

SAMMY SPANEM—HE MAKES TROUBLE IN A FACTORY

(Copyright, 1912, by W. W. Warren)

Short Stories Tell Delayed News

Resume of the Events of Friday Afternoon and Night; Paragraphed for Quick Digestion by Journal Readers.

**Congressional.**  
Opposition has developed in the senate to the confirmation of Clarence R. Edwards as brigadier general and W. W. Witherspoon as major general in the army. The objection to the appointments is that the advancement would carry the men over the heads of several other officers.  
An investigation of expenditures in the forest service by a special senate committee is asked in a resolution presented by Senator Overman. The committee would sit during the recess of congress. The charge is made that duplications of payments have occurred, that more officials are employed than are needed, and that timber lands are being denuded more rapidly than before the service was established.  
Senator Tillman's refusal to abandon a \$300,000 improvement at the Charleston navy yard, and a demand of the house that all battleships be cut out of this year's building program, probably will result in a disagreement over the naval appropriation bill. An effort is under way to secure a compromise in the house, whereby one battleship will be agreed to.

The abandonment of the Democratic filibuster in the senate, following the agreement for votes next week on the tariff bills, permitted business to start with a rush Friday. The sundry civil appropriation bill was taken up and an effort will be made to pass it with little debate.  
The impeachment case of Judge Robert W. Archibald was called in the senate and Archibald ordered to answer the charges on July 29, the house to present its rebuttal answer on August 1, and supplementary answers to be in by August 3, when the case is required to be complete.  
The house considered the bill to prevent interstate shipment of prize fight picture films.  
The bill for a George Washington memorial on the site of the old depot where Garfield was shot was favorably reported.

**Eastern.**  
As two men passed the corner of 116th street and First avenue in New York Friday morning, several men leaped at them from a doorway. Ten shots were fired and both men fell. They were rushed to a hospital and found to be Vincent Goldland and Joseph Russ, a friend and neighbor. Both of the injured men will die.  
An explosion in the film room of the General Film company, Albany, N. Y., makers of moving picture films, resulted in the death of at least two men and a property loss of \$200,000. One man dropped five stories, with his clothing ablaze, and died in the hospital an hour later.  
Vice President Sherman, who has been ill at his home in Utah for several weeks, has decided, after consultation with leaders of the senate, to remain there the rest of the present session of congress. Mr. Sherman is threatened with heart weakness, and in a few weeks has lost 30 pounds.  
The price of clothes is to be advanced next year. This is indicated clearly by leading producers of cloth, who have lifted the figures for the spring of 1913 season from 7 1/2 cents to 20 cents a yard above 1912 prices. The most important cause of the advance is that the domestic wool clip this year is

SOME WORKING GIRLS LOSE TOO MUCH TIME

Two Girls Tell How To Avoid It.

There is nothing that teaches more than experience. We therefore quote from the letters of two girls who suffered and were restored to health. The same remedy is within reach of all.  
Brooklyn, N. Y.—"Prior to taking the first bottle of Lydia E. Pinkham's Vegetable Compound I suffered agony every month, but after your wonderful medicine had been taken a while I felt a little better, and after taking seven bottles of it I feel that I can truly say I have no more pain or inconvenience.  
"As I am out in the business world as a stenographer, I come in contact with many girls, and when the opportune moment arrives I tell them about the Vegetable Compound and I know that quite a few are taking it."—HELEN CANET, 555 Dean St.  
Another Girl's Experience.  
Tishomingo, Okla.—"I am a stenographer and book-keeper, and Lydia E. Pinkham's Vegetable Compound has saved my life. I am enjoying the best of health now, but I was suffering from female troubles and painful periods, and would have backache, headache and fainting spells. If any woman would like to write to me I will gladly answer her letter and tell her what Lydia E. Pinkham's Vegetable Compound has done for me."—MRS. MATTIE COFFENHAVER, Tishomingo, Okla.

other saloonkeepers were also paying tribute.  
Hector Fuller, once a war correspondent, who has been for weeks trailing J. Lawrence Mott, III, heir to millions left by his grandfather, founder of the Mott Iron Works, of New York, overtaken young Mott at Hongkong Friday. Fuller was engaged at high salary as a kind of guardian for Mott, but Mott gave him the slip and shipped from New York as purser on the tramp steamer ship Indradeo, bound for China, on May 18.  
With the death of John Trenchard and the discovery of three unidentified bodies in Wild Horse canyon, seven miles from Reno, Nev., the total toll of the flood of Thursday night, which wiped out the camp of Masuana and partially destroyed Sevent Troughs, has been brought to 11. Nine are seriously injured, six of whom are unidentified. The property loss was \$200,000.  
A large treasure belonging to the Roa's mines, in Bath county, Kentucky, where 300 miners are on strike, was blown up Thursday night. A railroad tie, heavily charged with dynamite, was discovered early Friday, just in time to prevent a train from being wrecked.  
All speed records for big-gun battleships were broken at Rockland, Me., Friday by the new battleship Wyoming, sister ship of the super-dreadnought Arkansas, during her standardizing trials. Her speed of 23.45 knots is being aided by naval experts aboard to be the fastest ever made by any battleship in the world carrying 12-inch guns.

