INVENTOR IN WANT AT HEIGHT OF FAME

(By the International News Service.) Paris, France, May 11.—Lest he die in want, an appeal has been addressed to the French government to come to the aid of Fernan Forest, the inventor of the explosion.

All over the civilized world great, silent automobiles roll in princely luxury, thanks to the explosion engine. The aeroplane is a possibility and an actuality because of this same machine; submarines are propelled by it and at least one great liner plying the high seas glides along, funnelless, its engine being of the explosion variety.

PEACE PROBLEMS TO BE CONSIDERED AT LAKE MOHONK

Approaching Hague Conference, Proposed International Court of Arbitral Justice to Be Discussed.

(By the International News Service.) Lake Mohonk, N. Overworked Women

Fatigue is the natural result of hard work, but exhaustion results from organic weakness. If you were offered sure aid in time of trouble, would you put it aside and accept something of doubtful efficiency? If you saw before you a strong and safe bridge leading to your goal, would you ignore it and try some insecure and tottering structure?

You know, or should know, that for nearly forty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for woman's special ills. No medicine without great merit could have stood the test all these years and attained the largest sale and greatest success of any medicine in the world for this particular purpose.

Therefore, is it fair for you or anyone to say, without giving this great medicine a trial, "I don't believe it will help me." Read the following genuine and truthful letters—only two of many thousands from grateful women:—

Letter from Miss Grace Dodds, Bethlehem, N.H.—By working very hard, sweeping carpets, washing, ironing, lifting heavy baskets of clothes, etc., I got all run down. I was sick in bed every month. This last Spring my mother got Lydia E. Pinkham's Vegetable Compound for me, and already I feel like another girl. I am regular and do not have the pains that I did, and do not have to go to bed. I will tell all my friends what the Compound is doing for me.—Miss GRACE B. DODDS, Box 133, Bethlehem, N.H.

Letter from Mrs. Etta Donovan, Willimantic, Conn.—For five years I suffered untold agony, backache, irregularities, dizziness, and nervous prostration. It was impossible for me to walk up stairs without stopping on the way. I was all run down in every way. I tried three doctors and each told me something different. I received no benefit from any of them but seemed to suffer more. The last doctor said it was no use for me to take anything as nothing would restore me to health again. I began taking Lydia E. Pinkham's Vegetable Compound to see what it would do, and by taking seven bottles of the Compound and other treatment you advised, I am restored to my natural health.—Mrs. ETTA DONOVAN, 762 Main Street, Willimantic, Conn.

A HANDSOME REWARD WILL BE GIVEN

to any person who will prove that any of our testimonial letters constantly being published in the daily newspapers are not genuine and truthful, or that any of these women were paid in any way to give their testimonials, or that the letters were published without their permission or that all the original letters did not come to us entirely unsolicited. THE LYDIA E. PINKHAM MEDICINE CO., Lynn, Mass.
