

THIRD PARTY MAY FIGHT ILLINOIS

Governor Deneen Likely to Desert From Roosevelt Camp.

(United Press Leased Wire.) Chicago, July 11.—Governor Charles S. Deneen of Illinois in Chicago today in conference with his lieutenants, is expected to announce his final decision to defy the "bull moose" party and refuse adherence to Roosevelt. That this action will be promptly met by the third party plaiding complete state and congressional tickets in the field in Illinois this fall is practically certain.

80-YEAR-OLD WOMAN CHARGED WITH FRAUD

One of the most clever bunco artists ever encountered by the police—a woman 80 years old, who gives the name of Mrs. Anna Wood—was arrested this morning in the apartments of Miss Amanda Steverkrupp, a trained nurse, at the Beryl apartments, 635 Lovejoy street, after the woman had victimized Dr. William M. Campbell out of \$20 and Rev. J. H. Black of 54 East Eleventh street, out of \$160.

The woman, who until one week ago had been stopping at the Imperial hotel, declared that she was the owner of an estate in the east valued at \$175,000 and that she had \$20,000 in the bank at Santa Rosa, Cal., and displayed deeds to the estate and a pass book on the bank to prove her claims, but these have been found to be fictitious.

Two weeks ago the woman registered at the Imperial and last Sunday called Dr. Campbell, claiming that she was ill. After two days' treatment she told the physician that she was temporarily embarrassed and asked for \$500 and displayed the deeds and pass book, but the physician refused to comply with her request, although he did give the nurse a check for \$20 for her services and for her hotel bill. The check given to the nurse was taken from Miss Steverkrupp's hand by the woman, cashed by Mrs. Wood and the money kept.

When the nurse left the hotel, Mrs. Wood followed her to her apartments and stayed there for a week, making it necessary for the nurse to provide her with a place to sleep and with food. Last night Rev. Black, on whom the woman had borrowed \$160 after asking for \$500, was called upon by Dr. Campbell and both then reported the affair to the police after hearing from Santa Rosa that there was no check account there. This morning Detectives Coleman and Snow called at the apartments and arrested the woman, as she was about to leave in a taxi to view the parade. In her possession were receipts from San Francisco, Seattle and Philadelphia, which indicate that she has been living high. Big taxicab bill receipts and other similar papers were among her possessions. She lived at the Hotel Herald. She is to be held without bail for investigation.

AMERICANS TAKE SHOTPUT WITH BOTH HANDS AND NOW HAVE 82 TO SWEDEN'S 56.

(United Press Leased Wire.) Stockholm, July 11.—The first heat of the semi-finals of the 110 meter hurdles was won by Powell of England in 15-3-5 seconds.

John P. Nicholson of the University of Missouri won his heat in the semi-final 110 meter hurdles in 15-2-5 seconds, and John R. Case of the University of Illinois won his heat in 15-3-10. Hartin W. Hawkins of the Multnomah A. A. club of Portland, Or., won his heat easily in 15-7-10.

James Wendell of the New York A. C. was not extended to win his heat in the semi-finals of the 110 meter hurdles. His time was 15-7-10 seconds. Fred W. Kelley of Seattle also won his heat, his time being 15-3-10 seconds.

(United Press Leased Wire.) Stockholm, July 11.—America swept the boards in the pole vault. First honors went to H. S. Babcock of Columbia university, with a total height of 12 feet 11 3/8 inches, a new Olympic record. The old mark was made by W. R. Dray of Danbury, Conn., and was 12 feet 9 3/8 inches.

F. T. Nelson of Yale and Marc S. Wright of Dartmouth tied for second place. When the finals in the pole vault were called, there were eight Americans and one Swedish athlete, one German and one Canadian eligible. Halfpenny, the Canadian entrant, hurt himself internally while clearing the bar at the 12 foot 6 inch mark, and was obliged to quit. F. J. Coyia, University of Chicago, broke his pole at the 12 1/2 mark and came a cropper, which jarred him so much that he could not continue. H. F. Hitz of Cornell, G. B. Dukes, New York A. C., and Passman, the German, failed to clear the bar at 12 feet 5 inches and were ruled out.

While the pole vault was being completed the gymnastic finals were finished, Italy winning first, Hungary second and England third.

(United Press Leased Wire.) Stockholm, July 11.—It was a stolid company of athletes that entered the stadium from the steamer Finland today. The cocksureness which had marked the Americans since their arrival was missing and had been replaced by a determination that was certain to result in future contests. The loss of the 1500 and 5000 meter races the first of which at least already had been chalked up to the Americans, was a bitter disappointment, and the trainers did not omit language from their criticism.

No attempt was made to rob Jackson the Englishman, of the honor due him for his victory, but it was pointed out that if the Americans had used judgment in making the pace in the earlier stages of the race, either Jones or Kiviat must have won.

