

### MAY APPEAL CASE TO GOVERNOR WEST

**Soldiers of Fort Stevens Chafe When Constable Is Not Tried for Shooting.**

(Special to The Journal.)  
Fort Stevens, Or., March 26.—The soldiers of Fort Stevens are preparing to appeal to Governor West in the case of Roy C. Jones, a private in the Ninety-third company, who was shot by Constable Jack Sayer of Astoria, June 10, 1911. No prosecution of Sayer has been had and the comrades of the dead man are determined to allow the case to drag no longer. Jones died a month after the shooting, which took place on the streets of Astoria.

Following the shooting an immediate investigation was undertaken by the officers of the post, Captain Macy, United States medical corps, and Captain Pace, coast artillery corps. The matter was placed in the hands of a special prosecutor, Attorney Mullins of Astoria.

The facts brought out by the investigation show that Thomas Smith and Roy Jones had been drinking together and were engaged in a friendly scuffle on the corner of Ninth and Astor streets. Both fell down and Jones attempted to pick Smith up when Constable Sayer came up and shot Jones. Jones ran into a shooting gallery nearby. The constable followed Jones and pulled him out by the arm. Sayer was dressed in civilian clothes and it was impossible to tell whether he was an officer.

Michael Finnegan called Dr. Pilkington, who arrived when Jones had been taken to Tenth and Commercial streets. Here Jones, weakened from loss of blood, fell to the sidewalk. The soldiers obtained the arrest of Sayer, who was released under \$300 bond. Nothing has been done in the way of prosecution.

The soldiers state that in justice to themselves and in fairness to Constable Sayer, it is only right that a speedy

#### Quality in Cooking Fats

In cooking fats Cottole is superior in quality to all others. Its source is clean and wholesome, it is made in clean surroundings, and is packed in airtight pails of special design that keep the contents indefinitely sweet and fresh—free from dust and odors. Cottole is richer and will go one-third farther than lard or other cooking fats made to resemble Cottole.

In everything else quality usually regulates the price. If your grocer should ask you a trifle more for Cottole, it is because it is worth more. Besides, Cottole is guaranteed "satisfactory or your money back."

trial take place. An association of railroad men are also contemplating taking up the case for the purpose of having it brought to immediate trial.

### TO UTILIZE WASTE WOOD OF NORTHWEST

The Portland chamber of commerce has received a letter from the Seattle chamber of commerce enclosing resolutions urging government cooperation in an effort being made at the University of Washington to solve the problem of utilizing the waste woods of the Pacific northwest. The Seattle body requests the operation of the Portland chamber to securing the necessary organization.

Last year the state of Washington, through the university, arranged with the United States forest service for an experiment station at the university, which institution equipped a laboratory at an expense of \$2000, and set aside \$800 for research work. The forest service agreed to assist, but now hesitates, owing to certain expenditures being required from the general funds where special provision is not made for this work. The University of Washington has made great progress in this work of solving the problem of utilizing the waste woods of the Pacific northwest. The government is asked to detail a chemical engineer to continue the research and take steps toward issuing a progress report of results during the next six months.

This matter is necessarily of immense importance to this section of the country and the Portland chamber of commerce will undoubtedly assist the Seattle organization in its efforts.

### M'CULLY FIGHT STILL TURNS JOSEPH ELECTION

(Special to The Journal.)  
Joseph, Or., March 26.—The anti-McCully are said to be contemplating placing an independent ticket in the field for city councilmen, not being satisfied with the result of the primary convention held on Monday last. Both parties placed four men in nomination, notwithstanding that the McCullies were in the majority.

### CANDIDATE OPPOSED TO ALL LOG ROLLING

G. H. Watson.

Good roads, opposition to the log rolling system, an interstate bridge over the Columbia to connect Portland and Vancouver and a business administration of affairs comprise part of the platform of G. H. Watson, who is a candidate for the Democratic nomination for representative in the legislature.

Mr. Watson also declares himself in accord with Governor West in his views as to prison policy and reform in the state institutions, and declares the governor should have substantial assistance in the legislature.

"If I am elected," said Mr. Watson, "I will scrutinize each bill with a view to the public good, and believe the business of the state should be conducted in a businesslike way. I am opposed to log rolling, and I would not vote for an unworthy bill to secure support for a worthy one. Personal controversies should be eliminated, and debate confined to measures under consideration. I will sustain the primary law, State-
