

CHICKEN TRAIN TO MAKE 55 STOPS

School Children in Each City Will Get Chance to Learn Poultry Feeding.

(Special to The Journal.)
Forest Grove, Or., April 25.—The poultry demonstration car equipped by the extension division of the Oregon Agricultural college will arrive in this city over the Southern Pacific railroad next Wednesday evening at 8 o'clock. The car will make 55 stops in different towns of the state. The car will be in charge of C. C. Lamb, of the college poultry department, and he will be assisted by R. B. Thompson of Portland, a junior in the agricultural course. Professor James Lynden, head of the poultry department, is to have general supervision of the trip, and has arranged an interesting program of lectures and demonstrations for the time the car is to stay in each town.

First there will be a lecture and a demonstration especially for the school children, which will last from half an hour to one hour. Following that, there will be a half hour lecture for the general public on "Poultry Feeding," and thereafter those interested will be given a demonstration and a chance to inspect the car exhibits. Another half hour lecture for the general public on "Raising Chickens" and a demonstration and exhibit of an hour or more will close the program.

There will be opportunity for everyone to ask questions regarding the solution of problems of their own particular location, so that the greatest possible amount of practical help may be given to all. State Superintendent of Schools L. R. Alderman has arranged to have the school children in each town visited by the car attend the lectures and demonstrations. This is to be a 26 day tour of the Willamette, Umpqua and Rogue river valleys.

(United Press Leased Wire.)
San Francisco, April 25.—Suing for \$245,000, the largest attorney's fee ever asked in a California court, A. von Hovenberg is today obliged to content himself with \$4750. The fee was for legal services rendered Mrs. Marie L. Cone in connection with her famous \$1,000,000 ranch in Glenn county. The jury decided that von Hovenberg's services had been amply rewarded in the \$4750 which Mrs. Cone had already paid him.

SUFFRAGE SCORES VICTORY IN HOUSE

Bill for Local Government in Alaska Gives Partial Home Rule.

(United Press Leased Wire.)
Washington, April 25.—Woman suffrage scored its first victory in the house when that body passed a bill for local government in Alaska, granting partial home rule, with authority vested in the legislature to grant to women the right to vote. The measure called for a debate, in which Victor Berger, the Socialist member from Wisconsin, declared that women should vote "because they do men's work."
"If women voted, do you think they would have been shown the consideration they were when the Titanic sank?" asked Representative Perris of Oklahoma.
"I do," replied Representative Mondell of Wyoming, "for they are more important than men."

PROMISES TO EMPLOY LOCAL LABOR ON SPAN ORGANIZATION FORMED BY THE HOTEL CLERKS

D. Solis Cohen, a member of the bridge committee of the city executive board, yesterday reminded Engineer Harpe, representing Modjeski in the supervision of the construction of the superstructure of the Broadway bridge, that the Pennsylvania Steel company has promised verbally, through its officials, to employ local labor so far as possible.

"It has come to us," said Mr. Cohen, "that the company has brought out something like 30 workmen from Pennsylvania." Engineer Harpe said this was not the case. He said that the company had imported two or three foremen and several of its old men as a nucleus about which to establish a bridge crew. The committee instructed the engineer to keep it informed as to the number of workmen employed on the span.

Engineer Modjeski said he had recently made a visit to the shops of the Pennsylvania Steel company at Steelton, Pa., and that the work of fabricating the steel for the Broadway span is progressing rapidly.
An outline system of electric lights was decided on by the committee for the illumination of the bridge. The committee will also recommend that heavy steel rails be laid across the bridge so that it will be unnecessary to tear up the pavement. The company is given a streetcar franchise across the viaduct.

BIG DRIVES WILL COME DOWN SANTIAM IN 1912

(Special to The Journal.)
Stayton, Or., April 25.—Word has reached here that lumber crews are at work in the timber along the upper Santiam, preparing for the spring log drive. It is stated that between 6,000,000 and 7,000,000 feet of logs will be rolled out this spring, and the first drive is expected to pass this place in a few weeks. As Stayton is the first town the loggers strike after weeks of hard work in the timber, their arrival here is an annual event of some importance.

CZAR'S 'HOLY MAN' SENT TO SIBERIA

He Will Trade Places With Bishop He Caused to Be Banished.

(United Press Leased Wire.)
St. Petersburg, April 25.—After successfully hoodwinking the Russian court for many months, Rasputin, the "holy man," has been sent back to his Siberian home. Before the unseemly episode of the former Czar's peasant had been discovered, Rasputin built up a considerable following in the capital, and had it in said, obtained a potent influence over the czar himself, having declared that only through his powers could the czar and his little son be saved from danger.
As one result of Rasputin's influence, Bishop Hermogen, against whom the late Premier Stolypin was powerless, was banished when he attempted to interfere with the "holy man's" activities. Following investigation of Rasputin's past, the czar finally was prevailed upon to get rid of him. Bishop Hermogen has been recalled from banishment and will be given an advanced post by the czar.

The Oregon State Hotel Clerks' association, affiliated with the National Greater association, with headquarters in Chicago, was permanently organized at the Oregon hotel Wednesday night at midnight. The new organization starts out with a membership of about 40, all members being residents of this city. However, it is assumed that many clerks in outside cities will become members before many moons.

Meetings will be held every two weeks and until permanent club rooms are obtained, the association will hold its sessions at the various hostleries. The next meeting will be held at the bowlers May 9. Because of the break of the night shifts, the hour scheduled for the meetings has been fixed at 11 p. m. The new association's charter will be number 36 and it will arrive in time for display at the next meeting.

At the conclusion of the session Wednesday night, a vote of thanks was extended to the Oregon hotel management for its courtesy in permitting the members the use of rooms for the session.

Following are the officers chosen: John Moran, of the Bowers, president; C. H. Shaffer, of the Imperial, first vice president; P. A. Reynolds, of the Portland, second vice president; P. A. Laymen, of the Seward, secretary; Ross Finnegan, of the Carlton, treasurer.

ALASKA MAGAZINE MAY LOCATE OFFICES HERE

F. W. Swanton, president of the Alaska club in Portland, is in receipt of a letter from John W. Troy, editor of the Alaska-Yukon magazine, Seattle, in which it is intimated that the place of publication of the magazine may be changed from Seattle to Portland. Mr. Swanton is asked to take the matter up with the local commercial organizations with a view to getting an idea of any inducements that might be offered the publishers if they should change their location.

The local commercial club is also in receipt of a letter from the editor of the magazine in which he states that the publication, though established in Seattle for six years, is losing money because of indifferent support by the Sound people. The letter states that the place of publication will be changed to Portland, providing suitable inducements are offered by Portland people. The magazine is owned, edited and managed by Alaskans. The publishers ask investigation by Portland people, maintaining that careful consideration will demonstrate wherein Portland will be materially benefited should this city be made the place of publication.

Gentlemen: Pardon me for not being more prompt in replying to your letter of April 5th (RGM); the delay was due to the fact that I wished to talk with my tenants before replying. They express thorough satisfaction with the heating system, and I am very much pleased with the workmanship.
The hot-water heater that you installed is a much neater and more complete job than I have received from others in the same line of business. I am not disappointed in having given the work to your firm.
Very truly yours,
W. A. ILLIDGE,
