Potatoes Along the Coast. Portland, cental\$ 1,50 Los Angeles, cental.... 2.40* *Oregon stock.

The potato market is showing a further advance in the price at country points, although it is stated that the southwestern markets refuse to follow

For extra choice stock a number of The advance is due entirely to the speculation by dealers. Some of them are of the opinion that a sharp advance will be forced after the first of the month and they are bucking their judgment, in a limited way, by taking hold of sup-

Others who are offering the advance are doing so because they already have liberal supplies and by paying a frac-tion more for a load or two, are thereby ble to give the market an artificial

stimulant.

All interests now agree that as soon as the weather permits, shipments will start from Minnesota and Wisconsin, intereby throwing additional competition into the Arizona and Texas trade. Few new orders are coming from there; present purchases for that account being for lots sold by dealers some weeks ago.

The boosting by Japanese speculators in California is causing some local holders to stay out of the market. News sent out from Stockton, Cal., is generally inspired by speculators there. One advice just made public says that potatoes are selling there at \$2.50 per bag on the giver bank. This is misleading because the same potatoes are being sold in San Francisco at \$1.75 per cental, and stock is never purchased there by the bag. The average bag of potatoes in the river district weighs close to 120 pounds.

Some of the leading canners of milk are said to be offering supplies at their factories at sharply reduced values. Few plants are operating except for milk skimming. The plant at Coos Bay is said to be the only one in the state that is canning milk at this time. It reports an increase in business.

WOOL SITUATION IS QUIET

While dealers are taking hold of the small amount of wool offering at prices that are practically the same as re-cently offered, they are not making much noise in their transactions, owing to the fear of scaring growers into holding. Values remain from 4 to 18c a pound, according to shrink.

CAR OF RHUBARB ROLLING

The first carload of rhubarb from the south is now rolling in this direction. The shipment cost 40c per box more than the first car that arrived last year, but the supplies came forward at a later date.

FUN IN BANANA TRADE

Considerable fun is showing in the banana trade over the efforts of some dealers who are heavily supplied with frozen stock to unload the shipment under guise of a price war. No change is shown in the price of good fruit, but frozen bananas are selling for 25c a bunch up—and buyers say they are not worth the money.

FORECAST FOR SHIPPERS

Selling Better Than for Some Weeks Past; Prices Are Being Stretched in Some Instances

There is a very firm tone in the dressed meat market along Front street, and in some instances quotations are being stretched. Demand for both country killed hogs and veal is somewhat increased, and for that reason shipments are moving out |

quite well. For extra fancy hogs of suitable weight as high as 9c a pound is being received, but the bulk of the shipments

do not bring this figure.

Top quality yeals are firmer and prices are holding well at 13½c today, with some talk of a fractional increase over this for one or two lots.

Market for dressed multon is the firmest in months. The fact that this is Lent has cut no consideration whatever with the demand for meats. The market as a rule is in better shape For extra choice stock a number of carloads were purchosed in the Willametic valley at \$1.35 per cental f. o. b. stations. The butter market is holding steady but prospects are bright for a further decline in the price before many days have passed. While most makers report they have no surplus on hand at this time, they acknowledge that the output is increasing every day, and at the present rate they will soon have more butter than the demand jusifies at present values.

Extras are selling from 34c to 35c for prints. Some city makers are said to be selling their best stock midway between those figures, but 34c is the general value for the lesser known out of town makes.

Butter prices in the Pacific northwest are higher than in California, and for that reason additional shipments from there may soon be expected. As a rule there are liberal shipments of butter from the south at this time of the year but local makers say they will make every effort to keep the price down to a pasis where importations will be unprofitable.

"The city, as a corporation, has taken a very decided step this year in the mat-ter of single tax, in that it is assessing buildings at 25 per cent of their valu-ation, land at full value. As a province, the legislature has recently passed an act in which the system of taxation for towns to be incorporated will be along the single tax system entirely. This also applies to villages. There is no doubt in my mind but that the entire province of Alberta, cities, towns and villages included, will all be subject to the single tax system in a very few years, and I believe it will work out very satisfactorily to the property own-

Mathews is charged with forging the name and address, 547 Madison street. of Dr. H. A. Poster to the petition. However, Dr. Foster testified in the civil hearing before Judge Galloway at Salem that he signed the petition and lived at the address given in the petition. The physician also testified in the case against E. J. Rohles that he signed the petition and lived at the address given in the petition and indictment against Rohles. Rohles was acquitted by an instructed verdict. Harry Coler, another cir-

culator indicted for forging names, was returned to the state prison a few weeks

ago, when his parole was revoked. He admitted forging names on the petition he circulated. Samuel Sandrosky, the fourth circulator indicted for forgery. has been at liberty upon bail, ndictment against him was allowed to drag along without any prosecution. The indictments against the four men were returned early last fall. The men were arrested early in the summer. A private detective agency was instru-mental in causing the arrests and indictments. Attorneys Parkison, McAllister and C. E. S. Wood have represented the circulators.
