Sprig of Ancient Family Captures Bride While Doing High Jinks.

(United Press Leased Wire.)

New York, N. Y., April 6.-Broadway is mounting the departure of Prince Ludovic Pignatelli d'Aragon, descendent of an ancient Italian family and a Spanish grandee, who has returned to Eu-rope to get Pope Plus^aand King Alfonso consent to his marriage to Miss Mary L. Duke, daughter of Benjamin L. Duke, 20 CARS OF PAPER the tobacco king.

The prince came to America several months ago with the avowed intention months ago with the avowed intention of hunting big game. He seturned without any grizzly bear skins, unless he purchased them in Gotham, but his intended bride will one day receive a fortune of \$76,000,000 and this fact un-toubtedly will console the prince for his failure to add to his laurefs as a Nimrod. When the prince landed here he re-solved to see the bright light district before he braved the wild and wooly weat in search of big same. His first

west in search of big game. His first exploit, which endeared him to the 'night owls" was to ride down Broadway astride the hood of a taxicab to the astonishment and amusement the after-theatre crowd. Then the prince decided that he would annex the Vanderbilt cup. He purchased a high powered automobile and took a number of excursions through Central Park Dec 155 % with the chauffeur at the steering wheel showing him how. Deciding that he was sufficiently versed in the mysteries of auto driving, the prince gathered together some of his friends and resolved to take them on a spin through the park while he acted as chauffeur. The racing car soon con-nected with a very firmly rooted tree. A junk dealer picked up the pieces of the auto and three or four expert surcons sowed together what was left of prince.

A few weeks later while he was still decorated with court plaster and smell-ing of antiseptics, D'Aragon got the impression that Claud Graham White, the noted aviator, was dving of beri-ber or some other outrageous disease and he forthwith proceeded to summon three of the most fashionable knife-wielders in the city to the Englishman's hotel. When the surgeons arrived, they were told there was "some mistake" and they have probably been hoping ever since that the Spanish grandee would at some time come under their treatment.

Then the prince met Angler Duke, a brother of his intended bride and was invited to the Duke mansion at Durham. The engagement followed after D'Aragon had promised his prospective father-in-law that he would go to work and cut out late suppers and striped drinks. It is reported that he will re-turn the latter part of April and take a job in one of the Duke tobacco fac-tories. tories.

IS NOT HEAVY ENOUGH IS NUT HEAVT ENUUGH MoMinnville, Or., April 6. — The Southern Pacific's distribution of bar-ley seed to the farmers for introduc-tion as a commercial product in Ore-gon was somewhat disappointing, as there were 1000 requests for seed and only 75 farmers could be supplied. Those farmers who were not supplied are naturally disappointed, and are asked to watch the fellow that got the seed and perhaps they can secure some from him next year. When all cannot be supplied it would be better to work a campaign of direct correspondence with the farmers, and not leave the im-pression that there is seed for all. In other words, too much fuss for 150 bushels of barley given away. Those who received seed in Tamhili-to dure works, too much fuss for 150 bushels of barley given away. Those who received seed in Tamhili-to the works, too much fuss for 150 bushels of barley given away. Those who received seed in Tamhili-to Agayton; W. W. Lunger, Lafayette; F. W. Fenton, McMinnvilie; Rex Burgess, Sheridan, and Geore I. Zimmerman of Yamhili. The varieties distributed were Oderbrucker and Pedigree.

BIGGEST CROP OF

pression that there is seed for all. In other words, too much fuss for 150 bushels of barley given away. Those who received seed in Yamhill-county are: S. H. Robinson, Amity; J. T. Watson, Carlton; E. M. Alderman, Dayton; W. W. Lunger, Lafayette; F. W. Fenton, McMinnville; Rex Burgens, Sheridan, and Geore I. Zimmerman of Yamhill. The varieties distributed were Oderbrucker and Pedigree.

