BUTTER MARKET NOW
CRITICAL TO THE INDUSTRY

SCARLET FEVER CASES
WELL UNDER CONTROL

GARDEN CONTEST FOR
PUBLIC SCHOOL PUPILS

Market Quotations Are Practically
the Same as Those Made at the
Start of the Week; Increasing Ar-
rivals Are Taken Care of.

Portland Wholesale Market.
Eggs are firm.
Chicken market good.
Dressed birds firm.
Veal market rather late.
Too much mutton.
Pork market steady.
New arrivals sell slowly.

Withdrawals of eggs from the front
street trade by the demand for storage
and the recent heavy consumption, is
being the trade has cleared.
While there has been considerable in-
crease in arrivals within the past week,
the market, as a rule, has reflected
reasonable strength right along. The
normal showing of business when the
market was without shipping orders,
quickly gave way to a fair showing of
steadiness and prices have been quite
well maintained.

The price here is in line with conditions
that will admit of northern ship-
ments, and as long as this condition
continues, the market will be good.
Storage operations are again quite
liberal. While toward the early part
of the week there was little doing in
this line, the movement showed signs
of returning activity later.

DRESSED HOGS VERY FIRM

There is a very firm tone in the
dressed hog trade along front street.
Country killed stuff of top quality is
now readily bringing 16 1/2 a pound
and indications point to an even
market next week.

VEAL CAME AT CLOSING

There is sudden much demand for
dressed veal on the closing day of the
week, therefore the rather liberal ar-
rivals this morning did not meet with
favor from the trade. Prices
nominally unchanged.

POTATO MARKET STAGNANT

There is practically no business trans-
acting in the potato market at this time.
Country sales are nominal and even the
lower prices recently offered have given
the dealers bidding more stock than
they could take care of.

LOCAL GRASS IN GOOD SHAPE

There is a slight increase in offer-
ings of local grass. The grass is
loaded with all qualities of local
growth, but nevertheless, sales of local
grass are being made at good prices. As
a rule, bunches are going at \$1 per dozen.

NEW ONIONS MOVE SLOWLY

Owing to the extreme price asked and
the excellent quality of the old crop,
new onions are moving very slowly in
the local market at present. Some of
the offerings of old stock seem as good
as the day they were packed.

PORTLAND JOBBING PRICES

Grain, Flour and Hay.
These prices are those at which whole-
sale dealers sell to retailers, except as
otherwise stated:
WHEAT—Nominal—Producers' prices.