Chisholm Earns His Keep. As a result of the bitter criticism, better work was shown by the Americans right from the jump. In the 110 meter hurdles preliminary, every American entered won his heat, and George A. Chisholm, of the University of Illinois, was not thought good enough to be sent as a member of the team, but was carried on the supplemental list, and whose expenses are being defrayed by private funds. Finished within three-tenths of a second of the Olympic record for the distance. His time was 15-2-3. The best of the day. The other Americans to win their heats were John Eller Jr., of the Irish-American A. C.; Martin W. Hawkins, Multnomah A. A.; Portland, Or.; Vaughn S. Blanchard, Boston A. C.; Edwin M. Pritchard, A. A. C.; John P. Nicholson, University of Missouri; Fred W. Kelley, Seattle A. C.; John R. Case, University of Illinois, and J. I. Wendell, Wesleyan university.

Olympiad Won't Make Money. The weather today was much cooler than at any previous time, and this change proved beneficial to the athletes. It was admitted by the management that the Olympiad will be far from a financial success. The foreign attendance had been expected had failed to materialize in the great stadium has never been more than half filled since the opening day.

The 10,000 meter walk was as expected, comparatively easy for the great field of the entire field off the feet. From the start he set out to win and hang up a new world's record. The result was never in doubt. We won in 46:32-5, which was four seconds below the best previous Olympic time for the distance.

Falls Prostrate in Death Gap. Kaiser, the only American who qualified for the final, essayed to keep Goulding's pace, with the result that he fell prostrate on the track in the tenth lap. There were ten starters, but at the finish only four men were still in the walking. Webb, England, finished second; Altmanne, Italy, third, and Hansmussen, Denmark, fourth. The walk was one of the best events of the meet to date and stirred the small crowd to wild enthusiasm.

Rebel soldiers are guarding the border for two miles above and below Juarez. FRANKLIN'S STORY TO BE DISCREDITED

Darrow Witness Would Show That Bribery Money Was Not Passed.

Los Angeles, Cal., July 11.—That Clarence Darrow was not in the company of Bert H. Franklin when the latter swore he was provided with bribery funds is the testimony of F. E. Wolfe, which the defense in the Darrow trial is planning today to utilize in its attack upon the testimony of Franklin. Wolfe, who is a writer for a Socialist paper, was called to the witness stand at the conclusion of the examination of Job Harriman, late yesterday. Questions he was asked referred directly to the basis of the testimony of Franklin, who had sworn that Darrow delivered to him money for jury bribing on the morning of November 23, 1911.

Wolfe testified that on the morning in question he rode to a down town point with Darrow and accompanied him to their offices, where Darrow remained until he received a telephone call, after which he announced that he had been requested to visit the headquarters of Job Harriman, then Socialist candidate for mayor of Los Angeles. Franklin, Wolfe testified, did not appear at Darrow's office.

It is believed that Darrow will attempt to prove that he was walking toward Harriman's headquarters when he was met on the street by Franklin, who beckoned to him. Franklin already has testified that as Darrow approached him on that morning the detective was arrested by Detective Samuel Browne of the district attorney's office. Wolfe, it was expected, will continue on the stand today.

VICTIM OF SHOOTING SHOWS IMPROVEMENT

The condition of Herman P. Emery, the stage manager of the Pantages theatre, who was shot by O. W. Pence, who is believed to be demoted, while near the door of the theatre Tuesday night, is much improved today. He is at the St. Vincent's hospital. Although the bullet pierced the diaphragm and the right lung and lodged near the spine, it is said that he has a good chance for recovery.

One incident of the shooting which was brought out yesterday was that after Emery had been shot by Pence and while still helpless on the floor, he scrawled a short note or will on the back of his photograph. In the will he gave all of his property to his wife and charged his stepson, Peris, 17 years old, to care for her. The will was written when Emery thought he was mortally wounded. The will follows: "Portland, July 9.—I leave all my property to my wife, Jola A. Emery, and charge my son Peris to take good care of his mother from my insurance left by me. In fear.

"HERMAN P. EMERY." One dozen letters from Pence were received at the theatre yesterday, all addressed to Miss Lowe. According to later developments she was not the girl with whom Pence was infatuated. Miss Emery was the object of his infatuation, according to Pence's description. In his delusion he had confused the names, it is believed. The letters contain all sorts of strange requests and orders.

Leaders of the Apostolic faith deny the report that Pence, who also used the name of Pinch, belonged to their mission. Over a dozen letters from Pence were received at the theatre yesterday, all addressed to Miss Lowe. According to later developments she was not the girl with whom Pence was infatuated. poor and the British sharpshooters assert that none of them will show in the first 10 hours. However, none of these same experts gave Johnny Hayes a chance in the London marathon, which he won, so the Americans are not worrying. According to the experts, Corkery of Canada and Wide of Sweden seem to have the best chance to win.

ALIENISTS CANNOT AGREE ON THAW'S MENTAL CONDITION

Experts Maintain That Murderer of Stanford White is Dangerous; Others That He Should Be Free.

(United Press Leased Wire.) White Plains, N. Y., July 11.—Whether Harry K. Thaw is to continue a prisoner in Mattawan insane asylum or is to go free probably will be decided within two weeks. Justice Martin J. Keogh, before whom Thaw, through his attorney, Clarence J. Shearn, has been trying to demonstrate for nearly a month that he is sane, and illegally deprived of his liberty has before him the opinions of six alienists, the best of their class in the country.

