

DAD WILEY TELLS JUST HOW HE WILL REAR HIS JOHNNY

Food Expert Bars Pins, Long Dresses, Artificial Milk and Foul Air—and Already a Savings Account is His.

(Special to The Journal.)
Washington, May 21.—Washington has given Dr. Harvey W. Wiley, formerly chief chemist of the department of agriculture a new title. It is "Daddy."
"I wanted a girl," he said today, still bubbling over the addition to the Wiley household, "but Mrs. Wiley wanted a boy, and women always have their own way."
John Harvey Wiley will be reared under the direction of the greatest living authority on food hygiene. The diet upon which he will subsist and the care which will be taken of him may well serve therefore as a model for the most lucky children in the United States.
Dr. Wiley insists that the great infant mortality is directly due to ignorance as to the care that should be taken of them.

Infant Food at First.

"Our child," said Dr. Wiley with great pride, "is to be a pure food and fresh air baby literally. At first he will take natural food from his mother and it surpasses any baby food that ever has been or ever will be invented. A child should not be weaned until he is 15 or 18 months old and never until he has passed his second summer. Our baby will be weaned a year from the first of next September.
"Of course he will have some light food before that time, but only a little white of egg and gruel. After he begins to eat he will have cereals, fresh, good meats; soft boiled eggs, barley broth, starchy food in moderation and fruit juice.
"He will not be given fruit until after he is three years old and has all his teeth.

Open Air for Johnny.

"If we can obtain tuberculosis germ proof, perfectly clean cow's milk, he will be allowed to drink all he can.
"From the very first our baby will sleep in the open air. God intended all men to do. His little lungs will be filled with life giving ozone taken fresh from God's great out-of-doors, without being bottled in close rooms and unhealthy mansions.
"His clothes will be very few and very simple. I do not intend that our baby shall ever wear the trailing robes many miles long, that torture and retard the growth of infants.
"From the first he will be free to kick his little feet and roll and tumble all he wants to. All the clothes must hang from the shoulders, of course, and that cross of childhood, pins to stick him and lacerate his tender flesh, will be conspicuously absent.

Cold in Abundance.

"When he gets a little older we will put him in rompers and sandals so his growing feet will have a chance to retain their shape. He will be taught the virtues of cold water early in life. He is to drink lots of it, not ice-water, but water of the temperature of the blood. Milk also should be given to children at blood temperature.
"One of the earliest lessons a child should be taught is thrift, and instead of John Harvey Wiley being allowed to squander his pennies, he is to be taught to save them. I started him right today," said the doctor, as he displayed a savings bank book made out to John Harvey Wiley, with an initial deposit of \$10.
"In addition to the savings account, he has two shares in a building association. That is to lead him to acquiring a few acres of land and a home of his own in the future, for the happiest man imaginable is the man who knows that he owns the land that shelters his dear ones."

FOREST GROVE PIONEER WOMAN PASSES AWAY

(Special to The Journal.)
Forest Grove, Ore., May 21.—Mrs. Ambrose Porter, aged 77 years, died at her home in this city Saturday evening, after two days' illness with paralysis. Mrs. Porter, whose maiden name was Mary Jane Coverdale, was born in Canada, February 12, 1835. She was left an orphan at the age of six months, and was taken to Illinois by an aunt. She went to Wisconsin where, in 1853, she was married to A. W. Perry. Four children were born to the couple. Frank Perry, of Hoquiam, Wash., being the only one now living. Mr. Perry entered the Union army at the outbreak of the civil war, and was killed in battle in 1863. In 1866 Mrs. Perry was united in marriage to Ambrose Porter, also a veteran of the Civil war. Three children were born to them, Mrs. L. N. Wilcox, of Scoggins Valley; Miss Myrtle Porter, of Forest Grove, and Mrs. A. V. Young.
The Porter family came to Oregon about 25 years ago, and for a time conducted a sawmill in Scoggins Valley. They moved to Forest Grove in 1892. Funeral services were held at the Methodist church yesterday. Rev. Hiram Gould officiating, with interment in Forest View cemetery.

BRYAN FAVORS PLAN OF OREGON CITIZENS

(Special to The Journal.)
Pendleton, Ore., May 21.—William Jennings Bryan in a letter to E. B. Aldrich of this city, declares himself in favor of the plank which Judge Will R. King will submit to the Democratic national convention and Thomas McCusker to the Republican convention, for the purpose of providing for governmental appropriations for the payment of the campaign expenses of presidential candidates. He gives Theodore Roosevelt the credit for originating the idea, declaring it is one of the few original reforms of the ex-president's credit. The letter says:
"The suggestion made by Judge King was first advanced, as far as I know, in one of Roosevelt's messages. It is one of the few original reforms to his credit. I at once endorsed it in the Commoner and I think a law was passed in Colorado putting the idea into effect. I am in favor of it but it did not seem to take with our Democrats in congress. Possibly they had not had time to think it over. They may be for it now. The idea is alright and will, I think, some day be adopted."

