Exposition of the Dick Law.

Galice, Or., March 22.-To the Editor of The Journal-I desire to elucidate Deep down in the hearts of all American citizens are the inherent love and our present governmental system are possessed of these attributes. In fact, their very efforts show conclusively that they are enough interested in its welfare to labor for its betterment. And so, the radical, the critic, the present day agitator may in fact be a ter and more effective patriot than he lets the tide of governmental progress take him into whatever channel it enters. He is a nonentity in national advancement. He is unwilling to draw the sleigh of progress up the high hill, but he wishes, nevertheless, to coast down the opposite side which has already been cleared of impediments by his industrious radical contemporaries. state this merely that I may not be nisunderstood in my criticism.

On June 30, 1902, a bill was introduced in congress, passing the senate June 14, 1903, which became the Dick military law. This law has never been given publicity and very few people of it today. Its import is vital. Its possibilities are far reaching. Following are citations:

In the spring after his father's death he went Frankfort to take the place of friend. Schelble, who was conductor of the Cecilia Singing society at that place. It was here he met Cecile. Her full name was Cecile Charlotte Sophie Jeanrenaud, and she was the daughter of a pastor of the French church at Frank-

So shy was Mendelssohn in his manner before this genuine passion, and Cecile's mother being a widow, it was thought he was courting the and not the daughter.
