An Immense Showing of Furniture of the Finer Grades Is Ready for Your Inspection

Because we do not make an exclusive feature of high grades of furniture, many people do not realize the fact that we carry a magnificent and very extensive showing of the product of some of the most celebrated makers in America, and it is for this reason that we are this week featuring a selection of our patterns in single pieces and complete suits at very special prices.

We want to direct your attention to this important branch of our business and secure the recognition and appreciation which such a showing of fine furniture merits. We are confident that you will be greatly impressed with the high character of our leading lines and the great range and variety of patterns. We excel in this department of House Furnishings, just as we do in all others—and are prepared to carry out effective schemes of room-furnishing in any desired Period style.
