

GRADING OPENS BUSY ON OREGON EASTERN AT VALE

Utah Construction Company in Charge of 159 Miles of Roadbed, Gives Out Contracts for Much Work.

(Special to The Journal.)
Vale, Or., March 19.—Car loads of railroad ties are arriving daily in the local railroad yards and steel is expected to follow for the laying of the first stretch of the track out of this city within another month upon the completion of the roadbed grading commenced a few days ago on the right of way west of town.

Two grading crews are on the job, and actual grading has started at several places up the valley. Right of way troubles having been practically settled and good weather having arrived, the work will proceed rapidly on the first 13 mile stretch of easy roadbed which is to connect the various Malheur camps with the headquarters of the construction company in this city.

Sub-Contracts Set.
The Utah Construction company in charge of the first 159 miles of roadbed construction of the Oregon Eastern, from this city to Dog Mountain in Harney county, Monday, March 11, let two contracts—one for the first five miles of grading out of this city, to Sub-contractor Goldsmith of Caldwell, Idaho, and the remainder reaching to the mouth of the Malheur canyon to Jerry Hurley, of Nyssa, who has been working on the Nyssa-Homedale extension of the Oregon Short Line.

From reliable sources it is learned that the Utah Construction company has leased a section of land two miles south of town where headquarters, at present maintained in the local yards, will be moved. The crowded condition of the camp, it is said, calls for the proposed change which will take place as soon as the first mile of steel is laid on the Oregon Eastern roadbed.

Inspecting Proposed Work.
Chief Engineer Carl Stradley of the Oregon Short Line, who has charge of the building of the Oregon Eastern, was here yesterday from a trip into the Malheur canyon with Construction Engineer O. S. Osborn, and reported construction in the narrow gorge progressing as fast as could be expected. They went as far as mile post 15, where the Utah Construction company is working large forces on the heaviest cut on the entire proposed line.

"REFORM DANCER" MAY COME OVER

Villany Will Let America Decide Whether Hers Is Art or Worse.

(United Press Leased Wire.)
Vienna, March 19.—Adaree Via-Villany of Munich, whose "nude dancing" almost caused the fall of the Bavarian cabinet over the question as to whether it was "art" or something worse, will soon start for a tour of America. Miss Villany is a much more "close to nature" dancer than Maud Allen, Gertrude Hoffman or Isadora Duncan. In some of her dances her costume is but little more than the proverbial fig leaf. She was arrested in Munich for disobeying the police, who had forbidden her dancing unless she added a little more to her attire. A committee finally decided that despite her Eve-like costumes, her dancing was "true art" and not suggestive of anything improper. She has been a sensational success in Vienna and Budapest.

Miss Villany calls herself the "reform dancer" and has written a book entitled "Dance Reform and Pseudo Morals: Critical and Satirical Thoughts of My Stage and Private Life," which will soon appear.

COUNTRY IS NOW NEAR PSYCHOLOGICAL MINUTE

William Thurston Brown, principal of the Modern School, delivered a straight talk to business men Sunday evening at Christensen's hall, on the question as to whether they would have industrial war or industrial peace. In part Mr. Brown's talk was as follows:

"I am convinced that if there is or is to be a psychological moment in the history of our present industrial struggle, we are either at or very near that moment right now. I say that the supreme question confronting society today is: 'Will you have industrial war or industrial peace?' and it is a question which, above all, challenges that part of society which holds reins of leadership and control."

"It is a useless question in one sense, because we are right now in the midst of industrial war all the time, day and night, and have been for years—an industrial war more costly in human lives than all the political wars ever known. For industry, as it is now carried on, is war, you can make nothing less out of it. It is a war of extermination and is proven by the undisputed figures of official investigators. The mortality among the workers in the United States in this war is, at a low estimate, over 50,000 killed and over half a million injured every year."

May Search for Bail Money.
Tacoma, Wash., March 15.—Superior Judge Chapman is being urged to call a grand jury to find out what became of Mrs. Mike Crashules' \$500. Mike Crashules was held in jail 33 days and Mrs. Crashules and her two children for 12 days a year ago, being released on payment of \$500 which they thought was bail money. Attorney R. L. Sheridan, who admits receiving the money, says it was an attorney's fee. Rumors have reached the court that may force an investigation. Crashules is a coal miner at Wilkeson, near here. Neither he nor his wife can read or write.

Factory for Rent.
Two floors in new brick building just completed at Hood and Baker streets, South Portland; long lease, low rental, building is well lighted and will make an ideal location for manufacturing plant. A. L. FISH care of Journal, 16

PUTTING NEW STARS INTO "OLD GLORY"

More than 50 women are now employed in the Brooklyn navy yard, New York, completing the new American flags, which will wave for the first time on July 4. The admittance of Arizona and New Mexico into the union has increased the number of Old Glory's stars from 46 to 48. The upper picture shows the women working on the new flags, and below Patsy Ross, who sewed the first American stars and stripes, and on each side of her the first and the new flag.

BOURNE GIVES VIEW ON ROOSEVELT'S CANDIDACY

Washington, March 19.—Senator Bourne's attitude as between La Follette and Roosevelt is a matter of some comment here. The senator has given his views as to what he thinks of Roosevelt's candidacy. Although praising the ex-president for placing "country ahead of self," Bourne declines to admit that his statement is an endorsement of Roosevelt. He says:

"The American people must vote with satisfaction and development and evolution of Colonel Roosevelt. He had a perfect right to declare in '04 that he would not be candidate again, but had absolutely no right to say he would not accept another nomination. By so doing he was placing his own personal wishes ahead of his party's or country's possible demand—self ahead of duty. In '07 his selfishness, or egotism still controlled him, and although the demand was pronounced for his renomination, yet he still placed self ahead of duty, his reiterated declaration thus depriving nation of enjoyment of its then greatest personal asset, namely,

confidence he had won from American people. Had he announced that he would not attempt to designate his successor, such statement would have been far more commendable.

