MONUMENT FOR THE "FOOL INDIAN BAND"

Mobridge, S. D., April 6.—The story of the "Fool Indian Band" is unique, and has no parallel in the history of this country.

Nearly half a century ago a drama was enacted on the spot where this city now stands. It was in the year of the terrible New Mexico and Montana massacres in Minnesota, in 1862, when all the men fit for service were engaged in the battles of the Civil war, and only defenseless women and children and men who were unfit to go to the front were left to take care of the homes of the settlers. In this unprepared state these were an easy prey to the then murderous Indians, and hundreds were slain before a force strong enough could be raised to drive the redskins across the Missouri. When they retreated they took with them a party of white women and children and by forced marches reached this spot.

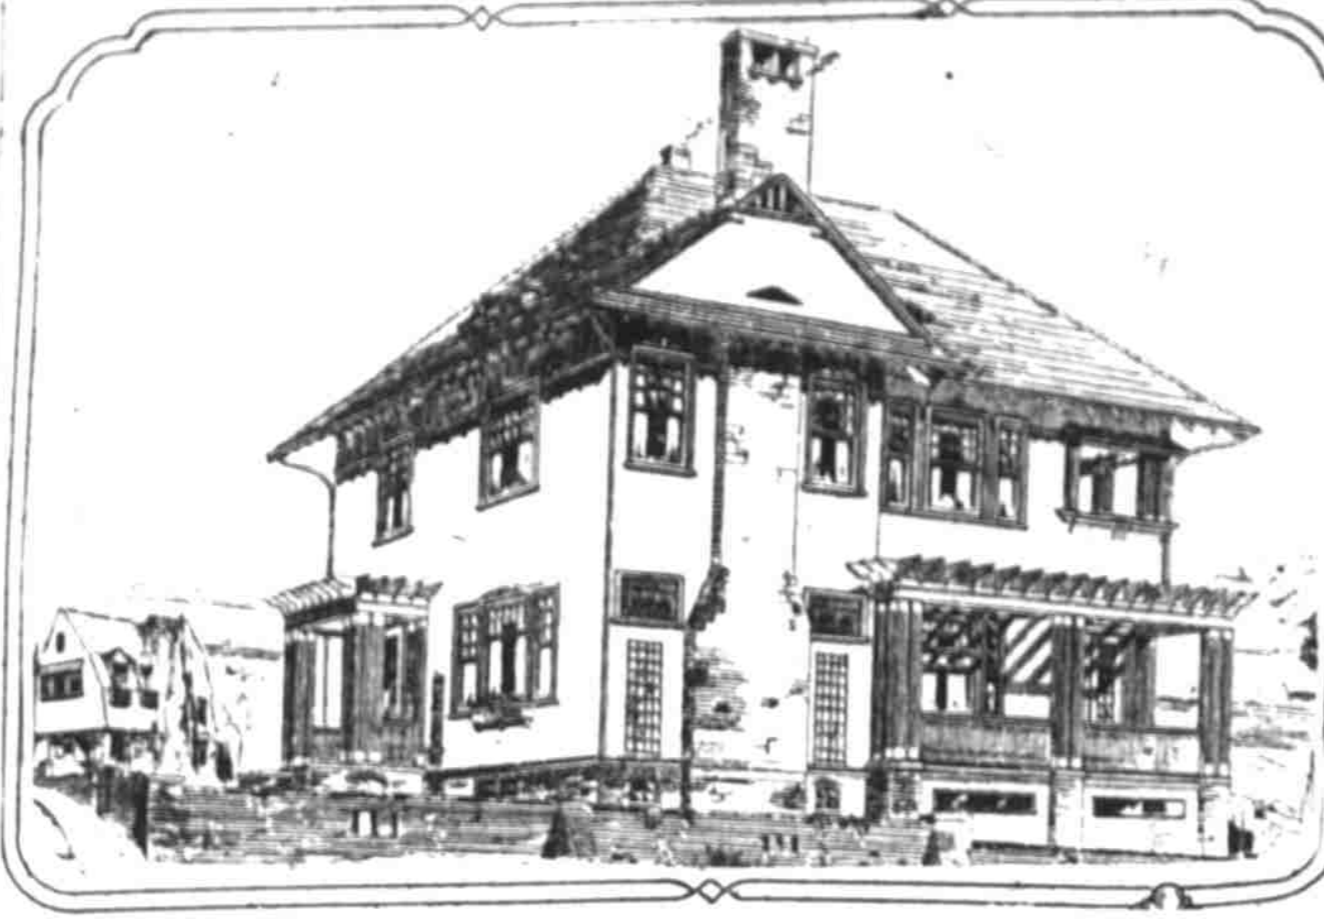

One cannot appreciate the feelings of these hapless captives as they were hurried across the plains to what was worse than slavery. But something touched the hearts of their younger captors, who, under the leadership of Chief No Heart, decided to get the captives to their homes and to their relatives and friends. During the tortures they knew would be theirs if their undertaking should fail, they called their native strategy into play and, eluding the main camp, after many hardships and weary days, succeeded in returning the captives to their relatives and friends, who had long since given them up for dead.

After 40 years congress recognized the bravery of the band by giving each of the survivors a small medal and later, after all but two had gone to the happy hunting grounds, the state of South Dakota erected a shaft of red granite with the inscription: "Shetek Captives Rescued Here November, 1862, by the Fool Indian Band." The shaft was erected June 15, 1909, and is the only historical monument erected by the state of South Dakota.

CAT'S SCRATCHES SAVE PAIR FROM BURNING

Chester, Pa., April 6.—Deep furrows, made by the claws of a pet cat, mark the left cheek of Mrs. James T. Brown, of Tenth street and Central avenue, but the wounds in all probability saved the woman from being burned to death in her bed this morning.

About 2 o'clock Mrs. Brown was awakened by the cat clawing her face. She screamed and aroused her husband, who jumped out of bed, finding the carpet burning and flames creeping up among the lace curtains at the window. The room was filled with smoke. Mrs. Brown beat out the fire, which was caused by a lamp overturning, this mischief having in all probability been done by the cat, which realized what it had done and the danger in which the sleeping pair were placed.

