GOLD DUST will sterilize your kitchen things and make them wholesome and sanitary

Gold Dust does more than clean-it sterilizes and leaves your kitchen things sanitarily safe. The ordinary soap-washed utensil is not fit to eat from, because soap does not cleanse as thoroughly as it should-does not kill germs of decay which are bound to lurk in off-used utensils.

Gold Dust does most of the cleaning without your assistance, and does it, too, in a quicker and more thor-

Gold Dust makes pot and pan spick and span. Do not use sosp, naphtha, boraz, soda, ammonia or kerosene with Gold Dust. Gold Dust has all desirable cleansing qualities in a perfectly harmless and lasting form.
