United States Fishes Stockmen—The case of the government against Harvey J. Purdy and Thomas F. Jacobs of Chico, Or., whose horses were allowed to graze and trespass on the Wallowa national forest, without permission, has been settled in favor of the government by the payment of the damages to the amount of \$100 and the cost of the action. The action was taken under the act of congress dated June 4, 1907, which authorizes the secretary of agriculture to make such rules and regulations necessary for the protection of the national forests. According to this authority, all stock upon the national forests without permit are in trespass, and the owners of the animals are liable for damage done and are subject to criminal action.

Olga Steeb's Great Method

The man who taught Olga Steeb how to memorize the largest repertoire in musical history (1100 compositions) is certainly the man to teach your child music. I consider Carl Steeb one of the world's very greatest piano teachers for children. With his daughter, Olga Steeb, he has given abundant proof of his ability. To introduce his work in Portland we will, for the next three days, make a special rate for two 30 minute lessons a week, or one hour lesson of \$4 a month, payable in advance.

Olga Steeb will accept three more advanced pupils for a six month period, and personally give each a 30 minute lesson weekly for \$11 a month, payable \$5 when hour is appointed and \$10 each month in advance.

I have time for four more pupils at \$4 a month. These offers good until Monday, April 1.
