O. A. C. AND U. OF O. TO KNOW NEXT SATURDAY

Oregon Agricultural College, Corvallis, Or., April 25.—The Associated Student Body of the Oregon Agricultural College met yesterday noon to select a number of important matters which have come up lately and for which committees were appointed at the last meeting. The first committee to report was the one appointed to handle the question of the resumption of athletic relations with the University of Oregon. No progress was made by the body, but definite results are to be obtained Saturday.

W. HUMMELL'S INJURY LESSENS CLUB CHANGE

The change of the Multnomah Amateur Athletic club waiting the dual track and field meet with the University of Oregon, which will be held Saturday afternoon, was given another setback when Walter Hummell sprained both his ankle yesterday. Hummell was considered a point winner in the 100 and the 200 yard sprints. The former Shattuck school athlete was coming down the grade from the club house to the field when he tumbled and sprained both his ankles. It will be some time before he is able to resume his athletic work.

Artillerymen Play Infantrymen. Vancouver, Wash., April 25.—The Second field artillery baseball team will play the First infantry on the Garrison grounds Saturday afternoon, April 27. This will likely be the last game for the infantry before sailing for Honolulu on May 4. The Second field team will play the Colts of Portland Sunday afternoon April 28.

You might be better satisfied

Perhaps your tire experience has been satisfactory—or passably so. We hope it has been. But it may be that tires made as only United States Tires are made—by co-operative skill—would prove even more satisfactory. Possibly far more satisfactory.

The possibility is certainly worth considering—especially when thousands of motorists who are today using

United States Tires

exclusively, formerly thought they were "pretty well satisfied" with other tires.

In buying one or two of these tires as a "trial," you are in reality giving four organizations, working as a unit, an opportunity to show you why tires made as only United States Tires are made are entitled to sell as only United States Tires sell.

And keep this in mind: The first cost is the same as though you continued to use tires made in the ordinary way. You are not asked to "take a chance"—not even in the matter of price.