A Cigar of Quality

Don't confuse the "Sam Sloan" cigar with "cheap and nasty" products sold for the same price—cents. No brass bands, no big inducements to dealers. Just a quality cigar which you will appreciate.

SHORT WEIGHT FRAUD IN SEATTLE HARD HIT

(Special to The Journal.)
Seattle, Wash., May 21.—Sixteen hundred short measure milk bottles have been confiscated, 4500 scales examined, 1500 scales condemned and sent back for reworking and 250 scales confiscated. This, in brief, is the record of the weights and measures division of the department of public utilities for the period beginning June 1 of last year and which had its climax in a raid on peddlers last Friday morning, when 14 were arrested for failure to comply with the provisions of the weights and measures ordinance fixing from April 1 to May 15 as the annual period when scales used by peddlers must be inspected and sealed.
As early as last June it was found that package butter was being sold generally that "lacked one ounce in a pound package. Warning was given that a second offense on the part of any dealer or peddler would mean arrest, with the result today that Inspector Binschert is willing to stake his reputation that every package of butter sold over the counters in Seattle contains 16 ounces. The theft of one ounce in each package of butter in Seattle would mean an annual loss to the consumers of \$12,500.
Fifty-two deputy weighmasters have been appointed at as many coal yards, each under bond, and each required to furnish a city department slip with each delivery, showing the gross and net weights of each load delivered, with the date of the yard from which it is delivered and the position of the scale on which it is weighed.

OREGONIAN SENSATIONAL WITNESS IN MEAT QUIZ

(Special to The Journal.)
Washington, May 21.—J. F. Harma, of Fremont, Ore., a former meat inspector, testified yesterday before the house committee which is investigating federal meat inspection. He described "unspeakably revolting conditions" in the St. Louis packing houses. "I saw 1000 pounds of lard," he said, "spilled on the floor, some of it entering a sewer. Afterward it was removed and passed over my protest. This is the case in which Dr. Melvin, chief of the bureau of animal industry, and Solicitor McCabe, in their bulletins, say I am a liar. I say they are liars."

TWO POWERS SEEK PLAN TO 'MAKE UP'

Conference to Promote Better Understanding Between Germans and Britons.

(Special to The Journal.)
London, May 21.—A general conference for the purpose of promoting a better understanding between England and Germany is to be held here early in July. It is being organized by a special committee representing the national peace council, the British-German Friendship society and the council of British churches.
"A number of influential Germans are coming over to take part in the conference," said Dr. W. Evans Darby, a member of the committee, today, "and we hope, through the presentation of their views, materially to influence public opinion. Our one aim is to do all we can to remove the cloud of misunderstanding which in the past admittedly has led us to the verge of war."

WORKMAN AT NEWPORT LOSES ARM IN BLOCK

(Special to The Journal.)
Newport, Ore., May 21.—C. M. Jamison of Corvallis, aged 38, met with a serious accident yesterday which will result in the amputation of his right arm between the wrist and elbow. His hand caught in the line used to hoist wheelbarrows at a concrete mixer and was crushed to a pulp in a block before the engine could be stopped. A special train carried the injured man to Corvallis. The mixer, the first to be operated here, was running for the first time, being used in the construction of two concrete buildings.

Bill Limits Terms of Judges.

(United Press Landed Wire.)
Washington, May 21.—Senator Crawford, of North Dakota, introduced in the senate a resolution for a constitutional amendment limiting the terms of all United States judges except those of the justices of the United States supreme court, to ten years.

FRENCH REPUBLIC WILL FETE 1ST QUEEN GUEST

(United Press Landed Wire.)
Paris, May 21.—For the first time since Queen Victoria was received in state under the empire, a queen is to be officially received in France, when Queen Wilhelmina, Holland's ruler, arrives in Paris, June 1, for a three days' stay. She is the first queen to be the state guest of the third republic.
Queen Wilhelmina will stop at the foreign office, the state apartments now being in process of redecoration to receive her. Her consort will accompany her. Her large retinue will be lodged also at the foreign office. State dinners, receptions, military reviews, gala performances at the opera, etc., are planned for her entertainment.

Timely Hints on Hair and Complexion

The trying months of summer will touch lightly the hair that is shampooed with canthox, a teaspoonful of which dissolved in a cup of hot water is ample for a thorough cleansing. After a canthox shampoo the hair takes on a silky softness and beautiful luster and the roots are so strengthened that the sun will not have the blighting effect so noticeable with hair improperly cared for.
Wind and sun will not freckle or tan the skin, protected with a simple spumax lotion. This is prepared by dissolving a ounce of spumax in 1/2 pint witch hazel (or hot water), then adding 2 teaspoonfuls glycerine. The spumax lotion is inviolable when on, is not affected by wind or perspiration, and its daily use rapidly dispels the sallow, oily condition imparted to any complexion a rose-tint and charming softness.

LADIES CAN WEAR SHOES

One size smaller after using Allen's Foot-Ease, the antiseptic powder for the feet. It makes tight or new shoes feel easy; gives instant relief to corns and bunions, Blisters, Callous and Sore Spots.
