

GAMBLER'S WIDOW TELLS OF METHODS OF GOTHAM POLICE

Mrs. Herman Rosenthal Before the Grand Jury Reveals Conditions Which Led to Her Husband's Death.

(United Press Leased Wire.) New York, July 23.—The inside story of the gambling situation in New York was laid bare to the grand jury today by the widow of Herman Rosenthal, who was shot to death by five assassins less than 48 hours after he had turned the spotlight on the methods of New York police in protecting gamblers in return for monthly payments.

It is uncertain whether Mrs. Rosenthal's story can be substantiated, as she undoubtedly painted as black a picture as possible.

Deputy Police Commissioner Dougherty admitted this afternoon that a general alarm had been sent to the police in the big cities to round up the gangsters who have been mentioned in the case. It is believed that some of Rosenthal's assailants are hiding on the Pacific coast. The fugitives include "Dago" Frank, Whitney Lewis, Lefty Lowmy, Harry Horowitz, alias "Gib" the Blood, "Red" Wagner and "Humpty" Jackson.

Harry Vallon, alleged to have been one of the five men who were in the gray automobile which William Shapiro drove to the Metropolitan hotel, and in which they fled after Herman Rosenthal was killed, surrendered to the police here early today. He was arraigned on a charge of homicide.

The grand jury resumed its investigation of the case today. On orders from Mayor Gaynor, the police are cooperating with District Attorney Whitman in every possible way.

PATROLMAN REINSTATED BY UNANIMOUS VOTE

The city civil service commission yesterday reinstated Patrolman Ben Peterson, the vote of the commission being unanimous. Patrolman Peterson was suspended by order of Chief Slover, who preferred a charge of larceny against the policeman.

The specific charge was that Peterson had stolen a revolver from a Chinese gambling den which was raided by Peterson. Patrolman H. A. Lewis, who was fined \$100, but not dismissed on the same charge as that filed against Peterson, declared that the latter had placed the revolver in Lewis' pocket.

Lewis and Attorney Dan Powers, representing the Chinese gamblers, were the only witnesses to testify against Peterson, but the commission decided that the testimony, being that of interested parties, was not of sufficient weight to sustain the charge, especially in view of Patrolman Peterson's long and excellent record in the service of the city.

NEGRO SALOONKEEPER KILLED BY WOMAN

(United Press Leased Wire.) San Francisco, July 23.—Melvine Laseld, a negro saloonkeeper, was stabbed to death here early today by his consort, Grace Shields. The woman was cut across the leg during her fight with Laseld. She was charged with murder. The woman claims self-defense.

SUMMER SUGGESTIONS FOR THE MOTHER

Seasonable Advice on the Health of Children in Hot Weather.

Mothers should be careful not to overfeed children during the hot months. No one requires as much food in summer as they do in cold weather. Serve only the lighter and more easily digested foods, and see that the milk is kept cool and the fruit ripe.

It is quite natural to expect some disturbance, such as constipation, indigestion or summer diarrhea, often accompanied by a cold. A mild laxative at bedtime will in most cases carry off the congested waste from the stomach next morning and by cleaning the bowels restore normal conditions.

Cathartic remedies and purgatives should never be used for children. They are harsh and violent in their action and tend to upset the entire system. The combination of simple laxative herbs with pepsin, known as Ec-Kol-Wel's Syrup Pepsin, and used by druggists for fifty years, is found to be very generally used to correct stomach and bowel trouble. It is mild and pleasant to the taste and contains no drastic drug, or narcotic, but is a natural and easily assimilated substance. A larger bottle, containing more than twice the quantity, is available for one dollar. If you have a child who is troubled with constipation, indigestion, or other ailments, write to Dr. W. H. C. Brown, 404 Washington St., Boston, Mass., for a free trial.

New Tuberculosis Remedy Based on Medicine

To say that a specific exists for the cure of tuberculosis is a statement that has been made many times. It is a statement that is true. We have a medicine that has been the means of curing many a man in years of usefulness, and is now being benefited a large number of consumptives.

