewritten on yellowed, faded paper and the crosses are worn through. The ink is also faded and the whole appearance apparently bears out its date, Oct. 8, 1904. It is signed by Peter West and L. Hunziker, both now deceased, and the signatures have all the appearance of being genuine.

The provisions of the instrument give Mabel Young Cain, the former name of Mrs. Warner, the bulk of the estate; to her brother, Fred Young \$5000; to Nora Watts and Grace Rodgers, her cousins, two of the accredited heirs, \$1 each; it directs also that Mrs. Warner pay to Mrs. Clara Pickard of Walla Walla the sum of \$20 monthly while she lives. Mrs. Pickard was to have been the fourth wife of Young, according to Mrs. Warner. Dave Lavender is named executor without bonds.

**Thinks 4th Will Genuine Too.**

In explanation today, Mrs. Warner said: "I believe the fourth will because of which I have just been charged for forgery is genuine but never have believed it to be the last one. I knew one had been made in 1904, but thought Watts had destroyed it, but since the supreme court decision reversing Judge Bean's decision giving me the property, I have been working night and day to locate the missing will."

"Night after night I drove my team to Weston, and many are the conversations I overheard between Dr. Watts and his wife and others, and at last I

received the clue for which I was waiting."

**Long Searches in the Dark.**

"I overheard Mrs. Watts ask her husband if he was sure the will had been buried, and he replied he had left that to Hall, cashier of the bank. Then I began a search of Hall's premises under cover of darkness, and finding nothing there I began searching the ground back of the bank, and I was rewarded by the discovery of a box containing the will. I have a witness, a well known Pendleton man, who will testify that I read that will in the streets of Weston by the glare of his automobile headlight. Dr. Watts learned in some way I had the will, and it was he who started the prosecution against me in hope of sending me to the penitentiary before I could prove the will."

**Says Enemy Is the Will Forger.**

"I believe he forged other wills and sent them to me in hope of making the case against me bad. I have enough proof of this belief to enable me to secure an indictment against him in any court in the United States."

"I will offer my will for probate just as soon as I can secure my witnesses to prove the signatures of West and Hunziker."

**CANADIANS TO CHASE HALIBUT POACHERS**

(United Press Leased Wire.)

Ottawa, Ont., Feb. 6.—British Columbia members of parliament made a strong plea yesterday for better fisheries protection on the Pacific coast, and as a result the federal government is going to build three fast cruisers to stop Americans fishing inside the three-mile limit. The new boats will be faster than the schooners that ply out of Seattle and will be fitted with wireless. One member stated that Americans had poached 65,000,000 pounds of halibut last season.

## MAKING OF MOTION PICTURES DESCRIBED

The making of the Vitagraph motion pictures was described by C. L. Fuller, of New York, last night at the Peoples theatre, when he spoke to a large audience. The members of the Portland Press club and their friends occupied the boxes, as guests of Mr. Fuller.

In giving his lecture the speaker used a film showing the various parts of the Vitagraph factory, also some of the actors posing for the pictures. Mr. Fuller told of the length of time it takes to manufacture a film, and the cost of producing some of the motion pictures.

Next June he will return to Portland to superintend the taking of pictures of the Rose Festival, which will be sent to the different cities of the United States, as well as to those in other countries.

**Roosevelt Sphinx-Like.**

New York, Feb. 6.—Despite declarations by Nebraska, New Jersey, Illinois and Ohio progressives that he should define his position in regard to the presidential nomination now that there is a possibility of Senator La Follette retiring from the race Colonel Roosevelt today continued silent. Colonel Roosevelt moved today from

the comparatively small office he has occupied at the Outlook to a big reception room in the building. The change was made necessary to accommodate the large number of politicians and other visitors who call daily on the former president.
