

RESERVOIR SITE WILL BE BOUGHT

Hood River Prepares to Supply Water to Heights Section of Apple City.

(Special to The Journal.) Hood River, June 21.—The commission of the mayor, the city council has ordered the purchase of a reservoir site on the heights for use when the new municipal water system is piped into the city. It was voted to issue \$25,000 worth of bonds to take up outstanding warrants to this amount. At a special meeting of the city council it was ordered that a special election be held July 1 for the purpose of deciding whether the city shall sell \$25,000 worth of municipal bonds for an additional water system.

Fountain at Hood River.
(Special to The Journal.) Hood River, June 21.—Hood River will install a public fountain in the square at First and Oak streets. The fountain will be of sufficient size to accommodate teams. A large cluster of electric lights will be placed on top of the fountain.

Additional Train Service.
(Special to The Journal.) Hood River, June 21.—An extra train has been placed on the run between Hood River and Parkdale on the line of the Mount Hood railroad. The train leaves Hood River at 1:30 and returns in the evening. This train is handling large shipments of strawberries and is a great convenience to the traveling public.

Bids Too High.
(Special to The Journal.) Hood River, June 21.—The National Apple company has rejected all bids for the construction of a large apple house on the ground that they were too high. The company will erect the building under the supervision of a committee.

Soil Survey Finished.
(Special to The Journal.) Hood River, June 21.—A. T. Struborn, who has been making a soil survey of the upper and lower valleys, has completed his work and has gone to the White Salmon valley where he will make a survey. It has been found that there are seven distinct soils in the Hood River valley varying considerably in proportionate chemical and physical elements.

Work Begins on Church.
(Special to The Journal.) Hood River, June 21.—Lumber is being hauled for the erection of the new Methodist Episcopal church that will be built on the site of the old structure. The side walls of the new building will be of concrete with brick finish. When completed the new edifice will cost approximately \$15,000.

Crowds attend Oaks rink these days.

HAMMOND GRANTS ELECTRIC FRANCHISE

(Special to The Journal.) Portland, June 21.—The city council of Hammond, Ore., has granted a street railway franchise to George A. Robinson, said to represent the Harriman interests. The franchise asks for a right of way up Ford and First streets, parallel to the distance of one block. The present steam road, part of the property of the Northern Pacific railway. The grant asks for permission to operate one or more lines for 35 years, the period of locomotion to be any existing steam. It seems this franchise is necessitated by the fact that the citizens of Hammond in granting rights to the present road operating in Hammond permitted the said corporation to insert a clause whereby no other steam railway would be permitted to compete. Four cars a day at least are to be in operation upon a completed roadway (made of one year, in event of failure to comply with this clause comes for future of franchise and a stipulated sum in cash. Provision by which dockage is obtained and a right of way to deep water granted, said rights to depend, however, upon certain concessions to be obtained from Mr. Hanson, the present owner of the cannery, which has obtained a lease on the only dockage controlled by the city of Hammond.

PATIENT'S LIFE SAVED BY NEW OPERATION
Overcome by a sudden attack of appendicitis while automobiling Sunday morning, C. K. Spaulding, president of the Spaulding Lumber company, was rushed to the Good Samaritan hospital where Dr. H. F. Ong was compelled to operate on Sunday afternoon to save the lumberman's life. The appendix was filled with pus, and was on the point of bursting when removed. The new appendicitis operation, a delicate bit of surgery known as the "gridiron incision," was employed. The gridiron operation allows a very small incision, and makes a rupture at the scar impossible, owing to the fact that only the skin and fat are cut and alternate layers of muscles are split in opposite directions. Mr. Spaulding will be able to leave the hospital either tomorrow or next day. His rapid recovery is said to be due to the employment of the new operation.

Two Novel Accidents Happen.
(Special to The Journal.) Forest Grove, Ore., June 21.—While painting the roof of a house yesterday Will Morley fell and fractured one of his arms, both bones being broken between the elbow and wrist. He was sitting on a painting jack, which came loose from the roof. He was otherwise badly bruised. While splitting wood at his farmhouse near Thatcher, Tuesday, Allen Hayden, a prominent farmer of that section, cut a severe gash in his forehead, which laid the flesh open to the skull. Hayden was using a double bladed ax, which struck a clothes line above his head and rebounded, causing the wound.