Any diet that keeps a consumptive well nourished is the right one. The man going to improve the patient's health. Ec-Kol-Wel's Alternative is a medicine for the treatment of this disease. It has been found beneficial in a large number of cases. We prefer to let you hear what such people say. Investigate this case.

(Signed Affidavit) EDNA FINZER. Ec-Kol-Wel's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisonous or habit-forming drugs. It is made by The Great Dispensary, one of the leading druggists. Ask for booklet telling of recoveries and write to Ec-Kol-Wel's Laboratory, Philadelphia, Pa., for additional evidence.

MURDERED NEW YORK GAMBLER AND WIFE WHO ACCUSES POLICE

Herman Rosenthal, the New York gambler, who was shot to death by four professional gunmen after he had promised to tell District Attorney Whitman all he knew regarding the corrupt practices by which certain police officials granted protection to New York gambling houses, and his widow, who, in her grief-stricken frenzy, puts the blame of the tragedy on the police officials.

CARS CROSS NEW SPAN WITHOUT JAR

"Fast Mail" First to Use O.-W. R. & N. Bridge; Open to Freights Tonight.

The new railroad bridge is in regular operation for passenger trains and has been over since 6:30 o'clock yesterday evening. Freight trains will begin regularly crossing the bridge this evening. The first train over, one east-bound, the other from the east, were the best operated by the O.-W. R. & N. At 6:30 p. m. the "Fast Mail" pulled out over the bridge and over a track, part of which was not in place the day before, yet the train moved without a jar. In the engineer's seat, his hand on the throttle, sat the engineer who in 1888 took the first train over the old steel bridge. He is Walter J. Sherman, now the oldest engineer in the service of the O.-W. R. & N., and he said last night that the two proudest days of his life were when he took the first train over the old—then the new railroad bridge—and when "No. 10" passed over the bridge under his control last night.

The first train from the east to cross the new bridge was the fine overland "Portland Special," No. 17. Conductor J. J. Hogan was in charge of the train and Engineer Pearson in the cab. This train was made up of 10 coaches, including baggage, smoker, chair, diner and six sleepers. The train went over the bridge at exactly 7:57. Extremely satisfactory to the passengers was the fact that where there was formerly a 10 to 15 minute stop on the east side to change from the heavy engine to the light helper used in crossing the weakened steel bridge, the train rolled through the yards and out upon the new bridge smoothly and without a pause.

Never before, it is said, has a bridge of such mass and delicate adjustment been found to operate so smoothly on first trial. Chief Engineer Boshke notified General Manager J. P. O'Brien of the O.-W. R. & N. Co. yesterday evening that the bridge was ready for passenger service. Before doing so he had personally inspected the work to make sure that everything was right. The contractors have guaranteed the initial operation of the bridge up to six months, but the question as to who shall pay the first cost of operation has not been settled. There is yet considerable work to be done, including the laying of the second track on the lower deck, the ballasting of approaches, the completion of the floor on the upper deck of the lift span. All passenger trains today were routed over the bridge and freight trains will begin passing over the span tonight.

CAVALRY MAKES CAMP ON MEXICAN BORDER

(United Press Leased Wire.) Nogales, Ariz., July 23.—Three troops of the Fourth United States cavalry reached here today and went into camp. These more troops are expected within a few days. Extra Mexican soldiers have been added to the garrison at Nogales, in anticipation of a rebel attack. A large body of insurgents have crossed the border, which marks the border line between the states of Chihuahua and Sonora, and passed through without interference by the federal troops, despite the reported massacre of 600 rebels at that point, which is now unexplained.

Insurgent elements are making what preparations they can to be ready for an expected trouble when they believe will involve the American border of Sonora and the west coast of Mexico.

PROMINENT SPEAKERS TO TALK TO MICHIGANDERS

The advance guard of former residents of Michigan who are holding a reunion at the Oaks under the auspices of the Michigan State Society of Oregon, traveled to the park at 10 o'clock today to prepare lunch for probably 200 at 2:30 this evening. A program of races and sports was entered upon and plans laid for the speaking this evening when Postmaster Merrick, George H. Frost of the society, and Ex-Senator Binkum will speak. The speakers will be in the evening and the speakers will be in the evening and the speakers will be in the evening.

