Great Development Predicted For Redlands District

The advertisers own large tracts of land in this locality and advise others to buy now if possible. The building of the electric line, starting from the east side terminals, out by the Reed College, Clackamas, Stone, Redlands and southward, will double and treble land values in the Redlands district. We have several 40-acre tracts listed with us, both improved and unimproved, from $60 to $100 an acre. Remember these lands are but 15 miles from Portland, and no better soil for all kinds of farm products as well as fruits, and for a speculative proposition you can not beat this, as lands are now being cut up into 5 and 10 acre tracts and sold for $250 an acre.
