Balmy Spring (Contributed to The Journal by Walt Mason, the famous Kansas poet. His prose-poems are a regular feature of this column in The Delly Journal.)

When with his chain that tyrant king, old Winter, long hath bound us, how pleasant then is gentle Spring, when she comes smiling round us! barber I repair, a gay and blithe cavorter, and have him amputate my hair and cut my whiskers shorter. smile and sprightly joke I wander through the city, and put my overcoat in soak, and sing a cheerful ditty. In spring the burden of my years seems fallen from my shoulder, and I'm by frisky as bay steers and not a blamed bit older. I'm just as chipper as can be. my vim could not be greater; I'd chase a peeler up a tree, or whip an alligator. And while I'm feeling blithe and gay. some sinful agent passes; he sells a tonic made of hay and barks and buds and grasses. He backs me up against a wall and says I need his mixtures to heal my liver and my gall and divers other fixtures. He proves that I am out of whack by reading texts and verses from Dr. Faker's simanac-upon which book my curse is. And so I take his dope and then my buoyancy's departed; I'm feeling old and tough again, and stale and broken hearted. spring time clothes the smiling hills, rejuvenates each acre, beware the agent and his pills, beware of Dr. Faker!
