

NEW FISHING BOATS... SOON BEGIN WORK

Oregon Coast Fishing Co., Incorporated, May Add Other Boats to Fleet Shortly—Capt. Nelson in Charge.

Embarking on a new enterprise, a Portland firm known as the Oregon Coast Fishing company, which was incorporated here three months ago, has purchased the fishing schooner Vida from King & Wing of the West Coast Fishing company, Seattle, and will embark in the fishing business off the Oregon coast within about two weeks.

Captain George Nelson, who will have command of the fishing craft, is now at Seattle and will leave for Portland with her within two or three days. She will come to Portland, where she will outfit for her fishing cruise off Tillamook bay, making the Port of Tillamook the base of her operations.

The Vida was built in Seattle in 1911 for the fishing business and operated for a long time in the waters of southeastern Alaska. She is 23 tons net with a length of 50 feet, 17.2 feet beam and has a depth of hold of 6.4 feet. She was formerly the sailing schooner Emma Matt, built in 1880 and was renamed when she had gasoline power installed.

It is expected that she will make the run down here from the sound in about 30 hours and she will remain here for several days, taking on supplies for her fishing operations. She will carry about six men, including the fishermen.

A member of the Oregon Coast Fishing company said this morning that if the business comes up to their expectations they will add other boats to their fleet very shortly.

TO TAKE BIG CARGO

Lowrie to Load 40,000 Barrels of Flour; 791,000 Feet of Lumber. An unusually large cargo of flour and lumber will be taken out from here on the Bank Line steamer Lucero, Captain Mathia, which arrived at the North Bank dock last night from Manila and other oriental ports via Puget sound.

After discharging her inward cargo, consisting of 10,000 barrels of flour and general freight, the Lucero will proceed to one of the four mills, where she will begin loading her cargo for the other side of the Pacific. She will take a total of 40,000 barrels of flour and 791,000 feet of lumber. Ninety-one thousand feet of lumber go to Manila, 100,000 feet to Hongkong, 130,000 feet to Kobe and 420,000 feet to Yokohama, while her flour cargo is made up of 1000 barrels for Manila, 20,000 barrels for Hongkong, 10,000 barrels for Moji and 10,000 barrels for Kobe. She is scheduled to sail for the orient via Puget sound ports, where she will complete her cargo on April 6.

IKALS TO TAKE LUMBER

British Steamer to Load on Columbia River for Port Pirie. The British steamer Ikala, 3063 tons net, Captain Clark, sailed yesterday from San Francisco for Nanaimo, where she will take on bunker coal, after which she will come down to the Columbia river to load a cargo of lumber for Port Pirie. She is under charter to Balfour, Guthrie & Co. She has been at San Francisco since March 17, discharging a cargo of 4500 tons of coal from Nanaimo. The British steamship Teverick, Captain Hand, which arrived at the Golden Gate on the same date with merchandise from Antwerp, should be ready to sail for this port soon to load a lumber cargo for Port Pirie also. She is under charter to the American Trading company.

HIGH CHARTER RATE

German Bark Schiffbeck Taken for Lumber at 78c 9d. Advice received today state that the German bark Schiffbeck, 2527 tons net, has been chartered at the highest rate paid to a sailing vessel for a similar voyage in a number of years, the vessel having been fixed to load a cargo of lumber at a north Pacific port for the United Kingdom. The Schiffbeck received 78c 9d, that being an advance of 5 shillings over the next highest figure, that one being the Klorosshira. The Schiffbeck is now due at Santa Rosalia from Hamburg. She is expected to arrive on the north Pacific for loading during July or August.

U. S. CRAFT INSPECTED

All of Boats and Dredges in Harbor Come Under Official Eye. Departing from the usual custom, United States inspectors of steam vessels yesterday inspected all of the government vessels in port. It is said that this is the first time that government craft have been had to undergo an annual inspection like other vessels do. The inspection yesterday included the engineer department's steamer Arago, the dredge and snagboat Mathoma, the government plevier, the dredge Champos and Chinook.

ALONG THE WATERFRONT

To load a cargo of lumber for San Pedro, the steamer Olympic arrived from that port last night, going to the Inman-Poulsen mills. Laden with general cargo for Newport and Waldport, the gas sloop Con-

Simple Remedy for Kidneys Can Be Mixed at Home

There is nothing so essential as a good remedy when the kidneys or bladder get out of order, when the back aches, rheumatic pains shoot through the joints, urination is frequent, scanty, painful or highly colored. There is grave danger in allowing such symptoms to go unchecked, as serious kidney disease is apt to develop. Get a one-half ounce package of Murax compound from any good druggist as soon as possible, mix a half ounce fluid extract Eucha and six ounces best gin. Mix these ingredients together well and take one or two teaspoonfuls of the mixture after each meal and at bed time. Keep it up until the affected organs get back to their former health and strength. This simple remedy soon puts the kidneys or bladder in strong, healthy condition and enables them to throw off uric acid and poisonous waste matter from the system as they should.

Country Women Pass Up Hard Work

District Institutes in Clackamas County Teach Wisdom of Buying Dinner and Allowing Mothers of Pupils to Enjoy the Day Without Drudgery of Cooking and Washing Dishes.

Graded school at Clackamas.

(Special to The Journal.) Clackamas, Or., March 26.—Clackamas school district has hit upon a plan by means of which the women of the community are to be given a change of program at the annual school district institutes. The district is to employ a person or organization to prepare the dinner for a fixed price. The women will therefore be relieved of the customary routine of preparing dinner and washing dishes. They will have time to attend the day's institute and hear the speakers.

