

STEAMER VERONA TO TAKE CARGO OF FIR TO SHANGHAI

Will Arrive Here Within Three Weeks; To Take 3,000,000 Feet; Many Tramp Steamers Coming.

Advices to the China Import & Export Lumber company this morning stated that they had secured the German steamer Verona, 2999 tons net, Captain Kummel, for a cargo of Oregon fir for Shanghai.

The Verona, which will be due to arrive here in about three weeks to load approximately 3,000,000 feet of lumber, arrived at San Diego Saturday from Japan with railroad ties for the Santa Fe road. As she has finished discharging her cargo there she will come here to load for the orient.

During the next month it is expected that there will be considerable activity in offshore lumber shipping, as in addition to the regular liners which will carry some lumber, there will be several tramp steamers in to take out full cargoes of the product of the Oregon forests.

Among those which will be here soon are the Japanese steamer Chikai Maru, which sailed from Japan yesterday with hardwood timbers for the Pacific Lumber & Manufacturing company and will be due to arrive here June 10. She will also take out a cargo of lumber for the Japanese market.

The Waterhouse liner Rygia arrived at Victoria Sunday night from Japan after a passage of 18 days, and as soon as she has discharged a part of her inward cargo there and at other Puget sound ports she will come down here, being expected to arrive in the river Tuesday or Wednesday of next week. She has rice, sulphur, peanuts, Chinese merchandise and general oriental freight for this port. Following the Rygia on that line will be the British steamer Lord Derby, which is scheduled to arrive about a week later to load for the orient and early in July the Bank Line steamer Orteric will be due to arrive. The Rygia will sail from here direct for the orient. When he arrived on the steamer Captain Meyer found his wife awaiting him and she will take up her abode aboard the steamer.

NENAMOSHA IS HERE

Captain of Schooner Unable to Enter Siletz With Cargo.

Unable to enter the Siletz because of the fact that the bar was breaking heavily while the glass was falling steadily, pressuring rough for several days, the schooner Nenamosha, Captain Claude Davies, came up to Portland, arriving at 5 o'clock this morning. The Nenamosha left Toledo for the Siletz with 22 barrels of whiskey and some other freight, but as she could not cross that bar when she arrived, she had some cargo to take out from here for the same place, Captain Davies decided to come up here while the weather was bad and load the Portland cargo. This is the first trip of the Nenamosha to this port. She was built less than a year ago for a fishing boat, but has been used since as a cargo carrier between small ports on the Oregon coast.

CONTRACT LET

Albina Engine & Machine Works Is Lowest Bidder on Light Vessel. Three tenders for the docking and examination of light vessel No. 67 were submitted yesterday afternoon at the office of Henry L. Beck, light house inspector for the Seventeenth district, and the contract for the work was awarded to the lowest bidder, which was the Albina Engine & Machine Works, at \$95. The other bidders were the Oregon Drydock company, \$110, and Anderson & Crowe, \$98. The light vessel will be docked within the next day or two. At the present time the Norwegian steamer Opland is on the Oregon drydock, but it is expected that she will be lowered this afternoon or tomorrow morning.

UNUSUAL FEAT

Weather Bureau Sends Forecast to Vessels by Wireless. Radiographing a forecast of the weather to the United States collier Neru, at Head, last night, the local weather bureau accomplished an unusual feat, in that it is very seldom that a request comes in from a vessel at sea for a prophesy of the weather conditions likely to be found off the coast comprised in this district. The Neru, which was a long way south of the Columbia river last night, sent a wireless to the local weather office for a forecast, as she is headed for Alaska, and District Forecaster E. Heals immediately sent the required information.

SNAKE RIVER RISES

Rain Affects the Mountain Streams; Means Rise for Willamette. Heavy rains at Lewiston and in that vicinity yesterday and last night brought the Snake river up 1.3 feet, and it is expected that the result will be felt about Saturday, when it is predicted that the Willamette river here will reach a stage of 18 feet instead of 17.4 feet. It is expected that by Saturday evening lower dock on the waterfront will be vacated. District Forecaster Beck's forecast for the river today is: "The Willamette at Portland will rise steadily for the next few days, reaching a stage of 15.9 feet Wednesday, 16.4 feet Thursday, 17.3 feet Friday and about 18 feet Saturday."

SOCIETY WOMAN WHO IS FOE OF THE BEEF TRUST

Mrs. Scott Durand, one of Chicago's wealthiest society leaders and philanthropists, who has created a sensation by accusing a member of her own set, Arthur Moeker, general manager of Armour & Co., as being one of those for whom government meat inspectors, while pretending to inspect cattle in the interest of public health, were driving out of business persons obnoxious to the richest beef packer. Mrs. Durand's charges are included in a statement filed in Washington with Representative Nelson of Wisconsin.

day every lower dock on the waterfront will be vacated. District Forecaster Beck's forecast for the river today is: "The Willamette at Portland will rise steadily for the next few days, reaching a stage of 15.9 feet Wednesday, 16.4 feet Thursday, 17.3 feet Friday and about 18 feet Saturday."

ANOTHER RIVER STEAMER

The Charles Bureau Will Operate on Upper Columbia. White Bluffs, Wash., May 21.—Another new steamer was added to the fleet operating on this section of the Columbia river yesterday when the Charles Bureau was sent through Priest rapids by her owner and captain, Charles MacMillan of Pasco. The boat will go into drydock at Pasco for repairs, and will go on schedule to White Bluffs as soon as changes are made in her hull. Strawberry shippers are calling for more shipping facilities, and an immense fruit crop will tax the capacity of the boats.

