

UPPER HOUSE SENATORS: 5 MEMBERS NEEDED

Gains of Last Fall, Coupled With Factional Troubles Among Republicans May Shift Control of Senate.

(Special to The Journal.) Washington, March 28.—The Democratic gains of last fall, coupled with the factional troubles within the Republican ranks, have given rise to a feeling of expectation among the Democratic leaders that they will not only increase their majority in the house but will gain control of the senate, as a result of the elections to be held next November.

A margin of only five votes now exists between the two parties in the senate. The appearance of four new senators, two from New Mexico and two from Arizona, does not help either party, for New Mexico is sending up two Republicans and Arizona two Democrats.

With the arrival of these four senators the upper branch will stand as follows: Republicans 51, Democrats 44, Vacancies 1. The vacancy is in the state of Colorado, where Senator Charles J. Hughes died, thus costing the Democracy one of its ablest members, and the legislature, although Democratic, could not get together on a man before its adjournment.

30 Senators Will Retire. On March 3 next, 30 senators will retire to private life if they have not meanwhile been reelected by the legislatures of their several states. The outgoing list numbers 17 Republicans and 13 Democrats. Among them are some of the most influential members of the upper house, on the Democratic side as well as on the Republican side.

The 17 Republicans are: Messrs. Culom of Illinois, Nelson of Minnesota, Richardson of Delaware, Wetmore of Rhode Island, Warren of Wyoming, Smith of Michigan, Kenyon of Iowa, Guggenheim of Colorado, Gamble of South Dakota, Dixon of Montana, Curtis of Kansas, Crane of Massachusetts, Burnham of New Hampshire, Brown of Nebraska, Briggs of New Jersey, Bourne of Oregon and Borah of Idaho.

Senators Whose Terms Expire. The Democratic senators whose terms will expire next March are: Davis of Arkansas, Bacon of Georgia, Paynter of Kentucky, Foster of Louisiana, Gardner of Maine, Percy of Mississippi, Simmons of North Carolina, Owens of Oklahoma, Tillman of South Carolina, Taylor of Tennessee, Bailey of Texas, Martin of Virginia and Watson of West Virginia.

Of the 13 Democrats, several are already assured of reelection and of the remainder the majority are certain to be succeeded by Democrats. Maine and West Virginia are the only two states in which there appears to be a possibility of the present Democratic senators being succeeded by Republicans.

The Republicans in Maine believe that the Democrats, despite their victory of last year, will not be able to elect the legislature this fall. Failure to control the legislature will mean the retirement of Senator Gardner, who was appointed by the Democratic governor of the pine tree state to fill out the term of the late Senator Frye. In West Virginia, which is normally a Republican state, the leaders of that party are hopeful that they will be able to unseat Senator Watson, who is filling the vacancy caused by the death of Senator Elkins and who must come up for reelection next winter.

Gains in Excess of Losses. The possible gains on the Democratic side of the senate are believed to be considerably in excess of their possible losses. First of all, they are confident counting on a Democratic senator to

A Reasonable Plea for the Stomach. If Your Stomach is Lacking in Digestive Power, Why Not Help the Stomach Do Its Work? Especially When It Costs Nothing to Try.

Not with drugs, but with a reinforcement of digestive agents, such as are naturally at work in the stomach. Scientific analysis shows that digestion requires pepsin, nitrogenous ferments, and the secretion of hydrochloric acid. When your food fails to digest, it is proof positive that some of these agents are lacking in your digestive apparatus.

Stuart's Dyspepsia Tablets contain nothing but these natural elements necessary to digestion and when placed at work in the weak stomach and small intestines, supply what these organs need. They stimulate the gastric glands and gradually bring the digestive organs back to their normal condition.

Stuart's Dyspepsia Tablets have been subjected to critical chemical tests at home and abroad and are found to contain nothing but natural digestives. Chemical analysis. Telegraphic address, "Definite," London. Telephone No. 11223 Central, 20 Cullum St., Fenchurch St., E. C.

