Oregon and Washington—Rain west tonight one Sunday; rain east portion tonight or Sunday. Southerly winds, increasing along the coast and probably becoming high tonight.

Idaho—Rain tonight or Sunday.

Williamson to Lecture-H. M. Williamson, secretary of the state board of horticulture, lectures in the Y. M. C. A. auditorium at 8 o'clock this evening, on the subject, "The Apple Growers' Interest in Pure Food Legislation." Mr. Williamson has been for many years a very close student of all horticultural questions, particularly those which per ain to organized and cooperative marketing, and what he has to say on these subjects, in view of proposed leg-islation, is of great value. The lec-ture in the apple culture course for February 17 will be given by H. C. Atwell, on the subject, "Fundamentals of Cooperation from the Fruit Growers" Standpoint." Mr. Atwell is the newly appointed fruit inspector of Washington county.

Wage carners should know this one law and keep their accounts with a bank that follows it. The Oregon law reads: "All funds invested and other assets of the savings department shall be held solely for repayment, and shall not be liable for, pledged as security for, or used to pay any other obliga-tions or liability of the bank until after the payment in full of all deposits of said savings department." We live up to the law, do not speculate, pay 4 per cent interest on savings, loan our money on banking rates to customers. East Portland should remember the Citizens Bank, corner Grand avenue and Alder.

Editor-Judge to Lecture-Miller Purvis, noted poultry raiser, judge, editor and lecturer, will give one of his lectures at the Y. M. C. A. tonight at 8 o'clock. The lecture will be in halls 309 and 310. Mr. Purvis has for a number of years been the poultry editor of the "Breeders' Gazette," and is also editor of "Poultry," which is published at Peotone, Iii. He is one of the prominent judges of the United States and has been elected judge of the winter show. C. D. Minton, editor of the "Ore-gon Agriculturalist," will preside and introduce Mr. Purvis.

Cadet Officer—The United States Civil Service commission announces an examination on February 7, to secure eligibles from which to make certifica tion to fill at least six vacancies in the position of cadet officer, lighthouse service, at salaries ranging from \$600 to \$720 per annum, with quarters and subsistence, and vacancies requiring similar qualifications as they may occur. For information apply to Z. A. Leigh, postoffice department.

To Explain City Planning .- "What Is Meant by City Planning" is the subject of an address to be delivered in the auditorium of the Portland Art association at 3 o'clock tomorrow afternoon by Marshall N. Dana, secretary of the Greater Portland Plans association. The address will be illustrated by stereopticon views and is to be given under the auspices of the Portland Art associa-tion. All are invited and admission is

Argued on Car Tracks-Because Mr. and Mrs. R. F. Hayes of 128 East Sixtyseventh street North, insisted on using the street car tracks at East Sixty-seventh and Glisan streets as a place to argue family troubles at 1 o'clock this morning, and refused to go to their home or to town when ordered to get off the streets, they were arrested on a charge of disorderly conduct. The ar-rest was made by Patrolman Post.

Danced on Street; Arrested-The efforts of Charles Bradburry, Frank Jones and James Crofts to emulate the fancy dancers at the various theatres this week, by dancing the "hoochie-coochie" on Fourth and Alder streets at 1 o'clock this morning, did not meet the approval of Patrolman Gustafson and for the new central library and asking all were arrested on a drunk and disorderly charge. The case was in court

PORT REGULARL

Nordstjernan Line to Invade North Pacific by Way of Straits of Magellan; Prepare for Canal Opening.

That the Swedish steamship company which recently secured data here and at other north Pacific ports, is to begin the operation of its steamers from Scandinavian ports soon, is the news received here from Gothenburg, Sweden. The Nordstjernan Steamship company is the line planning to run to Portland, San Francisco and other north Pacific ports, sending its steamers by the long route around the Straits of Magellan un-

til the opening of the Panama canal. It is said that the capitalists backing the Nordstjernan Steamship company, or the North Star as it would be in English, have been watching the success of the Henry Lund line from Scandinaports to the north Pacific and been encouraged thereby to the have extent that they have practically determined on the venture themselves. The company has purchased a number

of steamers and they are now plying between Sweden and Argentina, and it coast to pioneer the Swedish commercial interests on the Pacific. Capitalists of that country have rapidly become interested in steamship lines between Gothenburg and other Swedish ports and New York and other ports on the Atlantic, which promises to bring Swedish commerce into more prominence than it has enjoyed in many 'years. Many immigrants from the north of Europe are expected to come to this coast with the opening of the Panama canal and it is evidently the desire by that time.

WHEAT RECEIPTS GAIN

New Record on Puget Sound Made; Warehouses Are Filled.