"In 1912 Colonel Roosevelt has evidently realized that it is the duty of every American citizen to answer call of his party or the people, regardless of his own personal wishes and desires, and now announces he will accept nomination, if tendered him. No honest, intelligent person can criticize this declaration, but must commend this final realization of Colonel Roosevelt's that it is one duty of citizenship to place country ahead of self. A call to office, in a time of peace, may be of far more importance to the life of the nation than a call to arms, in time of war."

STRIKE OF PHYSICIANS THREATENED IN GERMANY

(United Press Leased Wire.)
Berlin, March 19.—A general strike of the hundreds of physicians connected with the semi-government sick insurance system in Germany, is the threat of the Essen Physicians' union, if their demands for increased fees are not met. The average income of such physicians is said to be about \$750 annually, and in many cases the calls are so numerous that little or no private practice can be built up.

SPAIN IS HELPING DEPOSED MONARCH

Taking Leading Part in Movement to Restore Manuel to Throne.

(United Press Leased Wire.)
Paris, March 19.—Reports are current here today that Spain is taking a leading part in a movement to restore Manuel, the deposed king of Portugal, to his throne. Another report is that Great Britain, Germany and France have agreed to Manuel's restoration, receiving compensation for their part in the conspiracy.

England, it is said, will get important isles in the Azores, France will receive further concessions in Morocco, and Germany will take Angola.

Dom Miguel, of Braganza, who has had several conferences with King Alfonso of late, is the prospective leader of the revolutionary forces.

SHE SAYS SUFFRAGETTES WILL USE BOMBS NEXT

(United Press Leased Wire.)
Chicago, March 19.—Prediction that the English suffragettes will soon substitute bombs for window smashing bricks is made today by Dr. Jesse Murray, a prominent suffragette, who is here on a visit.

"We women of England are fighting for life and honor," she said. "Men are taking away by legislation our means of livelihood. They are robbing our working women of the privilege of work."

"People have asked why we don't substitute bombs for bricks. We will if our demands are not acceded to soon."

ROSE PLANTING DAY PLANNED AT ONTARIO

(Special to The Journal.)
Ontario, Or., March 19.—Monday, April 1, will be rose day in Ontario, when several thousand roses will be planted. At a recent meeting of the Ontario Commercial club the matter of beautifying the city was considered and it was decided to have a rose planting day. A committee was appointed to formulate plans. Every citizen is urged to join in the city beautiful movement and already a large number of orders have been sent in. The commercial club has arranged with a local nurseryman to furnish roses at a reduced price.

Bill to Improve Rainier Roads.
Washington, March 19.—Congressman Warburton of Washington has introduced in the house a bill to appropriate \$150,000 to improve government roads in the Mount Rainier national park.

A Simple Way to Reduce Wrinkles
(From the Home Maker.)

Remember that wrinkles and bagginess of cheek or chin are due to the muscular tissue losing its strength and shrinking. The skin is then too large in area to fit such tissue smoothly. It wrinkles or sags.

To remedy this condition there's nothing so effective, so quick-acting, as a simple wash lotion easily made at home. Get an ounce of powdered sassafras, your druggist's, and a half pint witch hazel, mix the two and bathe your face in the liquid. This at once tightens the skin and solidifies the underlying tissue—which, of course, smoothes out the lines and draws in the sagging skin. It also stimulates circulation, bringing natural color to faded cheeks.

ANNOUNCES PROGRAM FOR HEALTH OFFICERS

The program for the meeting of state, county and city health officers to be held in Portland, March 28 and 29, has been announced by Dr. Calvin S. White, secretary of the state board of health, as follows:

March 28, 10 a. m.—Address of welcome, Honorable Oswald West, governor; "The Health Laws," Dr. Andrew C. Smith, first president of Oregon State Board of Health; "Uniform Methods for Collecting Vital Statistics," Dr. Calvin S. White.

2 p. m.—"How Best to Enforce Quarantine," Dr. C. H. Wheeler, city health officer of Portland; "Differential Diagnosis of Eruptive Diseases," Dr. Robt. C. Yennay, former secretary of Oregon

State Board of Health; "School and Municipal Water Supplies," L. C. Kelsey, consulting engineer of State Board of Health; "Necessity for and Value of Laboratory Examinations," Emile F. Pernet, state bacteriologist.

6:30 p. m.—The State Board of Health will be hosts at a dinner at the Portland Commercial club. Business dress.

March 29, 10 a. m.—"School Sanitation," Dr. C. J. Smith, president of state board; "Collecting County Statistics," Dr. G. E. Houck, Douglas county; "Teachers' Duties in Public Health," Dr. Alfred Kinney; "Cooperation Between Schools and Boards of Health," L. R. Alderman, superintendent of public instruction.

2 p. m.—"Institutions in Oregon for the Care of Tuberculous," Dr. E. A. Pierce; "Doctors' Duties to the Public," Dr. E. B. Pichel; "Sanitation of Hopfields and Berry Patches," Dr. W. B. Morse.

Question Box—All the problems confronting health officers to be discussed and definitely settled.

WITH HOME PHONE LINE ABSORBED, TACOMA IS TO REVOKE FRANCHISE

(United Press Leased Wire.)
Tacoma, March 19.—An attempt to absorb the Bell telephone franchise, which have recently taken over the Home company, to continue operations on the Home franchise after the Bell grant expires in 1915, the city council has ordered an ordinance drawn revoking the Home franchise.

The Home franchise called for automatic instruments, which the Bell people have torn out. This was made the basis for the revocation. Plans are under way for municipal ownership of telephones after 1915.
