Senator Cummins will introduce a bill to make a sharp reduction in the iron and steel schedules; the postoffice appropriation bill will probably pass through the house on Tuesday; the constitutional amendment for the popular election of United States senators, already passed by the house, will be brought up this week after the conference had been deadlocked on the senate amendments for months.

supposed Japanese territorial acquisition of Magellan Bay, Mexico, will be sent to the senate this week. An immediate appropriation of \$1,500,000 for the rebuilding and repairing of levees on the Mississippi and its tributaries was made certain when the house passed the senate's joint resolution authorizing the expenditure. Congress previously had authorized the use of \$400,000 for emergency work to stop the ravages of the flood.