ALONG THE WATERFRONT

The gas schooner Della, Captain Casaday, which arrived yesterday afternoon from Tillamook, is scheduled to sail again tonight or tomorrow morning for Neskaneum. Laden with lumber for San Pedro, the barkentine John Smith was towed from Westport to Astoria at 5 o'clock this morning by the steamer Oklahama. Arriving in tow of the steamer Johan Petrusen, the schooner Virginia is being towed up the river today to the Eastern & Western mills to load a cargo of lumber for the south. The gas schooner Tillamook is scheduled to sail tonight for Bandon and way ports with general cargo. Twelve sailors, all of them Mexicans, Central and South Americans, were paid off from the Norwegian steamer Opland this morning by Captain Erickson. They were up for examination for entry before Immigration Inspector Barbour this morning. With a hold cargo of grain and 200,000 feet of lumber for San Francisco, the steamer Mackinaw, Captain Alven, has cleared at the custom house. At the custom house the steamer City of Eugene has been given a license to operate at all points on the Willamette river above Portland.

SHARES IN HUGE FIR TO LOAD

Witness in Steel Hearing Tells How "Big Interests" Got Control of Bridge Concern; Negotiations Not Secret.

(United Press Special Wire) New York, May 21.—That J. F. Morgan & Co., by sheer weight of prestige, was able to persuade holders of stock in the American Bridge company to exchange these holdings for steel stock, was testified today by Percival Roberts Jr., in the suit for the dissolution of the steel trust under the Sherman law, which is being conducted by the United States government here. Roberts swore that there were no confidences or secret negotiations when the steel trust got possession of the bridge company. He declared that Robert Bacon, recently ambassador to France, came to him and said that the steel and copper company intended to trade its stock for American Bridge stock and asked him to do so, and become a director of the steel corporation. To this proposition Roberts agreed, he declared.

JEWELERS OF STATE MEET NEXT TUESDAY

Issues important to the jewelers of the state will be considered at the annual meeting of the Oregon Retail Jewelers' association in Portland next Tuesday and Wednesday, May 28 and 29. All sessions will be held at the Multnomah hotel, and will conclude with a banquet Wednesday evening, when the delegates will be the guests of Portland retail and wholesale jewelers. Some of the subjects on which the jewelers will declare themselves are: To establish a code of business ethics. A gold and silver stamping law in each state. A national and state law against fraudulent advertising. A trade mark and equality stamp on all gold and silver wares. Criminal prosecution of diamond and jewelry smugglers. A reduction of express rates. Abolition of the retail jobber. Fixed ratio of profit on sterling silver and gold jewelry. Mutual information bureau in each city for protection against shoplifting. Elimination of price cutting, auction and fake sales. The Tuesday morning session will be given over to a reception to delegates and a meeting of the executive committee. The meeting will be called together Tuesday afternoon by President F. M. French of Albany. The address of welcome will be delivered by C. C. Chapman. The reports of the treasurer, E. J. Jaeger, and the secretary, C. H. Williams, will be read by addresses by S. Landstrom, E. J. Jaeger and C. H. Williams. Then will come the election of officers and the transaction of new and unfinished business. Wednesday morning there will be an automobile excursion about the city. In the afternoon there will be addresses by Joseph P. Jaeger, president of the Portland Jewelers' association; by Albert Feidenheimer, Colonel J. L. Shepherd of New York, Isaac E. Staples of Portland, and W. F. Dielschneider of McMinnville. Isaac E. Staples will be toastmaster at the banquet Wednesday evening, and the speakers will be Rev. J. D. Corby and Colonel J. L. Shepherd.

NO CASCARET USER EVER HAS HEADACHE

A 10 cent box will keep your liver, stomach and bowels clean, pure and fresh for months. Sick headache, biliousness, dizziness, cold, coughs, indigestion and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache. Salts, cathartic pills, oil and purgative water force a passageway for a day or two—yes—but they don't take the poisons out and have no effect upon the liver or stomach. Cascarets immediately cleanse and regulate the system, remove food, sour, undigested and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels. A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means instant cleanliness and a clear head for months. Ask any of the millions of Cascaret users if they ever had headache.

SAGE AND SULPHUR, OLD-TIME REMEDY; A SCALP TONIC AND COLOR RESTORER

Gives Color, Lustre to Faded and Gray Hair—Dandruff Quickly Removed. An ideal preparation of this sort is Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for scalp troubles and thin, weak hair that is losing its color or coming out. After using this remedy for a few days, you will notice the color gradually coming back, your scalp will feel better, the dandruff will soon be gone, and in less than a month's time there will be a wonderful difference in your hair. Don't neglect your hair if it is full of dandruff, losing its color or coming out. Get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, and see what a few days' treatment will do for you. All druggists sell it, under guarantee that the money will be refunded if the remedy is not strictly as represented. Agent, Owl Drug Co.

HE KNOWS ROCHESTER

Read what Governor Hay said about Rochester at the organization of the Commercial club of the city, the prospect of a densely populated farming country surrounding Rochester and the advantages of general lines of transportation established and operating through this point, there is every reason for enthusiasm at this time. You are starting your organization under most favorable auspices and by harmonious and persistent efforts, backed by the consciousness of actual advantages, you people of Rochester ought to succeed in building up a populous, thrifty and prosperous community.

THIS IS ROCHESTER

That everybody is talking about Rochester in Washington, right at the junction of the Northern Pacific and Milwaukee railroads; the fastest growing town on the coast; the town with a future; the town that is making good and will make money for every owner of lots.
