"I spent the best years of my life to invent the FREE because I knew that when the women of your city and every other city would learn the truth about it, when they would learn that I have made it different from every other Sewing Machine—that I have made it the simplest, easiest to operate and lightest running of all Sewing Machines, that I have given it some fifteen exclusive improvements, and that I have insured it—when the women of your city learn that, they will never be satisfied with any Sewing Machine but the "FREE."