Three agree that Thaw is sane and should be free, while three insist equally as strenuously that if he is turned loose he probably will commit another murder. John W. Russell, head of the Mattawan asylum and a friend of Thaw, told the court that he feared if Thaw was released and returned to his former habits, especially to drinking in excess, he might commit another murder. This statement is expected to have great weight with the court in arriving at a decision.

Dr. Charles K. Mills, professor of neurology at the University of Pennsylvania, was the chief witness today. He reiterated his statement of yesterday that Thaw could be safely given his freedom. Other witnesses today were attaches of the Tombs prison in New York, where Thaw was confined; private detectives who conferred with him in prison, and court attendants, all of whom swore that they had never noticed anything irrational in Thaw's actions.

PRISONER DIVES INTO SOUND; IS RECAPTURED

(United Press Leased Wire.) Tacoma, Wash., July 11.—Frank Calvin, under sentence here of from five to ten years for the attempted murder of Vivian Irving, a nurse, dived from the steamer Victoria at the Seattle dock in an effort to escape E. E. Ferrer, one of his bondsmen, and Deputy Sheriff Frank Longmire, who were returning him to Tacoma that he might be sent to the penitentiary. Calvin refused to accept a lifeboat thrown on the dock and did not stop until fired upon by Ferrer. He was picked up in a lifeboat and is now in the county jail.

COMMON TONED REFERENCE TO TAFT

Bryan's Stenographer Tells How Form of Resolution Was Changed.

(United Press Leased Wire.) Holyoke, Mont., July 11.—That William J. Bryan, at the last moment, eliminated from his famous Ryan-Belmont-Morgan resolution at Baltimore a denunciation of President Taft was the statement made here today by the stenographer private secretary to the Nebraskaan. Consideration for the feelings of Mrs. Taft caused Bryan to take this action, Rose said.

"As dictated to me originally by Mr. Bryan, the resolution contained a caustic reference to the Chicago convention's steam roller and denounced Taft as the beneficiary of such methods and as the recipient of favors from the 'interests.' When he entered the hall that night with the report Bryan was advised of the presence of Mrs. Taft in the hall. Dicking to do anything offensive to the first lady of the land, Bryan cut all reference to the president when he presented the resolution. He afterward told me he eliminated this part of his resolution because Mrs. Taft occupied a box and he did not desire to do anything that might tend to humiliate her."

COMMON PEOPLE AID DEMOCRACY

Voluntary Campaign Contributions Encourage Party Leaders.

(United Press Leased Wire.) Seattle, Wash., July 11.—That plenty of cash will be available to run the Democratic campaign and that there will be no need of accepting campaign contributions from "interested parties or persons" was the declaration of Governor Woodrow Wilson today. The Democratic candidate said that he was greatly pleased on opening his mail today to find many letters containing \$1 bills from working men and women who wished him success and contributed their "mite" for the cause.

To date the governor has received about \$2500. The largest contribution was \$500, while there have been some of \$100, others of \$50 and numerous \$10's, \$5's, \$2's and \$1's.

BEST OBTAINABLE LAWYER WANTED IN TIDELAND CASE

Lincoln County Citizens Sign Petition for Special Man When Famous Suit Goes to U. S. Supreme Court.

(Special To The Journal.) Newport, Or., July 11.—Petitions are being circulated in Lincoln county which will be sent to the state land board asking that special counsel be employed to represent the state in the appeal to regain title to the tidelands in this county, recently left vested with the Southern Pacific by a decision of the state supreme court.

They are being circulated as rapidly as possible and if they are received in other parts of the county as they have been in the vicinity of Newport and Toledo, should be ready for filing at an early date and will be of considerable length. The petition follows: "To the State Land Board: We, the undersigned citizens of Lincoln county, realize the great importance of leaving the water frontage of Alsea, Siletz and aquina bays free to the public for improvement and the use of navigation and commerce; and while we have no desire to reflect on the ability of the attorney general of this state, we know that the railroad company will employ the best legal talent available in its behalf and we feel that the people should be equally well equipped to present this case in the supreme court."

"Therefore, we respectfully ask that your honorable board employ the best legal counsel possible to assist the attorney general in the prosecution of the suit to regain title to the tide and overflow land in Lincoln county."

Wheelon Horn, of the Wheelon apartments. The funeral is to be held either Saturday or Sunday and more complete arrangements are to be announced.

ELKS VISIT KLICKITAT "DEER LICK" AND LIKE IT

Klickitat, Wash., July 11.—A bunch of about half a dozen Elks of the modern kind were seen yesterday two miles above this point. Part of the bunch seemed to be spending much time about an old "deer lick," where there are mineral waters in profusion, while a part of the bunch had evidently heard of Klickitat as a trout stream by the strenuous manner in which they cast flies and baited hooks. The poorest amateur of the bunch was rewarded with a catch of a W. Brown, an Iowa banker and a well-known Democrat, was highly pleased with his visit to the Klickitat trout country. The strangers were "herded" today by their brother Elks, and returned to the Portland herd last evening.