IRISH EMIGRATION IS BEING CHECKED

The reports of the labor troubles at Lawrence, which have come over to the papers here from their American correspondents, have done more to strengthen in the hands of the Anti-Emigration league than any other agency since the league was started.

PRAYER PULLED HIS LEG TO RIGHT SIZE, HE SAYS

Reading, Pa., April 6.—Charles R. Martie, son of the Rev. W. F. Martie, pastor of the Reading mission, declares he

has been healed in a miraculous manner. He was suffering with an ailment that prostrated the best physicians but today he is well.

He gives credit for the cure to the Lord, saying: "I have been in one hospital for 31 days, in another upon three different occasions and still another twice, but I couldn't get any relief until the Lord opened my eyes, and gave me understanding and wisdom."

"One of my legs was shorter than it ought to be. I had four extra pieces of heavy leather on the shoe. I went to the altar and began praying. After praying for about five minutes the Lord spoke to me and I had a feeling as if my left leg

was being pulled. When I got up from a kneeling position the leg was as long as the right leg and I threw away my high shoes at once."

Western Canada

LAST WEEK TO LOCATE ON THE SPLENDID LOW-PRICED WHEAT FARMS OF THE CANADIAN PACIFIC RAILWAY COMPANY.

Nothing approaching the present immigration to Western Canada has ever before occurred on the North American continent.

American Farmers

Last year 130,000 farmers from the United States bought and located on these lands, and on reliable information it is estimated that 200,000 will go this year.

Why Do They Go?

BECAUSE the last ten years has demonstrated beyond question that WESTERN CANADA is producing the finest quality of hard wheat grown on the American continent. This fact has been proven by this wheat taking first prize wherever exhibited for the last seven years, the last exhibit being in New York City in October, 1911, and where Canadian farmers won first, second and third prizes on wheat against all American competitors.

BECAUSE statistics show that Western Canada produced the largest average yield in America.

BECAUSE these highly productive lands are selling from \$10 to \$20 per acre on ten years' time, which is many times less than land of equal quality can be bought any other place.

Ready Made Farms

The Railway Company has a few selected, ready-made farms, with house, barn, well, fences and from 50 to 100 acres in cultivation. If you have your own horses and implements \$500 cash will put you in possession, with nine years to pay the balance.

We are running regular excursions to inspect the lands at reduced rates.