**Pacific Coast.**  
The petition calling for the abolishment of capital punishment in California, which had been circulated in Los Angeles county for some time, was filed with the county clerk Thursday. It bears 10,032 signatures.  
A pear shaped brooch, set with diamonds, together with other jewels, believed to be a portion of the De Sabia jewels stolen from the Palace hotel at San Francisco last winter, are in possession of the three officers who left San Diego for Oakland Thursday, having in charge C. R. Riese, alias Yates. Riese has confessed to his part in an \$85,000 bond theft in New York and, in hope of receiving immunity, he has admitted complicity in several hotel jewel robberies and is leading the detectives to a cache where the booty has been hidden.  
Following her arraignment in Oakland before Judge George Samuels, on a charge of being the proprietress of a fashionable saloon which was raided Thursday by the police, Mrs. Alma Duncan declared that she was the sister of Sir Rodmond R. Roblin, premier of the Province of Manitoba, Canada, who was recently knighted by King George.  
Dragged 600 feet in front of the forks of a hayrack drawn by a runaway team, and then to be kicked by one of the maddened animals, resulted in the death of Mrs. Henry Knopp, wife of a well to do farmer and sheepman of Asotin, Wash., Friday.  
Aroused from sleep at 1 o'clock Friday morning, to look in the muzzle of a revolver pointed at his head, the cashier of the Grandview, Wash., State Bank, was forced to accompany a masked highwayman to the bank and show him the burglar-proof safe. The safe really proving burglar proof, the burglar marched Snowden back to his hotel and demanded \$2,000. Snowden had just a dollar, which he cheerfully passed over.  
Elaborate preparations are being made for the opening of the Hotel Pasco. The building is owned by the Kerfoot Investment company. The new hotel will cater to the tourist trade in a 63 room building, modern in every particular. An automobile bus will meet all trains, this being the first service of the kind in Pasco.  
The first harvest accident of the season in that part of the state occurred near Albany Friday when William McKay fell from a load of hay on the farm of R. L. Burkhardt and suffered a fracture of the left thigh.  
Results of great possibilities were reached this week when a settlement was agreed upon between the Pacific Livestock company and a number of settlers around Burns, in a lawsuit involving the waters of Foley Slough, an arm of Silvers river which flows through the valley and upon which the success of many fine farms depends.  
C. L. Houston of Astoria has a large force at work building four miles of new water works for the Clatsop Timber company, from tidewater near Knappa to the company's immense timber tract in what is known as the Big Creek district.  
The plan to merge all the tidewater sawmills and lumber interests of Washington and Oregon in a \$75,000,000 corporation has been abandoned, at least temporarily according to Henry J. Pierce, of Spokane, who has been prominent in promoting the merger.

NORTHWEST WHEAT CROP IS 74,000,000 BUSHELS FOR 1912

(Continued From Page One.)

els of wheat, compared with 16,750,000 bushels a year ago, while Idaho's total of wheat is but 11,300,000 bushels, or 1,700,000 bushels less than a year ago. The decrease in Idaho is the result of too much rain at seeding time, causing a diminished acreage. The acres sown, however, have produced practically 10 per cent more wheat than the corresponding number of acres did in 1911. Curiously, the grain situation in Idaho last year was just about as ideal as it was in Oregon this season. At that time with soil and perfect rains, not only was the acreage the greatest on record, but the output per acre broke Idaho's previous records. Considering this, the showing of 1912 is not nearly as poor as first glance would indicate.

**Oregon's Light Land Showing.**  
In Oregon the light lands have grown a wonderful average per acre. Sections that have been practically off the wheat map for three or four years owing to the very poor conditions during those periods, are this year harvesting wheat crops which are the best ever produced in quality the sections where no crop failure was ever known.  
The greatly increased output of wheat in Oregon would not exist this season were it not for the central section. In central Oregon there is a bumper production. In the vicinity of Madras, Madras ground that was raw in the extreme, containing nothing but sagebrush and juniper trees even as late as February of the present year, is showing wheat yields that average as high as 30 bushels per acre. The Deschutes county should have the prize for producing the greatest crop of wheat per acre on land farmed for the first time. This was true on dry lands as well as irrigated.  
The light land sections of the Northwest generally have excellent grain yields. The only trouble with the heavier lands in most instances was that the wheat grew so well that even with heavier straw than usual the weight of the grain was such that the heads could not be upheld. This was true especially between Pendleton, Or., and Walla Walla and Dayton, Wash. To a less degree the same condition was noticeable in the heavier lands on Eureka flat.