London, 9th Aug., 1905. I have analyzed most carefully a box of Stuart's Dyspepsia Tablets (which I bought myself at a chemist's shop for the purpose), manufactured by the F. A. Stuart Co., 88 Clerkenwell Road, London, E. C., and have to report that I cannot find any trace of vegetable or mineral poisons. Knowing the ingredients of the tablets, I am of opinion that they are admirably adapted for the purposes for which they are intended.

(Signed) John R. Brooke, F. I. C., F. C. S. There is no secret in the preparation of Stuart's Dyspepsia Tablets. Their composition is commonly known among physicians, as is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most popular of all remedies for indigestion, dyspepsia, water brash, insomnia, loss of appetite, melancholia, constipation, dysentery and kindred diseases originating from improper digestion and assimilation of foods, because they are thoroughly reliable and harmless to man or child.

DECLARES WOMEN WILL TAKE OUT

Oregon Women Able to Conduct, Finance Own Campaign, Says Mrs. Hutton.

"Before the 15th of November, war and want Oregon women will have the ballot and the more faithful you are in paying that little annual or biennial visit to the shrine of personal liberty—the ballot box—accompanied by knowledge of men and affairs and an unbiased, unprejudiced frame of mind, the lesser regrets you will have until the time rolls around to make another pilgrimage to this Mecca of American freedom."

Mrs. May Arkwright Hutton, the well known Spokane suffragist, spoke these words of cheer and prophecy at the equal suffrage meeting held yesterday morning at the home of Mrs. James I. Schultz in the Irvington district. Thirty-seven women were present and the meeting was most enthusiastic.

"The women of Oregon possess the wit, beauty, brains and money to conduct and finance their own campaign," said Mrs. Hutton, "just as the Washington women conducted theirs, and thereby maintain their own self-respect and the respect of the nation."

Speaks Today. Mrs. Hutton and Miss Emma Wold, the other speaker, were introduced by Mrs. L. T. Hadden, who presided. Mrs. Hutton will speak today at the home of Mrs. F. T. Townsend, in Laurelhurst.

At the meeting of the American Women's League and Republic at Ellettsville last night, Perry J. Green was the principal speaker. Mrs. Hutton was to have addressed the meeting, but found it impossible to be present. Mr. Green suggested that the women of the United States form a republic of their own within the republic and that then the federal government would be glad to have them join the national government. He termed the denial of the vote to women a relic of barbarism.

Mrs. Aurelia Taylor, president of the Rose City chapter of the league, presided at the meeting last night. The state central committee of the affiliated suffrage societies decided to levy a per capita tax of 10 cents on all suffragists at their meeting yesterday afternoon. All of the affiliated societies agreed on the assessment.

Attitude of Woman's Club. Mrs. A. C. Newell, a member of the committee appointed to find out whether the Woman's club is sincere in declining to join the affiliated societies, reported that the action of the club was final, as they held that the society was not a suffrage organization.

A report was also submitted by Mrs. Sarah F. Commerford that she organized a branch of the State Equal Suffrage association at Lebanon last Tuesday and that she expects to place another in Newberg next week. A branch in Dallas has also been established by Mrs. Sarah Bard Field Ehrigott and she is present at work in Umatilla county.

The Woman's Political Equality league will conduct its usual forum tomorrow afternoon at 2:30 o'clock at the Olds, Wortman & King store. Walter H. Evans, Republican candidate for district attorney, and others will address the meeting.

succeeded Guggenheim of Colorado, who will not be a candidate for reelection. The last Colorado legislature was Democratic and the Democrats believe the next one will be of the same complexion. Another Democratic gain is expected to be contributed by the neighboring state of Wyoming, as a result of the serious split between the insurgent and standpat Republicans.

