

INTERVENTION OF U. S. NECESSARY IN MEXICO AT ONCE

Refugees Tell Tales of Terrible Conditions; Famine and Anarchy Stalk Hand in Hand.

(By the International News Service.)
San Francisco, June 3.—That immediate intervention of the United States army in Mexico and the establishment of a protectorate over that republic is absolutely necessary before any means of safety can be found for the thousands of refugees from Mexico who arrived at this port on the United States transport Buford today.

It is further declared that Mexico is in a condition of terrible anarchy, that poor Mexicans and foreigners are being murdered and robbed every day by wandering bands of lawless men, that the land has not been cultivated for two years and famine is near to many districts, and finally that the better class of Mexican citizens think that intervention is desirable. The Mexican government is powerless except where it gains reach and they do not reach for New bands of plundering ex-convicts and robbers are forming every day.

Refugees Tell of Disaster.

The idea of the situation was backed up by startling stories told by the refugees, many of whom had lands and wealth a few months ago and now are forced to depend on charity. Their homes have been burned and their lives threatened.

Of the 575 refugees taken from the west coast of Mexico by the Buford, 142 were landed in San Francisco. Of these 23 men, nine women and seven children were in need of assistance and were cared for by charitable organizations. They are not persons accustomed to receive charity. The natives sneer at the United States government, it is declared, thinking that it will not back up its citizens and that they can be robbed and insulted with impunity.

May Convince Government.

A confidential report of the situation in Mexico, as revealed by the trip of the Buford, will be made to Washington by Captain Frank B. Kly, who was in charge of the expedition. Several officers on the ship admitted privately that this report might serve to convince the government that strong action will have to be taken soon or else every vestige of respect in which this government has been held in Mexico will disappear. It is even said that the laxity of the administration in dealing with the situation has been responsible for many of the outrages.

The refugees declare they are only a fraction of the number that will have to leave Mexico, and their opinion every day of delay may mean the sacrifice of the life and property of American citizens.

ALL FOREIGNERS NOW OUT OF CHIHUAHUA; REFUGEES AT JUAREZ

(United Press Special Wire.)
El Paso, Texas, June 3.—Crowded with foreigners and the second refugee train from the Chihuahua district reached Juarez tonight. Few foreigners remain in Chihuahua and it is feared no foreign women and children are now there. Tomorrow the refugees at Juarez expect the battle of Bachimula to start.

General Huerta has moved his federal army tonight close to the new rebel stronghold and General Orozco has made extensive preparations to defend it. It is admitted by rebel leaders that this will be the deciding battle of the rebellion. If Orozco's forces are driven from the mountain passes at Bachimula into Chihuahua, the bombardment of the capital city of the state is believed to be inevitable. In that event it would then be impossible to restrain the frantic Mexicans and undoubtedly already is threatened an widespread looting and slaughter will start the moment the rebels see that hope of victory is gone, it is feared.

Yaloria, Escobedo, the rebel whose forces were driven from Sonora two weeks ago, today reentered that state at the head of 200 rebels, going in at Casa Grande. A federal force of 2500 under Vice Governor Gayou, has been mobilized at Agua Prieta and will move to the Casas Grandes district.

Advices from Mexico City tonight say news that Lerdo, a suburb of Torreon, has been taken by the rebels, under Campa, has been recovered and that the city of Torreon is menaced. The rebels are also reported to have cut Huerta's communication with his base of supplies at Escalon.

CASE IS DISMISSED; DETECTIVE SCORED

At the conclusion of the hearing of the vagrancy charges against Beulan and Meyle Harbin, Frank Coelco and Neil White in the municipal court yesterday afternoon, Judge Tazewell dismissed the case, thereby administering a rebuke to the recently appointed sergeant, Tom Kay, who caused the arrest of the four defendants. Judge Tazewell also rebuked James E. Williams, a well-known detective, who acted as a "steal pigeon" in this case, when he stated that Williams had failed to identify any of the defendants in connection with any misdemeanor.

THAW'S FIGHT FOR LIBERTY TO BE RESUMED IN COURT MONDAY

Question of Mental Condition to Be Determined in Habeas Corpus Proceedings—Former District Attorney Jerome to Handle Case for Thaw.

Harry K. Thaw, who is making another determined effort to be released from Matteawan.

(By the International News Service.)
New York, June 3.—The habeas corpus proceedings looking toward the release of Harry K. Thaw from the insane asylum at Matteawan, where he was committed in 1906 after being adjudged insane at his second trial for the murder of Stanford White, will be heard before Justice Knapp of the New York supreme court on June 5. Both William T. Jerome, who has been retained by the state to fight Thaw's action, and Clarence J. Shearn, the young Pittsburger counsel, expressed confidence today as to the outcome of the case. Great interest has been aroused in the present proceedings because of the fact that Thaw's wife, the former Evelyn Nesbit, is reported to have borne a child, and because a heretofore unknown letter is said to have been found in which Thaw threatened to kill others besides the New York architect. Both of these reports have been denied, but it is believed that they will be thrust into court and that much interesting testimony will come to light.

