Business Is There, and This City Could Get Most of It if Salesmen Were Put in Field, It Is Said.

"Partland may send an entire fleet of ressels to Alaska, but unless the merchants send representatives into the field to tell the people what they have sale—kinds, price and quality of da—no trade will come from there," the opinion of Sidney Drake, president of the Cameron-Johnson Gold Min-

g company of Valdez. Mr. Drake and Clifford Johnson, discoverer of a wonderfully rich gold mine near Valdez, are in the city for the purpose of figuring on a plant that will handle 500 tons of ore a month, together with tools, powder, food supplies and other equipment. The order will amount to many thousands of dollars.

"I am a Seattle man, My home is in Scattle," continued Mr. Drake, at the Oregon hotel last evening, "but I am sick and tired of the methods pursued by the dealers there. I want to see the Alaska trade come to Portland. We came here to buy our supplies, although we should buy in Seattle if we would live up to what the boosters tell us.

What Portland merchants should do is to send men everywhere-from Ketchto Nome on the coast, and from Eagle to St. Michaels on the Yukon. At every point I have visited—and I have been all over the territory—the merchants are clamoring for competition in the purchase of supplies. They want to know why Portland isn't taking an in-

"It will be the easiest matter in the world for Portland to get all of the alaska trade—to take it away from Seattle. Seattle took it away from San Francisco six or seven years ago simply by sending men into the field. San Francisco was sitting back and taking in the orders by mail. Now she has lost

"Statistics will prove that the Alaskan ss amounts to \$93,000,000 per year.

the Seattle dealers ship us goods that sometimes are almost unfit for use, and have taken every unfair advantage of the people up there. Indeed, we are sore at Seattle."

Mr. Drake stated that when the Iditarod rush was on, the National Grocery company, a Scattle firm, shipped over 4000 tons of groceries to that camp. Other firms, of course, shipped consid-erable goods, also.

mer, Mr. Drake states. The camp, he says, is very lively.

Historic Cruiser Sold.

Washington, Peb. 21.—The historic old cruiser Pensacola, for years receiv-ing ship at the San Francisco naval training station, was sold by the navy department to Henry Rogers, of San Francisco, for \$12,025.

A Reasonable Plea For the Stomach

If Your Stomach Is Lacking in Digestive Power, Why Not Help the Stomach Do Its Work?

Especially When It Costs Mothing to

Not with drugs, but with a reinforce-ment of digestive agents, such as are naturally at work in the stomach? Scientific analysis shows that digestion requires pepsin, nitrogenous ferments, and the secretion of hydrochloric acid. When your food fails to digest, it is proof positive that some of these agents are lacking in your digestive apparatus. Stuart's Dyspepsia Tablets contain nothing but these natural elements necessary to digestion and when placed at work in the weak stomach and small intestines, supply what these organs need. They stimulate the gastric glands and gradually bring the digestive organs back to their normal condition.

Stuart's Dyspepsia Tablets have been shjected to critical chemical tests at home and abroad and are found to contain nothing but natural digestives. Chemical Laboratory. Telegraphic addee, ress. "Diffindo," London. Telephone mah. No. 11029 Central. 20 Cullum st.,

London, 9th Aug., 1905. I have analyzed most carefuly a box of Stuart's Dyspepsia Tablets (which I ight myself at a city chemist's shop the Portland. for the purpose), manufactured by the F. A. Stuart Co., 86 Clerkenwell road, London, E. C., and have to report that I cannot find any trace of vegetable or mineral poisons. Knowing the ingredi-