REVENUE CUTTER UNALGA COMING TO THE PACIFIC

(United Press Leased Wire.) Washington, July 23.—An ocean steamer, the revenue cutter Unalga, being repaired at San Pedro, will be stricken from the cutter list. The Unalga, now Chesapeake bay, is scheduled to sail for San Francisco this week via the West coast.

6000 ACRES BADLY POUNDED BY HAIL ON CAMAS PRAIRIE

This and Other Damage in Lewiston Country Runs to \$100,000, Ripe Heads Being Easy to Shatter.

(Special to The Journal.) Lewiston, Idaho, July 23.—The most accurate information that can be obtained now as to the loss which the crops on the Camas Prairie, the richest farming belt in the Lewiston country, will suffer holds the damage at about \$100,000. The unevenness of the hail-storm which swept the fields for several minutes Sunday, demoralizing telephone and telegraphic connections, has rendered it difficult to estimate the loss but it is believed that more than 6000 acres will be greatly affected by the severe downpour.

The crop promised to be the heaviest ever produced in this section and the heavily laden heads were easy to shatter and the stalks to beat down. The most accurate data now shows that the crop will be less than half in the sections where the storm was worst.

There are many fields ranging between 200 and 600 acres that will suffer for almost a total loss. A small portion of the loss is covered by insurance. The territory close to Lewiston suffered no loss, the downpour coming only in the form of rain. Harvesting operations will be hindered for several days. The grain has been ready to cut for the past week. Aside from the damage resulting to the crops in this vicinity numerous cloudbursts have been reported through this section of the state and streams are swelling rapidly.

Grand Ronde Little Damaged.

La Grande, Or., July 23.—Reports drifting in from the mountain towns, mining villages and government stations tell of a severe series of cloudbursts from Saturday until Monday. Little was felt of the storms in the Grand Ronde valley, Cove alone feeling some effects of hail, but in every direction from La Grande there was evidence of severe weather. At least a half dozen cloudbursts are reported. The damage to Cove cherries is not deemed very great.

Two Beauty Secrets For Summer Months

Hair requires frequent shampooing in summer because of the great amount of dust and soot in the air, and if you dissolve a teaspoonful of canthrox in a cup of hot water you will have ample mixture for a cleansing, invigorating and wonderfully satisfying shampoo. After using canthrox, the hair dries quickly and evenly, and will be ever so soft and brilliant even in the hottest weather. Then you can do your hair up in any style with little effort.

A spumax lotion is ideal for hot weather because it permits the pores to do their work perfectly, and when this is done pimples, blackheads, oiliness and fine lines vanish. To make, add 2 teaspoonfuls glycerine to ¼ pint witch hazel (or hot water), then put in 4 ounces spumax. After the spumax lotion is applied to the face it is invigorating and imparts a youthful charm and tint to any complexion.

Temperature Low at La Grande.

(Special to The Journal.) La Grande, Or., July 23.—With the mercury down to 64, the coldest July 23 since 1901 was recorded here yesterday afternoon. It was 41 degrees at 9 this morning.

mining villages and government stations tell of a severe series of cloudbursts from Saturday until Monday. Little was felt of the storms in the Grand Ronde valley, Cove alone feeling some effects of hail, but in every direction from La Grande there was evidence of severe weather. At least a half dozen cloudbursts are reported. The damage to Cove cherries is not deemed very great.

Carload of Electric Cook Stoves Arrives in Portland

The Copeland—a new electric cook stove—the latest in the market—is the wonder of the day. It is economical, a time saver, and labor saver. So far in advance of all others is this stove, that a carload was ordered to demonstrate its usefulness to the people of Portland.

This stove is worthy of inspection of every housewife.

Demonstrations by practical operators from the East will be made at the Electric Store from 2 to 5 every afternoon, beginning with today.

Portland Railway, Light & Power Company