These district institutes are the product of an interesting evolution in the schools of Oregon. They have been worked up by the county superintendents on their own volition. Superintendent T. J. Gary of Clackamas

county, early in J. H. Ackerman's administration as state superintendent, formed six districts in his county and called general parents' meetings. He invited Superintendent Ackerman to be present. This was the first general plan for a state superintendent to get out among the rural schools. Other county superintendents followed this idea, and the district institute is the result.

On every Saturday for two months there will be one of these district institutes in Clackamas county. The Clackamas district meeting will be held on Saturday, March 23. As a rule the women have been brought to the institute by the county superintendents on their own volition. Superintendent T. J. Gary of Clackamas

P. P. & P. CO.'S FINANCIAL STATUS

Capital Stock \$25,000,000; Bonded Debt \$34,000,000 Says Statement.

Interesting figures concerning the capitalization and bonded indebtedness of the Portland Railway, Light & Power company were given out by officials of the company today.

These figures show that the company has a capital stock of \$25,000,000, of which 65 per cent, or \$16,250,000, is now paid in. Stockholders are liable at any time for the balance of 35 per cent, which may be called as needed. The stock is at present paying 4 per cent dividends.

Outstanding in underlying bonds that will not be distributed is indebtedness of \$13,000,000, and of the bond issue recently authorized, \$19,000,000 in bonds has been sold. Proceeds of these \$13,000,000 bonds will be used in part to retire \$11,673,000 existing funded debt and all floating debt, and in part to pay for additions and improvements.

The company will also be reimbursed from them for heavy expenditures that have not been bonded. Among such expenditures may be mentioned that incurred in building the new Casadero power plant. This makes a total of \$24,000,000 in bonded indebtedness outstanding against the company February 16, 1913. As the directors authorized a mortgage of \$25,000,000 on the properties of the company to secure bonds, this leaves \$1,000,000 not yet taken out.

These bonds, however, can be issued only for 50 per cent of the cash cost of future additions to the property. The other 50 per cent can only be made up by calling on the stockholders for the 35 per cent of the stock still unpaid, or by putting back earnings into the property.

Stockholders, officials declare, are liable to be called on to make up this unpaid stock at any time. In fact, it is said that the fact that they are liable has had its effect on the market in keeping the price lower than it otherwise would be.

PERSONALS

Fred H. Byrha, a clothing merchant of Ottawa, Can., is registered at the Seward.

Walter Woods, a civil engineer of Oso, Or., is registered at the Seward.

Bernard McEadden, the physical culturist and athlete of New York, is a guest at the Seward.

G. M. Root, special agent for the Chicago-Northwest railway, is a guest at the Seward, from Chicago.

Marie Baker, the new leading lady at the Baker, is a guest at the Seward, from New York.

Henry Gibson, a prominent lumberman of Minneapolis, Minn., wife and son are registered at the Seward.

J. M. Maddox, president of the Madoc Tool & Pipe company, of San Francisco, is registered at the Seward.

W. C. Coyne, advance agent for "Madame X," is a guest at the Seward, from New York.

R. B. Brookman, a deputy sheriff of Danport, Wash., is registered at the Seward.

B. R. Liffin, a newspaper publisher of The Dalles, is a guest at the Seward.

F. Schofield, owner of a chemical works at Eugene, and son W. H. Schofield, are guests at the Seward.

E. R. Fisher, traveling representative for the Western Union Telegraph company, is a guest at the Seward, from Ashland.

J. Manheim, a silk importer of New York, is a guest at the Seward.

N. W. Tallant, a lumberman of Astoria, and wife, are registered at the Seward.

R. H. Goddard and wife of Seattle are at their new home at Astoria, preparing to move to their new home at Astoria.

SEATTLE AND WIFE, ARE REGISTERED AT THE SEWARD.

George R. Merrifield, proprietor of a costume manufacturing house of Seattle, is a guest at the Seward.

W. C. Morse, a building contractor of Seattle, is a guest at the Seward.

J. S. Murphy, a business man of Salt Lake, Utah, is registered at the Seward.

J. N. Tait, attorney for the transportation committee of the Portland chamber of commerce, departed last night for Washington, D. C., to attend some rate hearings.

PLAN FOR DISBURSING IMMIGRATION FUND

Governor West and C. C. Chapman, state immigration agent, conferred at Salem concerning the disbursement of the \$25,000 immigration fund appropriated by the legislature. The governor filed a formal statement with the secretary of state that it is his will that the entire amount shall be made subject to the order of the immigration agent and the state board of immigration. Detail matters relating to the making out of vouchers were also adjusted.

Mr. Chapman announced this morning that a call would be immediately made to each county commercial organization in the state asking that information be sent from each county to be included in the state official booklet after careful editing and verification.

In this way a large cost for compilation will be avoided. Each county commercial organization will be made responsible for the verity and value of information concerning that county. This work will be supplemented by the completion of statistics by the Oregon Agricultural college, the cost being met by the \$5000 fund taken from the \$25,000 immigration appropriation.

Each of the 34 counties is to be interested by the state board of immigration in the registration of scholastic to be held in connection with the land show that will be held all over the United States next summer and fall. An exhibit of the productions of the locality has been found valuable in attracting the attention of the public, the cost being met by the \$5000 fund taken from the \$25,000 immigration appropriation.