WOMAN'S TEARS FAIL TO INFLUENCE JUDGE

When Mrs. A. Johnson, of Seattle, mother of Mrs. Avery J. Gray, was arraigned in police court yesterday morning on a charge of assault with intent to kill, as a result of her murderous attack on Gray in the courtroom last Monday, the woman fell on her knees before Judge Taswell, clasped her hands as if in prayer, and cried "Oh, Judge, please let me go, let me go to my dying daughter in Seattle. I can't stand to be locked up."

COMMENCEMENT HELD BY TRADES SCHOOL

The second annual commencement of the Trades School was held Wednesday night in the auditorium of the Lincoln high school. Professor G. A. Covell, dean of the school of engineering and mechanic arts, Oregon Agricultural College, was the speaker of the evening. Professor Covell talked upon the elements of "Success in the Industrial Field."

SLATTERY BUYS MUCH PITTSBURG PROPERTY

Word comes from Pittsburg that W. C. Slattery, president of the Consolidated timber company of this city, has exchanged 4200 acres of timber land located in Lane county for improved Pittsburg property. Mr. Slattery has been in Pittsburg for some time closing up the deal. The Lane county timber lands cruise 225,000,000 feet and valued at \$225,000, and the Pittsburg property is valued at \$250,000. The Portland offices of the Consolidated Timber company has not been advised of the closing of the deal.

FRANCHISE FIGHT IS LOOMING UP

New Light and Power Company to Meet Opposition in Field.

Adding to the interesting situation in the city council now on account of the big fight for franchises on the part of the Hartman and Hill railroads, and the efforts of the Portland Railway, Light & Power Co. to procure a blanket franchise, which is termed by the railway officials only a "stub end" grant, is the battle forecasted by the application of the Northwestern Electric company for a franchise to engage in the

light, power and heat business for a period of 15 years. The new company, though backed by \$50,000,000, will have a fight on its hands, according to report, before it can gain a footing to do business in the local field. Strong pressure is being brought to prevent the possibility of a competing company entering Portland. The Northwestern's franchise, however, has already progressed to such a point that it can be granted within the next few months if the same rate of progress is maintained. The street committee of the council, over the opposition of but one councilman, ordered the franchise sent to the executive board for valuation last Tuesday. The company has yielded to every amendment suggested by the city attorney, and President Herbert Pleschbacher of the San Francisco-Anglo-London-Paris bank, who is at the head of the Northwestern,

now he is acting in good faith, and that his company will provide real competition if given a chance to operate here. He invites attention to the record of similar companies started by him in California for the past 20 years.

Steel Suit Postponed.
(Special to The Journal.) New York, June 21.—The taking of testimony in the government's suit to dissolve the United States Steel corporation today was adjourned for the summer. The hearing probably will be resumed in September in St. Paul.

Adna and Doty Build Schools.
(Special to The Journal.) Chehalis, Wash., June 21.—Adna school directors will at once erect a \$10,000 school house. At Doty a \$12,000 one will be built.

NEW YORK'S POSITION ON DUPLICATING PLANTS

Wisconsin is not the only state to put a stop to duplication of investment in public utilities, through the action of its State Board in control of such matters.

In the application of the Niagara Falls Lighting Company for a franchise before the Public Service Commission of New York (Second District), the opinion rendered reads as follows:

"The policy of the commission in cases where one lighting company seeks to enter a field already occupied by another required that the applicant shall show that the company already serving the community is not doing so adequately and efficiently, and that its failures are such that they cannot well be corrected by the exercise of the regulative power of the commission. Good service may now be obtained at reasonable prices in less expensive ways than by an unnecessary duplication of plants, and the public interest does not demand that capital invested in good faith in the public service should be destroyed or impaired without good reasons to be shown affirmatively."

Duplication of investment in public utility corporations is a method which is being discarded all over the country. Why not discard it in Oregon?

Portland Railway, Light & Power Co.

Absolutely No Pain

NEW LOCAL ANAESTHETIC USED BY US THAT INSURES PAINLESS EXTRACTION OF TEETH.

This is a positive, undeniable truth. We have been using this great local anaesthetic during the past month, giving it a thorough test and in every case it fulfilled our most sanguine expectations. With its use you need have no fear of pain, sickness or any after effects.