Two other Republican senators whom the Democrats hope to supplant are Dixon of Montana and Richardson of Delaware. The fight between the Republican factions in Idaho makes that state interesting ground. The indications are that Senator Borah will have no opposition for the Republican nomination, but the activity of the Democrats and their success in electing the governor last year makes it appear that a Democratic successor to Mr. Borah is among the possibilities. New Jersey, which will choose a successor to Senator Briggs, is also regarded by the Democrats as a hopeful state, especially if Woodrow Wilson is the Democratic candidate for president.

HAWLEY DOESN'T ESCAPE WOES OF CONGRESSMAN (Washington Bureau of The Journal.) (Washington, D. C., March 28.—Congressman Hawley thinks the ways of the postoffice department are devious and exasperating. Last October he started on the comparatively simple job of getting a rural free delivery route No. 5 at Oregon City extended 15 miles to accommodate some 75 families in that locality, some of which are now served from Sherwood. At intervals since he has been inquiring why it wasn't done. Finally, in January, the route was put on the job, but he has not been able to report yet. Hawley is getting desperate and has written another letter to the department.

KILLS HIMSELF WHEN HIS WIFE ELOPES WITH WYLIE (United Press Leased Wire.) Washington, March 28.—No effort has been made today to locate Mrs. Eleanor Hoyt Hitchborn, wife of Philip Hitchborn, or Attorney Horace L. Wylie of Washington, with whom she is alleged to have eloped. It is supposed that the pair are living on an island near Monte Carlo.

Famous Orchestra Coming. (Special to The Journal.) London, March 28.—Arthur Nikisch, the famous musical conductor and the members of the London Symphony orchestra, 100 strong, with all their valuable instruments, which alone are insured for more than \$500,000, are among the passengers of the liner Baltic, which sailed today for New York. The famous orchestra, under its brilliant leader, will make a concert tour of 21 days through the United States and Canada, traveling as far as Denver to the west and Toronto and Montreal to the north.

Building at Cottage Grove. (Special to The Journal.) Cottage Grove, Or., March 29.—Prospects are bright for considerable development in Cottage Grove and surrounding country this year. A large number of small tracts have been discovered during the month-to-month work now on foot with their families. In the city the building going on indicates a healthy growth. Two business blocks are under construction and contracts have just been let for several residences.

NEWPORT WOULD ATTRACT TOURISTS

Commercial Club Raises Sum of \$1064 to Start Campaign of Publicity.

(Special to The Journal.) Newport, Or., March 29.—The Newport Commercial club this week raised \$1064 with which to finance an advertising campaign for Newport as a summer resort. Part of the money will be expended with the Southern Pacific for the community plan booklets and the rest in newspaper advertising. Other advertising plans of the club include a visit of the Albany and Corvallis clubs to this place in April and also an excursion by boat from here to Bayrean in May.

The club is also conducting an active good roads campaign in this section. All road data concerning the best auto routes from Portland here is being gathered and will be published in booklet form for mailing to all auto owners. In July a pathfinding trip will be made by the club and the E-M-F Auto company of Portland, up the coast to the mouth of Siletz bay. This is a very rough country and a good road is much needed.

Railroad Surveyors at Work. (Special to The Journal.) Newport, Or., March 29.—A large surveying party left here Wednesday in charge of Morris Wyrant, a railroad surveyor. They started work at Otter Rock, 10 miles north of this place and will work up the Siletz basin. Just what road they are working for is not known but it is supposed they are to meet the party which started from Dallas a few days ago. Their object is probably to find the quickest way to make an outlet for Siletz timber.

