

# CRICKETERS WILL SMOKE THURSDAY

### Turf Too Soft for Practice and Opening Postponed for One Week.

The Portland Cricket club will celebrate the opening of the 1912 season with a dinner and smoker at the club house Thursday evening, April 25. After the dinner a concert will be given by members and friends of the club. A splendid program has been arranged, being contributed to by several well known local vocalists.

The president of the club, Charles Biskely, will occupy the chair during the evening and will give a short talk on club matters, telling of the prospects in view for the coming season, which all connected with the club think will be the best and most enjoyable one that cricketers have ever had here.

Tickets for the dinner and smoker can be obtained of any member or at the club house during the evening.

The opening practice, which was scheduled for yesterday had to be postponed on account of heavy rain during the week, the ground committee deciding that the turf was too soft and would consequently cut up a great deal. It is hoped to open up, if the weather is right, on next Saturday. The ground is improving under the care of Thomas, the well known professional, and it is safe to say that visiting teams will find the playing field here as good, if not better, than any they play on getting the season.

Intending members are asked to communicate with the secretary, C. Cumming, 704 Wells Fargo building, as soon as possible and get their membership cards. The cricket ground is located on the Montavilla car line at East Sixty-seventh street, two blocks north of the track, and intending members are asked to visit the grounds and see what a splendid cricket field and club house the Portland club owns.

## Amateur Baseball

There has been an impression in the minds of managers of local amateur teams that the little town of St. Paul, Or., has been a hard town for local teams to play in. Manager Sol Richardson of the O. W. R. & N. team writes the following letter to The Journal: "Frank M. Gearin, manager of the St. Paul team, is one of the most prominent business men of St. Paul, being senior partner of one of the largest business firms in the town. Mr. Gearin and the citizens extended us all possible courtesies. We could not have wished for better treatment. If there ever was a rough element in control of baseball in St. Paul it has passed out of existence. I want to assure any team that it need have no fear in securing a game with that place. I consider it an injustice that a stigma should be placed on Mr. Gearin and his associates."

The O. W. R. & N. team was defeated last Sunday by the St. Paul team by the score of 10 to 3. Today the O. W. R. & N. team will play the Oswego team.

The Oregon baseball team is still looking for out of town games. Teams desiring games may write J. T. Holzman, 553 Johnson street.

The Keystone Woolen Mills team was defeated last Sunday by the McMinnville team by the score of 19 to 1. Fourteen of the Keystoneers were whiffed by the McMinnville slabsters.

Manager Wayne Lewis of the Michigan Wildcats, will take his team to McMinnville today, where they will meet

**Spike Goes to Pendleton.**

# PETERSON FIRST TO FEEL IRON RULE

### Lincoln Catcher Played Outside School League and Is Disqualified.

Catcher Peterson of the Lincoln high school was the first player to feel the iron hand of the new interscholastic league. One section of the new rules made it plain that no high school player would be allowed to play with any outside team after the interscholastic league season opened. The league had been opened a week when Peterson disobeyed the rules and caught in the exhibition game which was played against the Portland Colts a week ago today.

By losing Peterson, the Lincoln team is greatly weakened and its chances of repeating its performance of winning the interscholastic championship are lessened. Schools will likely do the catching for Lincoln now and whether he will be able to hold Teurich's spot remains to be seen.

## SULPHURRO IS CURATIVE FOR MANY TROUBLES

### Seattle Man Writes Stewart Compound Is Blessing in Household.

### LONG SUFFERED FROM RHEUMATISM, NOW WELL

### "Seems to Unite Good Qualities of All Beneficial Medicines in One Bottle—I Know of Many Wonderful Cures."

Seattle, Wash., March 21, 1912.

Mr. C. M. C. Stewart, Seattle Wash.—My Dear Mr. Stewart: I have often wished to thank you for the results of your Sulphurro which has been of so much benefit to me and mine. I was suffering with rheumatism when I first began using it, and had been unable to walk without great pain. I am now cured and within a period of six months, too, which I think a short time for so serious a disease.

My family has used it with satisfactory results for various eye troubles, and in cases of any kind of injury it has a great reputation. Sulphurro has been in constant use in my family ever since I first advised it. Several members were troubled with rheumatism, eye injuries or stomach trouble, and in every case Sulphurro has given relief.

Now Sulphurro is used in place of many different kinds of medicine, as it seems to unite the good qualities of all beneficial medicines in one bottle. The relief is quicker and more lasting. I know of many wonderful cures where I knew the parties and recommended the medicine, and their complete restoration to sight and health is a pleasure to contemplate.

Wishing you all the blessings that should be the lot of one able to relieve so much suffering, I am your sincere friend.

Gentlemen:  
I would like to say a few words in regard to Sulphurro.  
I came down with inflammatory rheumatism last June and was in pretty hard shape all through the month of July and a part of August, when I was called to Seattle. A friend of mine, Judge Wilson R. Gay, recommended Sulphurro and procured a bottle for me. I will say that within three days from the time I began the use of it I commenced to get better and within a week you would hardly know I had ever bothered with rheumatism. I am a great believer in Stewart's Sulphurro for rheumatism. I have recommended it to several people and know beyond a doubt that it has helped them.  
Yours respectfully,  
E. M. C. Stewart
