

BANKERS' MEDALLION GETS -10 YEARS

Conversion of \$20,000 Notes
Put Into Bank of Vale
Brings Sentence.

Special to The Journal.
Vale, Or., May 8.—Sheriff D. H. Keefe and Deputy Sheriff and Keefe yesterday for the state penitentiary. A. A. Calkins will serve an indeterminate sentence of one to seven years for larceny from a store and P. Ferguson and Dan Murphy will serve from three to five years in the state penitentiary for assault and robbery.

Charles W. Theobald, ex-banker of Vale and former president of the United States National bank, was given a sentence of one to five years for conversion of \$20,000 notes. His attorney, George Davis, put in a motion for a new trial. This case involved \$20,000 worth of notes which had been placed in Theobald's hands as a trust property by Bank Examiner Goodhart and which Theobald converted to his own use.

SWEEPING PLANS FOR OREGON GOVERNMENT ARE TO BE SUBMITTED

(Continued from Page One.)

tion and the second and other choice method of voting.

The proposed amendment, printed in small type in pamphlet form, comprises 19 pages and practically rewrites four articles of the present constitution. Mr. U'Ren has started the circulation of initiative petitions to place the measure on the ballot next November. Several pages of newspaper space would be required to fully explain the changes made in the present laws of the state.

To be a qualified voter, citizenship, residence in the state for one year and registration are required. To present a man may vote on first citizenship papers, only six months' residence is required, and those not registered may swear in their votes.

Term of Governor.

The term of the governor remains four years, but the year is changed, making the next election in 1913, instead of 1914, and thereby cutting one year from Governor West's term. The state auditor, the only other state officer to be elected, is also to be chosen in 1913, taking effect January 1 following. Boards of county directors for county governments are likewise to be chosen in 1913 and every four years thereafter. Congressmen and judges are to be chosen in 1914 and every second year thereafter.

Seven sections for preference voting and short ballot regulation are provided to govern in elections until changes may be made by law, this being a species of expressly legislating in the constitution.

Three sections provide the method of counting second and other choice votes and set forth a ballot form to be used. Three columns are given, in the first of which the voter may express his first choice, the second for his second choice, the third for one or more "other choices." This system, it should be understood, is to be used at the general election, there being no primary, and all candidates' names of all parties will appear together.

Party Designations.

If any candidate has a majority of first choice votes over all the others, he is elected. If he falls in this, the second choice votes are to be counted, and the candidate having the largest number of votes having a majority of first and second choice is elected. Failing this, the "other choice" votes will be added to the total for each candidate and the one having the largest number is elected.

Except in case of candidates for governor, senators and representatives in congress, legislators and presidential electors, no party designation may be printed on the ballot after the name of anything except name, residence and occupation.

A reapportionment of legislative districts is made, whereby the Multnomah representation would be increased from 13 to 18. Marion county would have 4, Linn 2, Lane 2, Douglas 2, Coos and Curry 2, Jackson and Josephine 3, Benton, Polk and Lincoln 3, Yamhill and Tillamook 2, Washington 2, Clackamas 2, Clatsop and Clatskanie 2, Klamath and Crook 2, Grant, Harney and Malheur 2, Wheeler, Gilliam, Umatilla and Morrow 3, Baker, Union and Wallowa 4 and Wasco, Sherman and Hood River 3.

New Divisions.

The new division of legislative districts, with two or more members from each district, is to fit in with the new system of proportional representation. No voter is to be permitted to vote for more than one member of the legislature. The system is such that any candidate receiving one-sixteenth of the vote is assured of election, there being 60 members, and the election by the state at large.

Names of legislative candidates are to be printed on the ballot, however, only in the districts in which they reside. Voters in other counties desiring to vote for them may write in their names or paste "stickers" on the ballot. In this way a Harney county candidate, for instance, could be elected by votes from other counties in any part of the state, though the vote in his home district would be heavily against him, if his total vote in the state were larger than the total vote of opposing candidates living in that district.

Vote on Roll Call.

Instead of having equal vote in the legislature, members of that body are to vote on roll call the total number of votes they received in the state. If Smith of Multnomah, for instance, received 50,275 votes when elected, for example, he would have 50,275 votes in the legislature, while Brown of Marion, for example, would have only 10,000.

Milady's Toilet Table

By Mme. D'VILLE

A simple home treatment that makes the hair long, wavy and lustrous is to dry shampoo frequently with a mixture of four ounces of orris root and an original package of Therox. Sprinkle a tablespoonful on the head, then brush thoroughly through the hair. All dirt, dust and dandruff will be removed, the scalp refreshed and the hair made clean, bright and glossy.

A lovely, soft and youthful complexion will be yours if you use a solution made by dissolving an original package of Therox in eight ounces of witch hazel. Gently rub over the face, neck and arms night and morning, and the skin will be clear, smooth, fair and brilliant.