Seattle, Wash., Feb. 10 .- Wheat receipts at Seattle and Tacoma have established new record in that already more grain has been received at these since beginning present fiscal year, July 1, 1911, than during entire 12 months of previous fiscal year. During last seven months and nine days 4565 carloads of wheat have come to Seattle as compared with a total of 4431 carloads during the year ending June 30, 1911. Receipts at Tacoma to date total 9606 cars which is decided gain over fiscal year ending last July with 8261 cars. Receipts of oats at Seattle to date this year are 651 cars and at Tacoma 483 cars as against 963 and 400 cars respectively for last fiscal

Puget sound so early in the year and all local warehouses are well filled. However, as it is believed export season to United Kingdom is about ended, most of this will be ground into flour for export or shipped to the omient which is taking a considerable amount of grain on all the regular steamers.

UPPER RIVER OPEN AGAIN Steamer Todd First to Reach White

Bluffs. White Bluffs, Wash., Feb. 10. teamboat navigation was the Columbia this week, the steamer W. R. Todd of the Columbia River Steamboat line being the first vessel to make the White Bluffs country. This vessel will run on double time schedule till it catches up with the heavy tonnage for up river points which is tied up on the docks at Kennewick and Pasco. steamer, which will make a round trip a day between Kennewick and White Bluffs, will be added to the fleet as soon as the water of the Columbia will permit the steamer to negotiate the Priest rapids. Captain McMillan, formerly a master in the service of the Open River Transportation company, is owner of the new boat and will personally

WILL AID VESSELS

Builders to Bear Extra Expense of Assisting Boats Through Structure. In a circular sent to a number of the steamship concerns Robert Wakefield, the contractor who is handling the steel work on the new C.-W. R. & N. bridge, says that he will assist ships in getting through the opening while the truss is being built to the extent of furnishing an extra towboat if necessary. The communication also states that where topmasts are to be lowered in order to get a vessel through he will bear the expense and that he will place barges alongside the piers to keep the vessels out so that their masts will not be injured by the overhanging supports. He asks, however, that the companies cooperate by giving sufficient notice for the barges to be placed as they could not be kept there all the times as log rafts would tear them out.

FLOUR RATE RAISED

New Offering Indicates Price to the Orient Will Jump June 1.

While there has been a complaint among shippers for some time past that it was impossible to get space on the regular liners to the orient after June 1, because of the question as to whether the rates would be raised after that date, some of the lines have apparently come to a decision and a local shipper of flour was last night notified that he could have space at \$3.50 to Hongkong and \$3 to Japan ports.

This is taken to mean that the particular line offering the space intends to put the rates up again, regardless of whether the other companies operating Transpacific liners do or not, although it is expected that the others will do likewise.

The rate quoted to the local company indicates that the raise will be 50 cents all around for shipments of flour after the first of June.

MAKES UP ONE DAY

Steamer Alliance Runs Ahead of Schedule in Order to Catch Up. Making up one day on her schedule, the steamer Alliance, Captain Lotstedt, will be due to arrive here from Eureka and Coos Bay Tuesday morning, and she will sail again the next night. On her last trip out of here she was three days late, being one day behind because of repairs, while fog delayed her the other two days.

Congressman Hawley Would Have Siuslaw Forest Acres Given to Homebuilders.

(Washington Bureau of The Journal.)

Washington, Feb. 10.-George A. Ger-

ond of Kerby has had patent granted for his land after his application had been held up for years, the land office holding that he had not shown sufficient cultivation or residence. Congressman Hawley recently got the matter before the secretary of the interior, who ordered the case remanded to the general land office. The application was reconsidered and an order issued for a patent. Congressman Hawley has been trying to have the forest service reconsider its decision made in July, 1910, not to permit any more entries in Siuslaw national Many applications have been After taking on a small amount of amber at Linnton, the British steamer Hartington will shift this afternoon grange in Lane county. Melvin squated on a piece of land against the wishes of the forest service, and he cultivated a patch of ground so thoroughly that some of his products won prizes at the county fair, thereby, he contended, demonstrat-With a cargo of general freight, the steamer Sue H. Elmore, Captain Schrader, sailed this morning for Coos Bay.

Carrying 1400 barrels of asphalt, 200

Melvin's action. The forest service tons of cement and 50 tons of general maintained that its action was justified because Melvin had only four or five acres of land suitable for cultivation that it was isolated, and in case he should get a patent, he would be cut off from everyone else.

James A. Devault of Myrtle Point had a timber and stone claim contested and for a long time no action was taken. He finally appealed to Congressman Hawley, who succeeded in assisting him o get a patent.
Percival Young of Albany, Or., was

recent visitor to the capital, and called on the senators and representatives. Major Jay J. Morrow, United States in Crater Lake national park. He says that it is the opinion of the army engineers' office that "as much work as possible should be completed prior to the San Francisco exposition of 1915."

HIGH SCHOOL PUPILS INVITED TO CONCERT