Long Hearing Predicted.

In addition to these interesting factors, the present proceedings will be an occasion for the most determined attempt to gain freedom for Thaw yet

made by his family. It is said that the Thaws will spare no expense in the hire of attorneys to show that the young man is now sane and competent, and it is predicted that the hearing will drag along for weeks.

The retention of former District Attorney Jerome for the state is taken to mean that every obstacle possible will be put in the way of Thaw's release. It was Jerome who handled the prosecution of Thaw for the commonwealth in his two trials in 1906, and the former district attorney, besides being conversant with every part of the Thaw case, is known to be strongly of the opinion that Thaw is insane and should, therefore, be kept in Matteawan.

Clarence J. Shearn, counsel for Thaw, has announced his intention of introducing many alibis to prove that the eccentric millionaire is completely cured of his mental malady and should now be released.

There appears to be little likelihood that the 28 volumes of testimony taken at Thaw's two trials for murder will be requisitioned for recapitulation at the present hearing. Both Mr. Jerome and Mr. Shearn have expressed themselves as opposed to again airing the famous case in court.

The state bank examiner will be in Vancouver this afternoon or early Monday morning to prepare for the bank's opening.

DARROW'S FORMER ASSOCIATES TO BE STATE'S WITNESSES

Harriman and Davis Must Testify for State; Value of Their Testimony Not Certain.

(By the International News Service.)
Los Angeles, June 3.—Job Harriman and LeCompt Davis, former associates of Clarence Darrow, to the McNamara

murder, are to be witnesses for the state in the Darrow trial. Both these men have been subpoenaed and will be examined by the prosecution to take the witness stand. Whether in the end their testimony will be advantageous to the state's case or not remains to be seen. The prosecutors, however, have reason to believe it will be.

Harriman cannot refuse to testify on the ground that he was Franklin's attorney or Darrow's. Particular interest was attached to his answers to questions concerning his implied connection with the money used in the purchase of the Los Angeles office. Best Franklin testified that on November 21, Darrow said he had not obtained the money that Darrow telephoned and asked for "John" that presently Harriman came in that he and Darrow went into an adjoining office and to a few minutes they returned and Darrow gave him the \$1000 roll of currency.

Davis will be asked about his attempt, according to the testimony of Franklin, to arrange for a compromise

of the case against Franklin which involved the protection of Darrow.

The sheriff's office has not yet been able to serve the bench warrant issued by the court for Harry Hamilton, who passed as a witness for the state. Hamilton knew J. B. McNamara and Mrs. Ingeroll of San Francisco. It is claimed he had evidence of attempts of McNamara to bribe witnesses, including letters written by Mrs. Ingeroll.

Court who adjourned this morning out of respect to the memory of former Judge McNutt. The adjournment was to 10:30 a. m. Monday, when the cross-examination of Best Franklin will be continued by Earl Rogers.

Judge Nathan, Assistant District Attorney Ford and Rogers, paid tribute to the memory of Judge McNutt in court this morning.

Rich Man Held on Loper.
Crestville, Iowa, June 3.—Herman Hitchcock, of Bay City, Mich., had here an \$18,000 loper by order of the Michigan state board of health tonight said he would spend \$100,000 in

efforts to prevent authorities sending him to a leper colony.

Mrs. Hitchcock, who has been hospitalized, has been told that she would accompany him if he is forced to join such a colony. Hitchcock will remain here until the Iowa and Michigan health officials have decided as to his commitment to a leper colony.

CHURCH STARTED IN 1875 JUST FINISHED

(By the International News Service.)
Paris, June 3.—It seems incredible, but it is nevertheless a fact, that the finishing touch has only now been put to the church of the Sacred Heart at Montmartre. The colossal edifice towers over Paris, and is visible for many a mile to the north of the capital. The foundation stone was laid with great ceremony on June 12, 1875, and the last stone has just been put in its place. The nave is the gift of the people of Paris—rang out a few days ago for the first time in the campaign.

\$15.98 Buys a Good Refrigerator

The old style way of doing business was to get the very cheapest, poorest refrigerators possible and advertise them in large type at, say \$7.98. Many people would come expecting to get something they could use, and nearly all would go away disappointed.

Our plan is to advertise medium goods, such as the average family of moderate means can afford. Therefore we say that our refrigerator at \$15.98 is a very good one for the money, and we would like to have you look at it before you buy. If you see one advertised some place for eight or nine dollars don't get the idea that it is the same as ours. We have cheap ones, too.