RUNAWAY HORSE DRAGS GIRL OF 16 BY FOOT

(Special to The Journal.) Sherwood, Or., March 29.—While getting into a buggy, Miss Ivy Hoffman, aged 16 years, slipped and fell and in some way her foot caught in the step and the horse becoming frightened ran away, dragging her by the foot around the barn yard, breaking the limb at the ankle and otherwise bruising her terribly, especially one hip. Had the gate leading out of the yard been open she would have been dragged to death as no one was with her. The mother, however, heard her scream and ran out of the house to see the horse tearing round the yard, but managed to stop it after a time. A Sherwood doctor after several hours succeeded in getting the bone set and her wounds dressed. Miss Hoffman suffered great agony the first 24 hours, but is now resting quite well and her chances for recovery are good.

Mr. and Mrs. John Hoffman, her parents, buried a son 25 years of age, four weeks ago, who died of lingering consumption and several years ago their eldest son Jack, aged 20 years, went to work in the logging camps down the Columbia river, against his parents' wishes and had been away only two weeks when his mangled remains were shipped to his parents, a log having rolled over him.

IRRIGATION PLANT AT ONTARIO NEARLY READY (Special to The Journal.) Ontario, Or., March 29.—The Ontario-Nyeas irrigation system is almost completed. The pipe line, 4000 feet long, and large enough for a man to walk through it standing almost upright, is completed, and the pumping machinery and motors are being installed. This system will add 7000 acres of tillable land to Ontario fields. This land is of the best in eastern Oregon. It lies adjacent to the best alfalfa fields and orchards.

Another very important irrigation project well under way that will belong to Ontario is the 3000 acre tract on the north of the Malheur river and west of the Snake. Arrangements are being made to pump water to a 52 foot lift to cover this land. All of this area will be located within four miles of Ontario.

ALBANY'S CHINATOWN GIVES WAY TO PROGRESS (Albany, Or., March 29.—In the removal of the last vestige of Albany's historic Chinatown, another landmark has disappeared to make room for the rapidly growing mercantile interests of the Hub.

W. F. Pfeiffer, who owns the property, has purchased the brick block being vacated by S. E. Young & Son, at First and Broadway streets, and a Portland contracting firm will move it to the new location. The building is 32,110 feet, two stories high, and is to be removed intact a distance of three blocks.

Catarrh Ended Money Returned If Hyomei Doesn't Banish Catarrh. Get rid of catarrh—start today—cure it without pouring into your stomach a vile and unpalatable nostrum. HY-OMEI (pronounce it High-o-me) cures catarrh in nose or throat, and does it by such a simple and pleasant method that thousands who have been cured are glad to recommend it.

Just breathe THROUGH THIS. THROW THESE AWAY. Hyomei is made of Eucalyptus combined with other antiseptics. Breathed through the inhaler it destroys the persistent catarrh germ.

A complete Hyomei outfit, including inhaler, bottle of Hyomei and simple instructions for use, only costs \$1.00. Extra bottle of Hyomei 50 cents at drug stores everywhere. For catarrh, coughs, colds, sore throat or catarrhal deafness it will give satisfaction, or money back.

Settlers Seek Open Land. Bend, Or., March 29.—From the number of people who are coming to central Oregon seeking free government land, it seems that the "back to the

land" movement has struck Portland, The Post Rock country, in northern Lake County, is the mecca for most of these settlers, a colony of considerable size being established there. Fifteen

or twenty, among them several women, have recently filed on land near Fort Rock. Although at present far from transportation, the line of the Oregon Eastern (Harriman) railway has

been surveyed through there and it is this activity that is causing the "back to the land" movement. Journal Want Ads being results.

We Talk With Confidence

WHEN YOU SEE IT IN OUR AD, IT'S SO

about Moyer \$15 Suits, because they will justify all that we say of them.

When you buy a Moyer \$15 Suit, you may choose from many good woolen fabrics, thoroughly tailored in the models that suit you best.

Besides the reliability and the good fitting qualities of Moyer \$15 Suits, there is an actual saving of at least \$5 on every suit, because we produce them for less than we sell them at a smaller profit than is usually done.

We want you to become acquainted with Moyer \$15 Suits; suppose you have a look at some of these Spring styles in the Spring weights.