**Substantial Barley Increase.**  
The barley crop of the Pacific Northwest this season totals about 14,800,000 bushels, compared with 11,350,000 a year ago. While Washington had a slight increase over 1911, the better crop was in Oregon the coarse grain situation being similar to that in the wheat fields.  
Oats total 30,000,000 bushels this season, or 1,800,000 bushels greater than the 1911 crop. The annual increase is due to the smaller acreage in Idaho.  
Slowly but surely there is an increasing acreage of rye at Pacific northwest.

**Trans-Continent Hiker Held Up.**  
Centralla, Wash., July 29.—In a letter received yesterday from Clyde Patzer, a Rochester, Wash., boy who is transiting from Centralla to New York with a letter from Governor Hay to Governor Dix, the youth stated that he was held up on a lonely road in Illinois by two masked men on the night of July 10 and relieved of his camera and \$8 in money. The excessive heat in the East has made it necessary for young Patzer to walk at night.  
**Three Restaurant Men Arrested.**  
Albany, Or., July 29.—Warrants against three restaurant men were sworn out yesterday afternoon in Judge Swan's office by W. B. Duncan, a deputy pure food inspector, charging them with selling milk and cream having less than the legal amount of butterfat. The three men were J. W. Douglas of the Pullman restaurant, the excessive heat in the East and T. I. Terrill of the Oregon restaurant.

AGAIN CALLS WEST TO CLEAN UP TOWN

Good Government League of Huntington Gives Police a Chance, Meanwhile.  
(Special to The Journal.)  
Huntington, Or., July 29.—An open letter has been sent to every member of the city council, to the marshal, the city recorder, the sheriff and the district attorney of Baker county by the Good Government League of this city, calling upon them at once to take measures to stop gambling and the presence of minors, women and slot machines in saloons; to suppress houses of ill repute and properly to supervise conditions in the so-called cafes of the city. A copy of the letter has also been sent to Governor West, accompanied by a full and detailed statement of conditions during the past few months, and it is understood that a further report of conditions is to be made in time to meet his return from Idaho. The action of the council is being watched with interest since the charges submitted to Governor West are said to be fully supported by evidence of an interesting nature, especially as refers to the owners and keepers of houses of bad repute and gambling.  
City Marshal Kelsey, around whom the fight for better conditions has centered with much bitterness, has tendered his resignation to the council and accepted a position with the railroad company.

**TRAINS TO WHEAT BELT CARRY CLINGING HOBOES**  
(Special to The Journal.)  
Hood River, Or., July 29.—Eastbound passenger trains running over the O-W, R. & N. line are carrying large numbers of hobos as they pass through Hood River. These travelers are found riding on cow catchers, break rods, blind baggages and on top of the coaches. Most of the men are bound for the eastern Oregon and Washington harvest fields.  
Germany made a new record in the production of mineral fuel last year.

Table showing wheat crop statistics for Oregon and Washington counties.

County	Bushels
Oregon	
Baker	1,000,000
Clatsop	1,000,000
Columbia	1,000,000
Washington	
Asotin	700,000
Adams	1,000,000
Benton	1,500,000
Columbia	1,200,000
Douglas	1,000,000
Garfield	850,000
Klickitat	1,000,000
Linn	1,000,000
Spokane	1,000,000
Whitman	1,000,000
Walla Walla	5,000,000
Yakima	850,000
Scattered	1,500,000
Total Oregon	24,500,000
Total Washington	38,200,000

TEACHERS' RELATION TO CONSUMPTION IS TOPIC

(Salem Bureau of The Journal.)  
Salem, Or., July 29.—This afternoon one of the most important and interesting of a series of seven meetings is being held at the Armory in connection with the exhibit shown by the National Association for the Study and Prevention of Tuberculosis. Dr. Calvin S. White, state health officer, is on the program for an address on "What the Teacher Should Know About the Prevention of Tuberculosis" and other speakers are Dr. Charles R. McClure of Portland and Dr. W. R. Morse of Salem. The opening meeting last night drew a large audience and much interest is being taken in the executive exhibit showing the ravages and methods of prevention and cure of the white plague, from which 250,000 persons die annually in the United States.  
Three important addresses are on the program for tonight by Dr. L. E. Griffith, assistant superintendent of the state insane asylum; George F. Rodgers and Dr. C. S. White. Dr. L. E. Griffin, who has charge of the exhibit, will give a stereopticon lecture.

SEASIDE IS GIVEN FRESH FIRE SCARE

Water Proves Without Force to Save Moore Theatre Last Night.  
Seaside, Or., July 29.—Seaside suffered a fire scare last night which will probably be sufficient to make the Seaside elders get to work to see that better fire protection is afforded those who invest their money in business here. When the Moore theatre caught fire about 11 o'clock and was burned to the ground in less than an hour because of a lack of force to the stream of water, all Seaside held its breath for fear the fire would spread to Bridge street. The Angela May troupe lost all its trunks. The origin of the fire is unknown, but there are rumors of an incendiary.

**GO BACK HOME WHILE THE FARES ARE LOW**  
Seattle \$5.60  
Tacoma 4.35  
Astoria \$1.50  
North Beach 3.00  
Round trip Saturday to Monday  
Visit the Sea