To stop headache, or ache in back or joints, reduce swelling, relieve inflammation, relieve pain in any part of the body, apply Mother's Salve. The world never saw it equal as a pain killer.

Any woman can easily and quickly remove wild hairs from face or forearms. Just mix enough powdered Therox with water to make a thick paste, apply, and after two or three minutes rub off, wash the skin and the hairs will be gone.

receiving \$2,417 votes, would have 24,172 votes in the legislature. A majority of all the votes cast throughout the state for candidates for representative are required to pass a bill, a bare majority of members not being enough.

The governor is made an ex-officio member of the legislature, also defeated candidates for governor receiving the largest number of votes within his party, provided the party is one recognized as a political party by the general laws of the state. The governor and defeated candidates for governor would cast in the legislature a vote equal to the total vote cast for the unsuccessful candidates of his party for the legislature throughout the state.

The presiding officer of the legislative assembly is not to be a member or to have a vote, or to appoint committees. The legislature is to meet annually, instead of every two years. Pay of members remains at \$3 per day, with a limit of \$120 for one session.

Limitation of Franchises.

Appropriations for state institutions and maintenance of government are made available at once, and are not to be subject to referendum, which is not to exceed the amount of previous appropriation for the same purpose. The referendum may be used on any increase, except in emergency of war, insurrection or calamity.

All franchises and privileges granted are limited to 30 years, with a provision for taking over property connected with the grant for public use at any time on payment determined by estimate of physical value.

Bills introduced after the legislature has been in session 30 days are not to be passed unless emergency measures, and printed copies must be in the hands of members five days before passage. A fine of \$10 is fixed for each member failing to vote on any roll call, unless he has been excused. A majority of the members, representing also a majority of the people, may call a special session.

Recall Petitions.

Recall petitions must be signed by registered voters, and the time for calling the election is lengthened from 30 days to from 60 to 90 days. The question, "Shall _____ be recalled?" is to be printed on the ballot, and if a majority vote "Yes," the officer or candidate for the office will be voted for, but the name of the incumbent is not to be printed on the ballot. If the voters say "No" on the question of recall, he remains in office.

To carry an emergency clause on a bill, a separate roll call and a three-fourths vote is to be required. If referendum is called on an emergency bill, it shall be a law until voted on. No law enacted by the people is to be repealed or amended by the legislature or by a city council except by a three-fourths vote.

Cabinet Members' Salaries.

Members of the cabinet are to have salaries provided by law. The governor may go outside of Oregon to choose the business manager, and is authorized to fix the salary for that officer up to \$12,000, which amount may not be exceeded until approval of the people is gained. The business manager, subject only to the governor, is to have power to consolidate offices and supervise and manage the department of state. Present state boards are abolished. The governor and members of the cabinet are to have seats in the legislature, may take part in debate, and must answer questions propounded in writing concerning the government of the state, in accordance with the European system of interpellation. It is the duty of the governor to introduce all appropriation bills, no other member having the power to do so.

County Board.

Cities having 100,000 or more inhabitants are authorized to consolidate city and county government, but only upon vote of the people of the city and county concerned.

A county board of three directors, chosen for four years, is to plan and direct the affairs of the county and employ the county business manager, whose salary may be fixed by the board, but may not exceed \$5,000 a year without approval of the people. The business manager is to employ the subordinate officers and employees of the county, except that county judge, justices of the peace and constables will not be within the jurisdiction of the county manager.

Municipal debts are to be limited to one tenth the amount of assessed valuation, unless for revenue producing property and public utilities, the use of which is paid for by the persons served. The amendment as a whole is declared self-executing, but legislation to aid its operation is authorized.

ALL REMONSTRANCES AGAINST WIDENING OF 7TH ST. OVERRULED

(Continued from Page One.)

The widening being commenced within the next few months.

Application of the Denio Fire Alarm company to secure a permit to connect its system with the wires of the Home Telephone company caused considerable discussion. The company offered only \$250 a year as compensation for the privilege. Councilman Clyde said the company would stand to make \$6,000 a month and that it should be required to pay 3 per cent of its gross annual receipts. The 3 per cent provision was also urged by Councilmen Maguire and Jennings. The council finally adopted an amendment providing for the insertion of the 3 per cent clause and the ordinance was then referred to the city attorney.

The council passed an ordinance amending the new building code in a number of minor details.

The report of the liquor license committee recommending the granting of a transfer for a saloon to be located in Sellwood at the corner of East Thirtieth and Umatilla streets, was referred to the committee. A petition signed by scores of residents asking that the council prevent the saloon being located at the corner named.

WAITERS GO ON STRIKE WITHIN SIGHT OF TIPS

(United Press Special Wire.)

New York, May 8.—On strike today, the waiters quit work at a given signal during the dinner hour, leaving many guests to sit hungry until other waiters could be borrowed from nearby hotels. So well organized was the walkout that it is said many a waiter laid down his tray within a few minutes of the signal to the executive methods of the maître d'hôtel was the cause of the strike.
