Punkers have been the principal bear-Packers have been the principal bearish interests in holding in check any
advance for country-killed pork. Whilethey have been paying even before prices
in the country for this class of staff,
they have until recent days been sellers
at a lower price than on Front street.

That this tactic was used simply to
hill off Front street is the general idea
that neventic in produce circles as well that prevails in produce circles as well among best informed country slippers. The market for dreamed country west is likewise fruser and in some quarters a further advance in the price is re-

ported.

Spring lambs are coming forward in rather liberal supply, but the market is smaler and lower owing to the limited call. Prices are so high that only a small per cent of the public can afford to indulge, therefore, the appetite must be sharpened with lower figures.

### EGG MARKET IS MIXED.

Opinions in the Front street trade re-garding the market for eggs are mixed. While there is talk of lic for candled stock in some quarters, some dealers assect that they are unable to get more than lic in the regular order, but its above this is sometimes obtained by squeezing. Receipts greatly increased.

### CHICKEN DEMAND VERY GOOD.

There is a very good demand for chickens in the Front street trade to-day. Receipts are rather small and full prices are being realized. This is capecially true of broilers and for fancy nems.