WALLA WALLA GRAIN MAKES GOOD PROGRESS FOR FRUIT WRAPPING

Walla Walla, Wash. April 6.—With a warm week, and one with plenty of rain, grain in the Walla Walla Valley made the greatest progress of any per-iod since the seed was sown. There were several warm, almost hot, days during the first part of the week, and on Wednesday night came a quarter V of an inch of rain, giving the wheat all of the moisture it needed without drawing on the reserve in the soll. Wheat is green the valley over, and the earlier fail sown grain in the warm-er portions of the valley is showing foints in favored viaces. In the upper end of the valley the progress has not been so rapid, but the wheat has the ground well covered, and the prospects are better than ever before.

San Francisco, Ajril 6.—Grain calls: Open. High. Low. Close. WHEAT.

ground well covered, and the prospects are better than ever before. Spring seeding is almost completed, and in few places is there any yet to be done. The farmers are feeling optim-istic over this part of the work, for there has been little weather to stop the planting since spring opened up. BARLEY. 185 14 185 165 A 185 185 185 185

Blood Poison Cured by the New German Remedy

If you suffer from BLOOD POISON there is a sure and lasting cure. This remarkable remedy is no longer an experiment; my experience with this drug is that, if properly handled, it is a sure CURE, a LAST-ING CURE, a BOON to MANKIND. I have successfully treated and cured hundreds of cases. I can show you the evidence of all that I claim by bringing you face to face with many cured, happy patients. Seeing is be-lieving, you know, and is the strongest argument that I can offer you. Can anyone do more? Nay, as much? I am always giad to have you bring your family doctor with you when you take this wonderful treatment, I administer it as it should be given —intravenously—directly into the blood current.

you take this wonderful treatment, I administer it as it should be given —Intravenously—directly into the blood current. MY DIRECT TREATMENT FOR WEAKNESS That disorder commonly known as weakness has for years and genera-tions baffled the efforts of physi-clans, yet to this very day a ma-jority of doctors, specialists not ex-cepted, are attempting to overcome-it by methods that have been in con-stant use and have always failed for-half a century. They dose the sys-tem with powerful stimulants and-torics calculated to restore nervous-force or strength that is not and never has been lacking, with the re-sult that the functions are tempor-arily excited to the positive detri-ment of the patient. Weakness is only a symptom caused by many dis-tinct logal conditions and is curable by local treatment only. I RELIEVE WEAKNESS with my NEW SYSTEM TREATMENT, without giving a sin-gle internal dose, which demonstrates What You Need Is the Right Treatment at the Beginning MY DIRECT TREATMENT FOR WEAKNESS That disorder commonly known as weakness has for years and genera-tions baffled the efforts of physi-clans, yet to this very day a ma-jority of doctors, specialists not ex-cepted, are attempting to overcome it by methods that have been in con-stant use and have always failed for half a century. They does the sys-tem with powerful stimulants and tonics calculated to restore nervous force or strength that is not and never has been lacking, with the re-sult that the functions are tempor-arily excited, to the positive detri-ment of the patient. Weakness is only a symptom caused by many dis-tinct logal conditions and is curable by local treatment only. I RELIEVE WEAKNESS with my NEW SYSTEM TREATMENT, without giving a sin-gle internal dose, which demonstrates

What You Need Is the Right Treatment at the Beginning.

What FOU ACCO IS the Algin if Cathield at the Deginining. If I could see and treat all men when the first symptoms show them-selves, there would be little need for so-called specialists in chronic dis-eases, and there would be few men sweking rejuvenation of their physical and mental powers, and there would also be few marked with the stamp of constitutional Blood Diseases and Diseases Peculiar to Men, and their complications would be reduced to a minimum. But as long as men con-tinue to disregard the golden sdage. "A Stitch in Time Saven Nine," and continue to neglect themselves or to exercise indifference as poor judg-ment in consulting the right specialist at the outset, just so long will there be multitudes of chronic sufference.

EXAMINATION AND CONSULTATION.

I make the most thorough examination of all patients who call For this I make absolutely no charge. It offers every alling man portunity to learn the truth about his condition and prepares him against the misiakes of other doctors. My office is open all day from 9 s. m. to 3 p. m. Sundarys fre 1 o'clock. All correspondence treated confidentially. Letters cheerr swered.
