ROOSEVELT HAS MORE DELEGATES THAN TAFT-DIXON

But Ayer Begs to Differ; Insists That List Stands, Taft 243, Roosevelt 29, La Follette 10, Cummins 2.

is to be a policy, apparently, regardless of the merit of the contest. This will enable Mr. Dixon to place all southern delegates in the contested list. But does any one suppose that delegates from southern states, elected in the regular way, are to be rejected merely because the manager of one of the pres-idential candidates has directed that a contest of some kind shall be arranged?

"In contrast to Mr. Dixon's figures I refer to a tabulation of delegates elected published in the Chicago Record-Herald of March 28. This was before the Wisconsin primaries, when 26 dele-gates were added to the La Foliette column. The Record-Herald gave Taft 243, Roosevelt 29, Cummins 2, La Follette 10 and classed 10 as uninstructed or unpledged.

"The truth of the matter is that there is a great Taft wave sweeping over the country, and it is felt in Oregon as well as in other states. In a letter

J. T. Wilson for Sheriff

Business Men for **Business Position**

When law and order are not enforced and those who are responsible for the enforcement of same, whether they be state, county or city officers, point to the other follow and say "It's his business, not mine. Any way, we can't stop that kind of law breaking" they evade their responsibility and lie, so says Mr.

Mr. Wilson is candidate for sheriff, standing on the platform: "A real bustness, run as a business, by a man of business experience with a public training," as well as using the Golden Rule his principle when dealing with those who have made mistakes, thereby breaking the law. Mr. Wilson says "A man who unintentionally breaks the law should not be broke or tramped down to oblivion, but should be helped upnot by a simpering, but a strong manly land."

These and other reasons why Mr. Wilson should be sheriff will appear from time to time in this form of paid adtertisement.

Membership List.

An active campaign for the increasing of the membership in the Portland Chamber of Commerce is to be commenced Monday morning. This is a direct result of a meeting of President Bays Figures Bidiculous.

Knapp with the chairmen of the comcampaign committee, declared the claim tention of Mr. Knapp that the chamber of Senator Dixon is "absolutely ridiculous" and a case of "whistling to keep membership that it now has. The "Senator Dixon's claims are justifiably modest, so far as Roosevelt deleto add to this at the rate of 100 per

The membership committee is he apparently claims only about twice composed of 20 of the leading business as many as Roosevelt really has. But men of the city, under the chairman-when he comes to deal with the Taft column of delegates his figures grow mens National bank, and this committee grotesque.

"His figures are misleading more in what he fails to say than in what he says. For instance, \$6 delegates have says. For instance, \$6 delegates have chamber of commerce office, the elerical force having been added to for this

"In order that Portland and Oregon may derive the fullest benefit from the completion of the government pro Taft, and press reports say 79 of them jects, it is absolutely urgent that the are for Taft. work of the chamber of commerce be supported to the fullest extent," said elected after giving specific pledges to Mr. Knapp. "I find that the chamber vote for Taft. Strictly speaking, they has taken the leading part in all movements uninstructed, and Mr. Dixon seems ments, having for their object the extension of trade, the securing of everything for Portland that should make it the leading city on the Pacific coast The artful Mr. Dixon, to attain the figures he is giving out, must also have classified the delegates from such states of Alabama, Florida, Georgia and Virginia as contested or uninstructed. Virginia as contested or uninstructed must lend his aid to this work. I hope Again, strictly speaking, he is right they are nearly all pledged to membership will realize the importance It is true that some are con- of this and at once signify their intested, but in most instances the con- tention of doing their share toward betests, as shown by press reports, are curing for Portland the benefits that it extremely flimsy. deserves, and these benefits incidentally "Not long ago Roosevelt headquarters reflect themselves on everyone making practically announced that all south- his home here or having business or ern delegates will be contested. 'We will undoubtedly have 700 or 800 delegates in the Chicago convention. This is our early prediction, and with the result this week in Iowa, Indiana, New York and Colorado, these figures seem to be most conservative."

SUCCEED R. V. HOLDER

The local office of the Chicago-Northwestern Railroad has received a tele-gram from General Agent R. V. Holder for the present in Chicago, to the effect that his place in Portland will be taken May 1 by E. C. Griffin, now general freight agent at Omaha.

Mr. Griffin's transfer to Portland is the result of Mr. Holder's promotion to the position of general agent at San Francisco to succeed R. R. Ritchie, general agent at San Francisco, who has been promoted to general agent of the Pacific coast with headquarters at San Francisco. The move is to strengthen the Chicago-Northwestern's position of the Pacific coast. The system operates 10,000 miles of lines, from St. Paul to Chicago, Chicago to Council Bluffs, and Council Bluffs to Lander, Wyo.

Mr. Holder is one of the most popular railroad men in Portland and his transfer to San Francisco is learned of with regret as well as congratulations. He was one of the prime movers in the or-ganization of the Transportation club of this city, which now has a couple hundred members.
